

Religion And The Individual

Gordon Willard Allport

Religion And The Individual:

Religion and the Individual Abby Day, 2016-04-08 What does religion mean to the individual How are people religious and what do their beliefs practices and identities mean to them The individual s place within studies of religion has tended to be overlooked recently in favour of macro analyses Religion and the Individual draws together authors from around the world to explore belief practice and identity Using original case studies and other work firmly placed in the empirical contributors discuss what religious belief means to the individual They examine how people embody what religion means to them through practice considering the different meanings that people attach to religion and the social expressions of their personal understandings and the ways in which religion shapes how people see themselves in relation to others This work is cross cultural with contributions from Asia Europe and North America

Religion and the Individual Charles Daniel

Batson, Patricia Schoenrade, W. Larry Ventis, 1993 In a thoroughly revised edition of this popular text the authors use methods of social psychology to explore the personal rather than the institutional perspective of religious experience and to describe and analyze this uniquely human and universal behavior in scientific terms A new chapter has been included on individual development and personal religion and there is a new section on music and language as facilitators of religious experience Also the authors present the latest version of their three dimensional model for assessing personal religion as a means end and quest and include clarification and evaluation of that model in light of criticisms of earlier versions Nearly 100 studies done during the last decade have been added to the analysis of the relation between personal religion and mental health and recent evidence has been included to expand the discussion of the social consequences of personal religion This fascinating controversial work will challenge and enlighten students of psychology sociology and religious studies

Religion and the Individual, 2017

Religion and the Individual: Belief, Practice, and Identity Douglas J. Davies, Michael J. Thate, 2018-07-05

This book is a printed edition of the Special Issue Religion and the Individual Belief Practice and Identity that was published in Religions

The Individual and His Religion Gordon Willard Allport, 1960 A man s religion is the audacious bid he makes to bind himself to creation and to the Creator It is his ultimate attempt to enlarge and to complete his own personality by finding the supreme context in which he rightly belongs In these pages I have undertaken the task of discovering the place of religion in the life economy of the individual of seeking a psychological understanding of the nature and functioning of the religious sentiment and tracing the full course of religious development in the normally mature and productive personality

Religion and the Individual C. Daniel Batson, 1993

The Psychology of Religion William Boothby Selbie, 1924

The Individual and the Social Order Joseph Alexander Leighton, 1926

The Individual and His Religion Gordon Willard Allport, 1976

Religion and the Public Order of the European Union Ronan McCrea, 2010-10-07 Ronan McCrea offers the first comprehensive account of the role of religion within the public order of the European Union He examines the facilitation and protection of individual and institutional religious freedom in EU law and the means through

which the Union facilitates religious input and influence over law In addition the book draws attention to the limitations on religious influence over law and politics that are required by the Union It shows the extent to which such limitations are identified as fundamental elements of the EU's public order and as prerequisites for membership The Union seeks to balance its predominantly Christian religious heritage with an equally strong secular and humanist tradition by facilitating religion as a form of cultural identity while simultaneously limiting its political influence Such balancing takes place in the context of the Union's limited legitimacy and its commitment to respect for Member State cultural autonomy Deference towards the cultural role of religion at Member State level enables culturally entrenched religions to exercise a greater degree of influence within the Union's public order than outsider faiths that lack a comparable cultural role Placing the Union's approach to religion in the context of broader historical and sociological trends around religion in Europe and of contemporary debates around secularism equal treatment and the role of Islam in Europe McCrea sheds light on the interaction between religion and EU law in the face of a shifting religious demographic

Religious Individualisation

Martin Fuchs, Antje Linkenbach, Martin Mulsow, Bernd-Christian Otto, Rahul Bjørn Parson, Jörg Rüpke, 2019-12-16 This volume brings together key findings of the long term research project Religious Individualisation in Historical Perspective Max Weber Centre for Advanced Cultural and Social Studies Erfurt University Combining a wide range of disciplinary approaches methods and theories the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods in particular in Asia the Mediterranean and Europe from antiquity to the recent past Contrary to standard theories of modernisation which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon the chapters reveal processes of religious individualisation in a large variety of non Western and pre modern scenarios Furthermore the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency the pluralisation of religious options dynamics of de traditionalisation and privatisation the development of elaborated notions of the self the facilitation of religious deviance and on the notion of dividuality

The Permanent Elements of Religion William Boyd Carpenter, 1889

The Approach to the Social

Question Francis G. Peabody, 1909

Lived Religion Meredith B McGuire, 2008-08-22 How can we grasp the complex religious lives of individuals such as Peter an ordained Protestant minister who has little attachment to any church but centers his highly committed religious practice on peace and justice activism Or Hannah a devout Jew whose rich spiritual life revolves around her women's spirituality group and the daily practice of meditative dance Or Laura who identifies as Catholic but rarely attends Mass and engages daily in Buddhist style meditation at her home altar arranged with symbols of Mexican American popular religion Diverse religious practices such as these have long baffled scholars whose research often

starts with the assumption that individuals commit or refuse to commit to an entire institutionally framed package of beliefs and practices Meredith McGuire points the way forward toward a new way of understanding religion She argues that scholars must study religion not as it is defined by religious organizations but as it is actually lived in people's everyday lives Drawing on her own extensive fieldwork as well as recent work by others McGuire explores the many seemingly mundane ways that individuals practice their religions and develop their spiritual lives By examining the many eclectic and creative practices of body mind emotion and spirit that have been invisible to researchers she offers a fuller and more nuanced understanding of contemporary religion

Religion, Law and the Politics of Ethical Diversity Claude Proeschel, David Koussens, Francesco Piraino, 2021-03-30 This book provides a multidisciplinary and comparative look at the contemporary phenomenon of conscientious objection or contestation in the name of religion and examines the key issues that emerge in terms of citizenship and democracy These are analysed by looking at the different ways of challenging or contesting a legal obligation on the grounds of religious beliefs and convictions The authors focus on the meaning of conscientious objection which asserts the legitimacy of convictions in particular religious convictions in determining the personal or collective relevance of the law and of public action The book begins by examining the main theoretical issues underlying conscientious objection exploring the implications of the protection of freedom of conscience the place of religion in the secular public sphere and the recognition and respect of ethical pluralism in society It then focuses on the question of exemptions and contestations of civil norms using a multidisciplinary approach to highlight the multiple and diverse issues surrounding them as well as the motives behind them This book will be of great interest to scholars specialists and graduate and advanced undergraduate students who are interested in issues of religious diversity Researchers and policymakers in think tanks NGOs and government units will find the volume useful in identifying key issues in understanding the phenomenon of conscientious objection and its implications in managing ethical diversity in contemporary societies

"The" Permanent Element of Religion William Boyd Carpenter, 1891

The Bloomsbury Companion to New Religious Movements George D. Chryssides, Benjamin E. Zeller, 2014-01-02 The Bloomsbury Companion to New Religious Movements covers key themes such as charismatic leadership conversion and brainwashing prophecy and millennialism violence and suicide gender and sexuality legal issues and the portrayal of New Religious Movements by the media and anti cult organisations Several categories of new religions receive special attention including African new religions Japanese new religions Mormons and UFO religions This guide to New Religious Movements and their critical study brings together 29 world class international scholars and serves as a resource to students and researchers The volume highlights the current state of academic study in the field and explores areas in which future research might develop Clearly and accessibly organised to help users quickly locate key information and analysis the book includes an A to Z of key terms extensive guides to further resources a comprehensive bibliography and a timeline of major developments in the field such as the emergence of new groups
