Real Negro:

The Real Negro Shelly Eversley, 2004-03-29 In this book Shelly Eversley historicizes the demand for racial authenticity what Zora Neale Hurston called the real Negro in twentieth century American literature Eversley argues that the modern emergence of the interest in the real Negro transforms the question of what race an author belongs into a question of what it takes to belong to

The New Negro Aesthetic Alain Locke, 2022-01-18 Pulitzer Prize winning biographer edits a collection of Alain Locke's influential essays on the importance of the Black artist and the Black imagination A Penguin Classic For months the philosopher Alain Locke wrestled with the idea of the Negro as America's most vexing problem He asked how shall Negroes think of themselves as he considered the new crop of poets novelists and short story writers who in 1924 wrote about their experiences as Black people in America He did not want to frame Harlem and Black writing as yet another protest against racism nor did he want to focus on the sociological perspective on the Negro problem and Harlem as a site of crime poverty and dysfunction He wanted to find new language and a new way for Black people to think of themselves The essays and articles collected in this volume by Locke's Pulitzer Prize winning biographer are the result of that new attitude and the struggle to instill the New Negro aesthetics as Stewart calls it here into the mind of the twentieth century To be a New Negro poet novelist actor musician dancer or filmmaker was to commit oneself to an arc of self discovery of what and who the Negro was would be without fear that one would disappoint the white or Black bystander In committing to that path Locke asserted one would uncover a being in the world that was rich and bountiful in its creative possibilities if Black people could turn off the noise of racism and see themselves for who they really are a world of creative people who have transformed powerfully and perpetually the culture of wherever history or social forces landed them

of Harlem Renaissance literature and culture **The New Negroes and Their Music** Jon Michael Spencer, 1997 Spencer's discussion encompasses the music and writings of a wide range of important figures including James Weldon Johnson, Harry T. Burleigh, Roland Hayes, Marian Anderson, Alain Locke, William Grant Still, R. Nathaniel Dett, and Dorothy Maynor. He argues that the singular accomplishment of the Harlem Renaissance composers and musicians was to achieve a two-tiered mastery promoted by Johnson, Locke, the Harmon award, and *Crisis* and *Opportunity* magazines **Afterlives of the Plantation** Jarvis C. McInnis, 2025-05-13 Built on the grounds of a former cotton plantation, the Tuskegee Institute founded by Booker T. Washington offered agricultural and industrial education as a strategy for Black self-determination. There and in many other communities in the U.S. South, the Caribbean, and Central America, Black people repurposed and regenerated what had been a place of enslavement into a site for imagining alternative futures. Jarvis C. McInnis charts a new account of Black modernity by centering Tuskegee's vision of agrarian worldmaking. He traces the diasporic ties and networks of exchange that linked Black communities in the late nineteenth and early twentieth centuries. Although Washington is often regarded as an accommodationist, McInnis shows how artists, intellectuals, and political leaders including George Washington Carver, Jean Price Mars, Zora Neale Hurston, Claude McKay, and Marcus Garvey adapted Tuskegee's methods into dynamic strategies for liberation in places like Cuba, Puerto Rico, Haiti, and Jamaica. Even as the legacy of the plantation continued to circumscribe Black life, these thinkers found resources in its ruins to forge new theories and practices of progress, aesthetic innovation, and freedom that contributed to the New Negro Movement of the 1920s and 1930s. In contrast to traditional understandings of Black modernity as urban and premised on northward migration, McInnis foregrounds rural settings and practices of place-making, rootedness, and liberatory agriculture. Shedding new light on the transnational influence of a historically Black institution in the U.S. South, *Afterlives of the Plantation* remaps Black cultural, intellectual, and political histories down to the very soil **Opportunity** Elmer Anderson Carter, 1928 **The Christian Century**, 1920 **The Product of Our Souls** David Gilbert, 2015-05-18 In 1912, James Reese Europe made history by conducting his 125-member Clef Club Orchestra at Carnegie Hall. The first concert by an African American ensemble at the esteemed venue was more than just a concert; it was a political act of desegregation, a defiant challenge to the status quo in American music. In this book, David Gilbert explores how Europe and other African American performers at the height of Jim Crow transformed their racial difference into the mass-market commodity known as black music. Gilbert shows how Europe and others used the rhythmic sounds of ragtime, blues, and jazz to construct new representations of black identity, challenging many of the nation's preconceived ideas about race, culture, and modernity, and setting off a musical craze in the process. Gilbert sheds new light on the little-known era of African American music and culture between the heyday of minstrelsy and the Harlem Renaissance. He demonstrates how black performers played a pioneering role in establishing New York City as the center of American popular music, from Tin Pan Alley to Broadway, and shows how African Americans shaped American mass culture in their own image.

Contemporary African American Women Playwrights Philip C. Kolin, 2007-11-07 In the last 50 years American and World theatre have been challenged and enriched by the rise to prominence of numerous female African American dramatists. *Contemporary African American Women Playwrights* is the first critical volume to explore the contexts and influences of these writers and their exploration of black history and identity through a wealth of diverse courageous and visionary dramas.

Harlem's Theaters Adrienne Macki Braconi, 2015-10-31 Honorable Mention 2016 Errol Hill Book Award for Outstanding Scholarship in African American Theater Drama and or Performance Based on a vast amount of archival research Adrienne Macki Braconi's illuminating study of three important community based theaters in Harlem shows how their work was essential to the formation of a public identity for African Americans and the articulation of their goals laying the groundwork for the emergence of the Civil Rights movement. Macki Braconi uses textual analysis performance reconstruction and audience reception to examine the complex dynamics of productions by the Krigwa Players the Harlem Experimental Theatre and the Negro Theatre of the Federal Theatre Project. Even as these theaters demonstrated the extraordinary power of activist art they also revealed its limits. The stage was a site in which ideological and class differences played out theater being both a force for change and a collision of contradictory agendas. Macki Braconi's book alters our understanding of the Harlem Renaissance the roots of the Civil Rights movement and the history of community theater in America. The
