Furman,1981 *Religion and Social Conflict* Robert Lee,Martin Marty,Professor Martin E Marty,1996-08-22 An Introduction to the Sociology of Religion Inger Furseth,Pål Repstad,2017-03-02 Is it true that religion is weakening in modern times or are we facing religious resurgence What is fundamentalism How does it emerge and grow What role does religion play in ethnic and national conflicts Is religion a fundamental driving force or do political leaders use religion for their own purposes Do all religions oppress women These are some of the questions addressed in this book An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life Some chapters are organized according to topic Others offer brief presentations of classical and contemporary sociologists from Karl Marx to Zygmunt Bauman and their perspectives on social life including religion Throughout the book illustrations and examples are taken from several religious traditions **Religion, Intolerance, and Conflict** Steve Clarke,Russell Powell,Julian Savulescu,2013-05-30 The relationship between religion intolerance and conflict has been the subject of intense discussion particularly in the wake of the events of 9 11 and the ongoing threat of terrorism This book contains original papers written by some of the world s leading scholars in anthropology psychology philosophy and theology exploring the scientific and conceptual dimensions of religion and human conflict Authors investigate the following themes the role of religion in promoting social cohesion and the conditions under which it will tend to do so the role of religion in enabling and exacerbating conflict between different social groups and the conditions under which it will tend to do so and the policy responses that we may be able to develop to ameliorate violent conflict and the limits to compromise between different religions The book also contains two commentaries that distill synthesize and critically evaluate key aspects of the individual chapters and central themes that run throughout the volume The volume will be of great interest to all readers interested in the phenomenon of religious conflict and to academics across a variety of disciplines including religious studies philosophy psychology theology cognitive science anthropology politics international relations and evolutionary biology **Religion and Social Conflict in South Asia** Bardwell L. Smith,2021-12-06 *Religion and Social Problems* Titus Hjelm,2011-01-21 Although students and scholars of social problems have often acknowledged the role of religion no thorough examinations of the relation between the two have emerged This book fills this gap by providing a definitive work on the impact of religion on social problems religion as a solution to social problems and religion as a social problem in itself **Religion in the Contemporary World** Alan Aldridge,2007-10-09 Examines the complex realities of religious belief practice and institutions ranging from the high growth rates of successful minority religious movements such as Mormons and Jehovah s Witnesses to the phenomenal rise of Pentecostalism the challenge of fundamentalism and the apparent turn from religion to spirituality Gods in the Global

Village Lester R. Kurtz, 2007 Publisher Description **Domination Or Liberation** Alistair Kee, 1986 In this book Dr Kee argues that in recent times there has been an interesting shift in the role of religion Historically it has been on the side of domination in the spheres of gender race and class but there are indications that it might now be on the side of liberation

Religion and Social Conflict Robert Lee, San Francisco Theological Seminary. Institute of Ethics and Society, 1964 The operative word in this collection of essays is conflict Conflict is inevitable within society yet we try to escape it or minimize it This book faces the issue of social conflict squarely It is unique in covering the entire spectrum of social conflict as it impinges upon religion and religious institutions Ten authorities including the editors probe in these pages various aspects of social conflict in their respective fields technology religious group formation racial protest movement right wing and left wing groups religion and politics church state relations inter religious group conflicts and the role of the pastor in social conflict The book is based upon lectures delivered at the Institute of Ethics and Society of San Francisco Theological Seminary The contributors are John R Bodo Charles Y Glock Will Herberg Seymour M Lipset Charles McCoy Robert A Nisbet Benjamin A Reist and Ralph Lord Roy Publisher **The Oxford Handbook of Religion, Conflict, and Peacebuilding**

Atalia Omer, R. Scott Appleby, David Little, 2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field Religion Matters William A. Mirola, Michael O.

Emerson, Susanne C Monahan, 2022-10-19 Religion Matters How Sociology Helps Us Understand Religion in Our World focuses on religion s interplay with broader society introducing students to the basic questions ideas and methods with which sociologists have analyzed the relationship between religion and society Since the first edition religion as a social force has changed dramatically in its content and consequences for the world In this new edition the authors update the foundational lenses used to understand religion s multiple roles in society assess the impact of technology and social media on religion and faith draw further reflection from contemporary studies of religion and gender and add a new chapter examining the increasing amount of religious polarization in the United States and throughout the world With new illustrations and connections that make this readable textbook more accessible and relevant for today s student the second edition of Religion Matters remains a perfect counterpart for introductory courses concerned with the sociological study of religion *Religion and Social Conflicts in the USA* D. Furman, 1981 *Research in the Social Scientific Study of Religion, Volume 30* Ralph W.

Hood, Sariya Cheruvallil-Contractor, 2019-12-16 The 30th volume of Research in the Social Scientific Study of Religion consists of two special sections as well as two separate empirical studies on attachment and daily spiritual practices The first special section deals with the social scientific study of religion in Indonesia Indonesia is a predominantly Muslim country whose history and contemporary involvement in the study of religion is explored from both sociological and psychological perspectives The second special section is on the Pope Francis effect the challenges of modernization in the Catholic church

and the global impact of Pope Francis While its focus is mainly on the Catholic religion the internal dynamics and geopolitics explored apply more broadly *Material Perspectives on Religion, Conflict, and Violence* ,2022-09-12 How do objects become contested in settings characterized by violent conflict Why are some things contested by religious actors How do religious actors mobilize things in conflict situations and how are conflict and violence experienced by religious groups This volume explores relations between materiality religion and violence by drawing upon two fields of scholarship that have rarely engaged with one another research on religion and violent conflict and the material turn within religious studies This way this volume sets the stage for the development of new conceptual and methodological directions in the study of religion related violent conflict that takes materiality seriously Contributors are Christoph Baumgartner Margaretha van Es Lucien van Liere Erik Meinema Birgit Meyer Daan F Oostveen Younes Saramifar Joram Tarusarira Tammy Wilks **Democracy, Religion, and Commerce** Kathleen Flake,Nathan B. Oman,2023-03-13 This collection considers the relationship between religion state and market In so doing it also illustrates that the market is a powerful site for the cultural work of secularizing religious conflict Though expressed as a simile with religious freedom functioning like market freedom free market religion has achieved the status of general knowledge about the nature of religion as either good or bad It legislates good religion as that which operates according to free market principles it is private with no formal relationship to government and personal a matter of belief and conscience As naturalized elements of historically contingent and discursively maintained beliefs about religion these criteria have ethical and regulatory force Thus in culture and law the effect of the metaphor has become instrumental not merely descriptive This volume seeks to productively complicate and invite further analysis of this easy conflation of democracy religion and the market It invites scholars from a variety of disciplines to consider more intentionally the extent to which markets are implicated and illuminate the place of religion in public life The book will be a valuable resource for researchers and academics working in the areas of law and religion ethics and economics **The Structure of International Conflict** C. R. Mitchell,1989-03-15 What constitutes a conflict between human groups organisations or countries How do people perceive and behave in conflicts How do conflicts come to an end and what part can outsiders play in settling them or making them less damaging The present work seeks to answer such questions by examining common structures and processes found in human conflicts in many settings and by demonstrating how such common features reveal themselves in conflicts as ostensibly different as international war and interpersonal disagreements in organisations The Structure of International Conflict seeks to be a some permanent use to all students interested in penetrating beneath the surface details and ostensible dissimilarities of specific wars disputes and quarrels to the basic structure that underlies all human conflicts from the most peaceful to the most violent lethal and destructive
