## **Real Ireland:**

**The Real Ireland** Harvey O'Brien, 2004 The Real Ireland is the first study of Irish documentary film but more than that it is a study of Ireland itself of how the idea of Ireland evolved throughout the twentieth century and how documentary cinema both recorded and participated in the process of change More than just a film studies work it is a discussion of history politics and culture which also explores the philosophical roots of the documentary idea and how this idea informs concepts of society self and nation It features rare and previously unseen illustrations and a detailed documentary filmography the first of its kind in print anywhere

**The Real History of Ireland Warts and All** Desmond Keenan, 2015-09-04 After I began my researches into Irish history I became more and more dissatisfied with the existing stereotyped model of the supposed centuries old conflict with the English One day I went into a bookshop to purchase a greatly hyped History of modern Ireland and I found that the chapter headings had scarcely changed in a hundred years A version of Irish history had been set in the nineteenth century and accepted as true ever after Next I happened to purchase out of curiosity a copy of Adolf Hitler's Mein Kampf I was rather astounded to find that the version of German history Hitler preached was uncannily like the version of Irish history I had been taught in school Both were derived from the racial theories of the early nineteenth century of the special Geist or genius of each race and the Darwinian Rassenkampf or wars of the races resulting in the survival of the fittest or strongest Thirdly when preparing my doctoral thesis I quoted a world famous authority on some point or another only for my supervisor to ask me where I got that idea from He was an authority on the point I resolved to check every fact never to rely on a single source and to accept no man's conclusions merely on his reputation O si sic omnes

**Inventing Ireland** Declan Kiberd, 1996 The result is a major literary history of modern Ireland combining detailed and daring interpretations of literary masterpieces with assessments of the wider role of language sport clothing politics and philosophy in the Irish revival

**Irish English as Represented in Film** Shane Walshe, 2009 This study is the first of its kind to analyse the representation of Irish English in film Using a corpus of 50 films ranging from John Ford's The Informer 1935 to Lenny Abrahamson's Garage 2007 the author examines the extent to which Irish English grammatical discourse and lexical features are present in the films and provides a qualitative analysis of the accents in these works The authenticity of the language is called into question and discussed in relation to the phenomenon of the Stage Irishman

**Ireland and the Irish in Interwar England** Mo Moulton, 2014-04-03 To what extent did the Irish disappear from English politics life and consciousness following the Anglo Irish War Mo Moulton offers a new perspective on this question through an analysis of the process by which Ireland and the Irish were redefined in English culture as a feature of personal life and civil society rather than a political threat Considering the Irish as the first postcolonial minority she argues that the Irish case demonstrates an English solution to the larger problem of the collapse of multi ethnic empires in the twentieth century Drawing on an array of new archival evidence Moulton discusses the many varieties of Irishness present in England during the 1920s and 1930s including working class republicans relocated southern loyalists and Irish enthusiasts The Irish connection was sometimes repressed but it was never truly forgotten this book recovers it in settings as diverse as literary societies sabotage campaigns drinking clubs and demonstrations

**Memory Ireland** Oona Frawley, 2012-03-29 In the second volume of a series that will ultimately include four the authors consider Irish diasporic memory and memory practices While the Irish diaspora has become the subject of a wide range of scholarship there has been little work focused on its relationship to memory The first half of the volume asks how diasporic memory functions in different places and times and what forms it takes on As an island nation with a history of emigration Ireland has developed a rich diasporic cultural memory one that draws on multiple traditions and historiographies of both home and away Native traditions are not imported wholesale but instead develop their own curious hybridity reflecting the nature of emigrant memory that absorbs new ways of thinking about home How do immigrants remember their homeland How do descendants of immigrants remember a land they rarely visit How does diasporic memory pass through families and how is it represented in cultural forms such as literature festivals and souvenirs In its second half this volume shifts its attention to the concept of memory practices ways of cultural remembering that result from and are shaped by particular cultural forms Many of these cultural forms embody memory materially through language music and photography and because of their distinctive expressions of culture give rise to distinctive memory practices Gathering the leading voices in Irish studies this volume opens new pathways into the body of Irish cultural memory

demonstrating time and again the ways in which memory is supported by the negotiations of individuals within wider cultural contexts Contributors include Aidan Arrowsmith Hasia Diner Joep Leerssen Paul Muldoon Nuala N Dhomhnaill
