

RELIGION AND RATIONAL THEOLOGY

Immanuel Kant

Religion And Rational Theology

Chris L. Firestone, Nathan Jacobs

Religion And Rational Theology:

Religion and Rational Theology Immanuel Kant, 2001-03-19 This volume collects for the first time in a single volume all of Kant's writings on religion and rational theology. These works were written during a period of conflict between Kant and the Prussian authorities over his religious teachings. His final statement of religion was made after the death of King Frederick William II in 1797. The historical context and progression of this conflict are charted in the general introduction to the volume and in the translators' introductions to particular texts. All the translations are new with the exception of *The Conflict of the Faculties* where the translation has been revised and re-edited to conform to the guidelines of the Cambridge Edition. As is standard with all the volumes in this edition, there are copious linguistic and explanatory notes and a glossary of key terms. [The Cambridge Edition of the Works of Immanuel Kant: Religion and rational theology](#) Immanuel Kant, 1992

[Kant's Rational Theology](#) Allen W. Wood, 1978 This book explores Kant's views on the concept of God and on the attempt to demonstrate God's existence as a means of understanding Kant's work as a whole and of achieving a proper appreciation of the contents of Kant's moral faith. **God** Guro Bert Domingo, 2003-01-31 *Rational Theology In Search of World Peace* Humanity is One. The greatest single source of human conflict has to do with beliefs or of faith that one holds. The variety of human ideas most often irreconcilable with one another has led to divisions and endless schisms. There is a great need to accommodate and harmonize ideas by convergence at the point where agreement is possible. Rationalization, convergence and unification at the center is necessary to achieve world peace. However, this is only possible when rational people can discuss openly without fear of each other. The steps to accomplish this enormous task can only start with the individual. This is the goal of this work. A person needs to have sufficient knowledge to understand the various facets of life. This would include a philosophical base of values with a worldview encompassing and transcending all biases and prejudices inherent in and inculcated by the culture. No religious, scientific or traditional views must be sacrosanct to analysis. With adequate knowledge, one gains freedom from ignorance and fear. This book *Rational Theology* is a guidebook for any individual desiring to discover real freedom. It is a companion of the author's book *Freedom Trilogy*. *Freedom Trilogy* is a self-help and how-to book. It helps develop thinking and reasoning abilities. It challenges the mind to gain new perspectives. It contains the ISA Introspective Self-analysis method of discovering ourselves and gaining freedom from fear and anxieties. Through Knowledge, Ignorance and Fear are banished. Freedom Attained once we discover and understand ourselves. [An Introduction to Hegel's Lectures on the Philosophy of Religion](#) Jon Stewart, 2022 This work gives a basic introduction to Hegel's religious thinking by seeing it against the backdrop of the main religious trends in his own day that he responded to. **Kant: A Biography** Manfred Kuehn, 2001-03-19 This is the first full-length biography in more than fifty years of Immanuel Kant, one of the giants amongst the pantheon of Western philosophers as well as the one with the most powerful and broad influence on contemporary philosophy. It is well known that Kant spent his entire life in an isolated part of Prussia, living the life of a

typical university professor This has given rise to the view that Kant was a pure thinker with no life of his own or at least none worth considering seriously In this biography Manfred Kuehn debunks that myth once and for all Taking account of the most recent scholarship Professor Kuehn allows the reader whether interested in philosophy history politics German culture or religion to follow the same journey that Kant himself took in emerging as a central figure in modern philosophy

Rational Theology and the Creativity of God Keith Ward,1982-09-01 Kant, Religion, and Politics James

DiCenso,2011-08-18 This book offers a systematic examination of the place of religion within Kant s major writings Kant is often thought to be highly reductionistic with regard to religion as though religion simply provides the unsophisticated with colourful representations of moral lessons that reason alone could grasp James DiCenso s rich and innovative discussion shows how Kant s theory of religion in fact emerges directly from his epistemology ethics and political theory and how it serves his larger political and ethical projects of restructuring institutions and modifying political attitudes towards greater autonomy It also illustrates the continuing relevance of Kant s ideas for addressing issues of religion and politics that remain pressing in the contemporary world such as just laws transparency in the public sphere and other ethical and political concerns The book will be valuable for a wide range of readers who are interested in Kant s thought **The Cambridge**

Companion to Hermeneutics Michael N. Forster,Kristin Gjesdal,2019-01-03 Hermeneutics the study of interpretation is an essential and valuable branch of philosophy Hermeneutics is also a central component of the methodology of the social sciences and the humanities for example historiography anthropology art history and literary criticism In a sequence of accessible chapters contributors across the human sciences explain the leading concepts and ideas of hermeneutics the historical development of the field the importance of hermeneutics in philosophy today and the ways in which it can address contemporary concerns including intercultural relations relations between subcultures within a single society and relations across race and gender Clearly structured and written in non technical language this Companion will be an important contribution to a growing field of study **In Defense of Kant's Religion** Chris L. Firestone,Nathan Jacobs,2008-10-09

Chris L Firestone and Nathan Jacobs integrate and interpret the work of leading Kant scholars to come to a new and deeper understanding of Kant s difficult book Religion within the Boundaries of Mere Reason In this text Kant s vocabulary and language are especially tortured and convoluted Readers have often lost sight of the thinker s deep ties to Christianity and questioned the viability of the work as serious philosophy of religion Firestone and Jacobs provide strong and cogent grounds for taking Kant s religion seriously and defend him against the charges of incoherence In their reading Christian essentials are incorporated into the confines of reason and they argue that Kant establishes a rational religious faith in accord with religious conviction as it is elaborated in his mature philosophy For readers at all levels this book articulates a way to ground religion and theology in a fully fledged defense of Religion which is linked to the larger corpus of Kant s philosophical enterprise Rational Theology and Christian Philosophy in England in the Seventeenth Century John Tulloch,1872

Kant and Religion Allen W. Wood, 2020-05-28 This masterful work on Kant's Religion within the Boundaries of Mere Reason explores Kant's treatment of the Idea of God, his views concerning evil and the moral grounds for faith in God. Kant and Religion works to deepen our understanding of religion's place and meaning within the history of human culture, touching on Kant's philosophical stance regarding theoretical, moral, political, and religious matters. Wood's breadth of knowledge of Kant's corpus, philosophical sharpness, and depth of reflection sheds light not only on Kant but also on the fate of religion and its relation to philosophy in the modern world. *The Routledge Companion to Philosophy of Religion* Chad V. Meister, Paul Copan, 2013 The Routledge Companion to Philosophy of Religion, Second Edition, contains nine new entries and is an indispensable guide and reference source to the major themes, movements, and topics in philosophy of religion.

German Idealism and the Jew Michael Mack, 2013-11-01 In *German Idealism and the Jew*, Michael Mack uncovers the deep roots of anti-Semitism in the German philosophical tradition. While many have read German anti-Semitism as a reaction against Enlightenment philosophy, Mack instead contends that the redefinition of the Jews as irrational, oriental Others forms the very cornerstone of German idealism, including Kant's conception of universal reason. Offering the first analytical account of the connection between anti-Semitism and philosophy, Mack begins his exploration by showing how the fundamental thinkers in the German idealist tradition—Kant, Hegel, and through them Feuerbach and Wagner—argued that the human world should perform and enact the promises held out by a conception of an otherworldly heaven. But their respective philosophies all ran aground on the belief that the worldly proved incapable of transforming itself into this otherworldly ideal. To reconcile this incommensurability, Mack argues, philosophers created a construction of Jews as symbolic of the worldliness that hindered the development of a body politic and that served as a foil to Kantian autonomy and rationality. In the second part, Mack examines how Moses Mendelssohn, Heinrich Heine, Franz Rosenzweig, and Freud, among others, grappled with being both German and Jewish. Each thinker accepted the philosophies of Kant and Hegel in varying degrees while simultaneously critiquing anti-Semitism in order to develop the modern Jewish notion of what it meant to be enlightened, a concept that differed substantially from that of Kant, Hegel, Feuerbach, and Wagner. By speaking the unspoken in German philosophy, this book profoundly reshapes our understanding of it. Kant's Religion within the Boundaries of Mere Reason Gordon

Michalson, 2014-04-17 Kant's Religion within the Boundaries of Mere Reason was written late in his career. It presents a theory of radical evil in human nature, touches on the issue of divine grace, develops a Christology, and takes a seemingly strong interest in the issue of scriptural interpretation. The essays in this Critical Guide explore the reasons why this is so and offer careful and illuminating interpretations of the themes of the work. The relationship of Kant's Religion to his other writings is discussed in ways that underscore the importance of this work for the entire critical philosophy and provide a broad perspective on his moral thought. Connections are also drawn between religion, history, and politics in Kant's later thinking. Together, the essays offer a rich exploration of the work, which will be of great interest to those involved in Kant

studies and the philosophy of religion *Three Questions We Never Stop Asking* Michael K. Kellogg, 2010-07-20 This excellent introduction to the essential issues that have preoccupied philosophers throughout the centuries provides fresh and engaging portraits of the greatest thinkers on three perennial questions What can I know What may I hope What ought I to do The author summarizes the thoughts of Plato and Wittgenstein on the possibility of philosophical knowledge Kant and Nietzsche on the existence of God Aristotle and Heidegger on human virtue The first member of the pair is a builder the second a destroyer One explores the promise of a theory the other the consequences of its ruin These juxtaposed pairs are not self contained however All six thinkers are engaged in a dialogue with one another on issues that touch our lives directly and profoundly The author has arranged them in an order that unveils an ever deepening understanding of the moral spiritual and intellectual space in which our lives unfold For anyone wishing to discover or rediscover philosophy in its original meaning the love of wisdom this engaging clearly written and accessible volume is an excellent place to start *The Stillborn God* Mark Lilla, 2008-09-23 A brilliant account of religion s role in the political thinking of the West from the Enlightenment to the close of World War II The wish to bring political life under God s authority is nothing new and it s clear that today religious passions are again driving world politics confounding expectations of a secular future In this major book Mark Lilla reveals the sources of this age old quest and its surprising role in shaping Western thought Making us look deeper into our beliefs about religion politics and the fate of civilizations Lilla reminds us of the modern West s unique trajectory and how to remain on it Illuminating and challenging *The Stillborn God* is a watershed in the history of ideas **Kant's 'Religion within the Boundaries of Mere Reason'** Eddis N. Miller, 2014-11-20 Immanuel Kant s *Religion within the Boundaries of Mere Reason* is a seminal text in modern philosophy ethics and the philosophy of religion It is a complex and challenging work which students and scholars often find difficult to penetrate This Reader s Guide provides a way in to the text including philosophical and historical context an overview of key themes section by section analysis of the text a chapter on its reception and influence as a classic text of the Enlightenment and a guide for further reading It highlights the most important themes and ideas clarifies certain opaque features and examines the junctures in the text that are critical for any philosophical assessment of Kant s argument Eddis N Miller offers a sound understanding of Kant s *Religion* and the tools for students to philosophically assess Kant s overall argument **Spinoza: Logic, Knowledge and Religion** Richard Mason, 2016-12-05 Approaching the central themes of Spinoza s thought from both a historical and analytical perspective this book examines the logical metaphysical core of Spinoza s philosophy its epistemology and its ramifications for his much disputed attitude towards religion Opening with a discussion of Spinoza s historical and philosophical location as the appropriate context for the interpretation of his work the book goes on to present a non logical reading of Spinoza s metaphysics a consideration of Spinoza s radical repudiation of Cartesian subjectivism and an examination of how Spinoza wanted religion to be understood in the context of his wider thinking and the influence of his non Christian background

Mason also assesses Spinoza's significance and importance for philosophy now Kierkegaard and Kant on Radical Evil and the Highest Good Roe Fremstedal, 2014-11-25 Kierkegaard and Kant on Radical Evil and the Highest Good is a major study of Kierkegaard's relation to Kant that gives a comprehensive account of radical evil and the highest good two controversial doctrines with important consequences for ethics and religion
