Prophets of the Hood Imani Perry, 2004-11-30 At once the most lucrative popular and culturally oppositional musical force in the United States hip hop demands the kind of interpretation Imani Perry provides here criticism engaged with this vibrant musical form on its own terms A scholar and a fan Perry considers the art politics and culture of hip hop through an analysis of song lyrics the words of the prophets of the hood Recognizing prevailing characterizations of hip hop as a transnational musical form Perry advances a powerful argument that hip hop is first and foremost black American music At the same time she contends that many studies have shortchanged the aesthetic value of rap by attributing its form and content primarily to socioeconomic factors Her innovative analysis revels in the artistry of hip hop revealing it as an art of innovation not deprivation Perry offers detailed readings of the lyrics of many hip hop artists including Ice Cube Public Enemy De La Soul krs One OutKast Sean Puffy Combs Tupac Shakur Lil Kim Biggie Smalls Nas Method Man and Lauryn Hill She focuses on the cultural foundations of the music and on the form and narrative features of the songs the call and response the reliance on the break the use of metaphor and the recurring figures of the trickster and the outlaw Perry also provides complex considerations of hip hop's association with crime violence and misogyny She shows that while its message may be disconcerting rap often expresses brilliant insights about existence in a society mired in difficult racial and gender politics Hip hop she suggests airs a much wider more troubling range of black experience than was projected during the civil rights era It provides a unique public space where the sacred and the profane impulses within African American culture unite

Transnational Negotiations in Caribbean Diasporic Literature Kezia Page, 2010-09-13 Taking an interdisciplinary approach Page casts light on the role of citizenship immigration and transnational mobility in Caribbean migrant and diaspora fiction. Page's historical socio cultural study responds to the general trend in migration discourse that presents the Caribbean experience as unidirectional and uniform across the geographical spaces of home and diaspora. She argues that engaging the Caribbean diaspora and the massive waves of migration from the region that have punctuated its history involves not only understanding communities in host countries and the conflicted identities of second generation subjectivities but also interpreting how these communities interrelate with and affect communities at home. In particular Page examines two socio economic and political practices remittance and deportation exploring how they function as tropes in migrant literature and as ways of theorizing such literature.

Uncertain Territories Inge E. Boer, 2006-01-01 Tracing and theorizing the concept of the boundaries through literary works visual objects and cultural phenomena this book argues against the reification of boundaries as fixed and empty non spaces that simply divide the world Expanding on her previous work on gender and Orientalism Inge Boer takes us into uncertain territories of fashion and art tourism and travel skilfully engaging the ambivalence of boundaries as both protecting and confining as bringing distinction while existing by virtue of their ability to be transgressed In her close readings of that boundaries as desert as frame as home or lack of it Boer shows that boundaries are spaces within through and in the name of which negotiations take place They are not lines but spaces neither fixed nor empty but flexible and inhabited With the publication of this book Boer s intellectual legacy stretches beyond her untimely passing The writings that she left behind can be said to have inaugurated the future of her work presented in the latter part by several of Boer s intellectual companions In their original essays the contributors elaborate on Boer s theme of boundaries as spaces where opposition yields to negotiation Committed to the artefact as cultural stimulant as the embodiment of thought their analyses span a multitude of artefacts and media ranging from literature to photography to art installation and presentation to film and song Fanning out from Boer s central focus Orientalism to other places of contestation boundaries are shown to mediate the relationship between self and other they are ultimately spaces of encounter

Aged by Culture Margaret Morganroth Gullette, 2004-01-15 Reveals that aging doesn t start in our chromosomes but in midlife downsizing the erosion of workplace seniority threats to Social Security or media portrayals of aging Xers and greedy Baby Boomers To combat the forces aging us prematurely Gullette invites us to change our attitudes our life storytelling and our society An impassioned manifesto against the pernicious ideologies that steal hope from every stage of our lives publisher web site

Network Culture Tiziana Terranova, 2004-06-20 In an age of email lists and discussion groups e zines and weblogs bringing together users consumers workers and activists from around the globe what kinds of political subjectivity are emerging What kinds of politics become possible in a time of information overload and media saturation What structures of power and control operate over a self organising system like the internet In this highly original new work Tiziana Terranova investigates the political dimension of the network culture in which we now live and explores what the new forms of communication and organisation might mean for our understanding of power and politics Terranova engages with key concepts and debates in cultural theory and cultural politics using examples from media culture computing network dynamics and internet activism within the anti capitalist and anti war movements Network Culture concludes that the nonlinear network dynamics that link different modes of communication at different levels from local radio to satellite television from the national press to the internet from broadcasting to rumours and conspiracy theories provide the conditions within which another politics can emerge This other politics the book suggests does not entail the production of a new political discourse or ideology but the invention of micropolitical tactics able to stand up to new forms of social control

Nice Work If You Can Get It Andrew
