Religion in French Feminist Thought Morny Joy, Kathleen O'Grady, Judith L. Poxon, 2020-04-19 Religion in French Feminist Thought Critical Perspectives brings together some of the leading modern religious responses to major French feminist writings on religion It considers central figures such as Hélène Cixous Julia Kristeva Luce Irigaray and Catherine Clément and its focus on questions of divinity subjectivity and ethics provides an accessible introduction to an area of growing philosophical interest Illustrating the ways in which French feminism has become a valuable tool in feminist efforts to rethink religion and responding to its promise as an intellectual resource for religious philosophy in the future Religion in French Feminist Thought is ideal both for independent use and as a companion book to French Feminists on Religion Routledge 2001 **The Oxford Handbook of Feminist Theory** Lisa Disch, Mary Hawkesworth, 2018-02-01 The Oxford Handbook of Feminist Theory provides a rich overview of the analytical frameworks and theoretical concepts that feminist theorists have developed to analyze the known world Featuring leading feminist theorists from diverse regions of the globe this collection delves into forty nine subject areas demonstrating the complexity of feminist challenges to established knowledge while also engaging areas of contestation within feminist theory Demonstrating the interdisciplinary nature of feminist theory the chapters offer innovative analyses of topics central to social and political science cultural studies and humanities discourses associated with medicine and science and issues in contemporary critical theory that have been transformed through feminist theorization The handbook identifies limitations of key epistemic assumptions that inform traditional scholarship and shows

how theorizing from women's and men's lives has profound effects on the conceptualization of central categories whether the field of analysis is aesthetics biology cultural studies development economics film studies health history literature politics religion science studies sexualities violence or war

French Feminist Theory Dani Cavallaro, 2004-03-01 French Feminist Theory offers an introduction to the key concepts and themes in French feminist thought both the materialist and the linguistic psychoanalytic traditions These are explored through the work of a wide range of theorists Simone de Beauvoir Chantal Chawaf Helene Cixous Catherine Clement Christine Delphy Marguerite Duras Colette Guillaumin Madeleine Gagnon Luce Irigaray Julia Kristeva Nicole Claude Mathieu Michele Montreley Monique Plaza Paola Tabet and Monique Wittig The book outlines the philosophical and political diversity of French feminism setting developments in the field in the particular cultural and social contexts in which they have emerged and unfolded

The New Blackwell Companion to the Sociology of Religion Bryan S. Turner, 2016-10-03 THE NEW BLACKWELL COMPANION TO THE Sociology of Religion I enjoyed reading this book for its in depth examination of the complexities of the social forces that are shaping and are being shaped by religious groups around the world I certainly see this being of theoretical value for researchers engaging the new religious realities of our world Sociology of Religion A Quarterly Review The new companion is a timely and valuable work validly updating the original companion and a good addition to the reference shelves of any academic or specialist library Reference Reviews Reflecting recent developments in the field this companion provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches Covering all the areas relevant to undergraduate courses in this area the Companion begins by laying down the anthropological and sociological foundations of the study of religion and their contemporary developments It continues with an analysis of both traditional and contemporary forms of organization such as church sect typologies as well as megachurches and modern forms of spirituality The secularization and post secular society debates are considered in depth along with the globalization process fundamentalism charismatic movements and revivalism It also discusses the sociology of Buddhism Christianity Hinduism Islam Judaism and religions of China as well as the areas of American exceptionalism from de Tocqueville onwards religious nationalism women and piety movements and the spirituality of Native American communities Considering new developments in social theory and religion the collection concludes with a discussion of recent work that attempts to understand the future of religion blending the sociology of modern societies anthropological ethnography and philosophical inquiry

French Feminist Theory: A Note on the Philosophical School Pons Malleus, 2025-07-14 This book emerges from a sustained engagement with the complex and often provocative landscape of French feminist theory a movement that is less a cohesive school of thought and more a constellation of philosophical inquiries into language subjectivity embodiment and power Situated at the intersections of poststructuralism psychoanalysis and political critique French feminist thought has long challenged the foundations of Western philosophy interrogating the presumed neutrality of its categories and exposing the gendered

dimensions embedded in its logics The thinkers whose work this book explores most notably Simone de Beauvoir Luce Irigaray Hélène Cixous and Julia Kristeva do not constitute a unified theoretical bloc Each approaches feminism with distinct methods and vocabularies often diverging sharply in their aims and assumptions What binds them however is a common resistance to reductive accounts of womanhood and a shared suspicion of philosophical traditions that silence or exclude feminine difference Rather than offering a singular definition of what it means to be a woman French feminist theory foregrounds multiplicity fluidity and the irreducibility of lived experience At its core this movement critiques the phallogocentric structures of meaning that have dominated Western discourse Irigaray for example famously argued that women have been constructed as the Other of man defined only in negative relation to a male norm Cixous proposed feminine a radically embodied writing that disrupts linear patriarchal narratives and expresses what traditional language has repressed Kristeva's psychoanalytic theories complicated notions of identity by revealing the instability of the speaking subject while Beauvoir's existentialism laid the groundwork by asserting that woman is not born but becomes a call to acknowledge the historical and cultural production of gender roles This book does not seek to simplify or resolve the tensions that exist within French feminist theory Instead it embraces these tensions as generative spaces for philosophical reflection It is a journey through texts that are as poetic as they are theoretical as elusive as they are illuminating The thinkers presented here frequently resist systematization and their writing often blurs the lines between philosophy literature and psychoanalysis This hybridity is not a flaw but a strength it opens feminist theory to new forms of expression and invites readers to rethink not only what they know but how they come to know The influence of French feminist theory extends far beyond the borders of France or the academic disciplines of philosophy and literature It has shaped conversations in art cultural studies gender theory and critical race studies offering tools to critique the subtle operations of power in both public and private spheres This book aims to trace these intellectual pathways highlighting how the insights of French feminist thinkers remain urgent and vital in a world still grappling with gendered inequality systemic violence and the challenge of imagining more just futures Whether the reader approaches this book as a student of philosophy a scholar of feminist theory or a curious thinker drawn to radical ideas it is my hope that these pages will inspire both critical thought and creative exploration French feminist theory does not offer easy answers it demands that we read deeply think carefully and remain open to transformation In that spirit I invite you to step into the labyrinth

Ringleaders of Redemption Kathryn Dickason, 2021 In popular thought Christianity is often figured as being opposed to dance Throughout the medieval era the Latin Church denounced and prohibited dancing often aligning it with demonic intervention lust pride and sacrilege However *Ringleaders of Redemption* reveals how the historical sources including biblical commentaries sermons saints' lives ecclesiastical statutes mystical treatises vernacular literature and iconography from France Italy Germany England Spain and beyond tell a different story During the High and Late Middle Ages Western theologians liturgists and mystics not only

tolerated dance they transformed it into a dynamic component of religious thought and practice **Reading, Feminism, and Spirituality** Dawn Llewellyn, 2016-01-03 Through original interviews and research Llewellyn uses spirituality to uncover new commonalities between the second and third feminist waves and sacred and secular experiences Her lively approach highlights the importance of reading cultures in feminist studies connecting women's voices across generations literary practices and religions *The subject of love* Sal Renshaw, 2013-07-19 The Subject of Love Hélène Cixous and the Feminine Divine is about abundant generous other regarding love In the history of Western ideas of love such a configuration has been inseparable from our ideas about divinity and the sacred often reserved only for God and rarely thought of as a human achievement This book is a substantial engagement with her philosophies of love inviting the reader to reflect on the conditions of subjectivity that just might open us to something like a divine love of the other Renshaw follows this thread in this genealogy of abundant love the thread that connects the subject of love from 5th century B C E Greece and Plato to the 20th century protestant theology of agapic love of Anders Nygren to the late 20th century poetico philosophy of Hélène Cixous This study will be of particular interest to academics and students of the history of gender cultural studies criticism and gender studies Thinking with Irigaray Mary C. Rawlinson, Sabrina L. Hom, Serene J. Khader, 2011-11-01 Thinking with Irigaray takes up Irigaray's challenge to think beyond the androcentric one subject culture identifying much that is useful and illuminative in Irigaray's work while also questioning some of her assumptions and claims Some contributors reject outright her prescriptions for changing our culture others suggest that her prescriptions are inconsistent with the basic ethical concerns of her project and still others attempt to identify blind spots in her work By confronting and challenging the mechanisms of masculine domination Irigaray has identified and applying these insights to a wide range of practical and contemporary concerns including popular media representations of women's sexuality feminist practice in the arts political resistance and yoga the contributors demonstrate the unique potential of Irigaray's thought within feminist philosophy and gender studies **Irigaray, Incarnation and Contemporary Women's Fiction** Abigail Rine, 2013-08-01 Drawing on the provocative recent work of feminist theorist Luce Irigaray Irigaray Incarnation and Contemporary Women's Fiction illuminates the vital and subversive role of literature in rewriting notions of the sacred Abigail Rine demonstrates through careful readings how a range of contemporary women writers from Margaret Atwood to Michelle Roberts and Alice Walker think beyond traditional religious discourse and masculine models of subjectivity towards a new model of the sacred one that seeks to reconcile the schism between the human and the divine between the body and the word Along the way the book argues that literature is the ideal space for rethinking religion precisely because it is a realm that cultivates imagination mystery and incarnation Gilles Deleuze Charles J. Stivale, 2014-10-13 Gilles Deleuze is now regarded as one of the most radical philosophers of the twentieth century His work is hugely influential across a range of subjects from philosophy to literature to art architecture and cultural studies Gilles Deleuze Key Concepts provides a guide to Deleuzian thought for any

reader coming to his writings for the first time This new edition is fully revised and updated and includes three new chapters on the event psychoanalysis and philosophy *Mourning Religion* William Barclay Parsons, Diane Elizabeth Jonte-Pace, Susan E. Henking, 2008 Late nineteenth and early twentieth century theorists such as Freud Durkheim Weber and Marx built their intellectual edifices on what they thought would be the remains or ruins of religion in the wake of modernization But today the decline and disappearance of religion can no longer be simply assumed In the face of contemporary entanglements of religion and violence the establishment of meaning and morality remains troubling the experience of loss and change remains paradoxically constant and new theoretical perspectives feminism race studies postcolonial studies queer studies postmodernism have emerged challenging the works that mourned religion and created meaning in earlier periods The effects of this ongoing experience of mourning and symbolic loss on culture on subjectivity and on the academic disciplines of religious studies though immense are poorly understood and underinterpreted In order to correct this lacuna in scholarly thought this volume brings together a notable group of scholars who examine the ways in which recent cultural transformations inform the place of religion in the modern world Methodologically they represent the intersection of religious studies and the social scientific study of religion bringing the disciplines of psychology sociology and anthropology into this dialogue **Women and the Divine** G. Howie, 2016-04-30 This collection explores the question of whether it is possible to reconceive the category of transcendence from a feminist perspective The contributors use the concept of transcendence to approach questions relating to the body desire and subjectivity while offering a response to secular relativism *A Theology of Failure* Marika Rose, 2019-05-07 Everyone agrees that theology has failed but the question of how to understand and respond to this failure is complex and contested Against both the radical orthodox attempt to return to a time before the theology's failure and the deconstructive theological attempt to open theology up to the hope of a future beyond failure Rose proposes an account of Christian identity as constituted by not despite failure Understanding failure as central to theology opens up new possibilities for confronting Christianity's violent and kyriarchal history and abandoning the attempt to discover a pure Christ outside of the grotesque materiality of the church The Christian mystical tradition begins with Dionysius the Areopagite's uncomfortable but productive conjunction of Christian theology and Neoplatonism The tensions generated by this are central to Dionysius's legacy visible not only in subsequent theological thought but also in much twentieth century continental philosophy as it seeks to disentangle itself from its Christian ancestry *A Theology of Failure* shows how the work of Slavoj Žižek represents an attempt to repeat the original move of Christian mystical theology bringing together the themes of language desire and transcendence not with Neoplatonism but with a materialist account of the world Tracing these themes through the work of Dionysius and Derrida and through contemporary debates about the gift violence and revolution this book offers a critical theological engagement with Žižek's account of social and political transformation showing how Žižek's work makes possible a materialist reading of apophatic theology and

Christian identity **Women, Religion, and the Gift** Morny Joy, 2016-10-19 This book introduces the special dynamics of women and their close relationships with the gift in both past and contemporary religious settings Written from a cross cultural perspective it challenges depictions of women's roles in religion where they have been relegated to compliance with specifically designated gendered attributes The different chapters contest the resultant stereotypes that deny women agency Each chapter describes women as engaged in an aspect of religion from that of ritual specialists to benefactors and patrons or even innovators The volume examines topics such as sainthood and sacrifice so as to refine these ideas in constructive ways that do not devalue women It also examines the meaning of the term gift today embracing the term in both figurative and literal ways Such a collection of diverse women's writings and activities provides a significant contribution to their quest for recognition and also suggests ways this can be understood and realized today *In Dialogue with Michèle Le Doeuff* Pamela Sue Anderson, Michele Le Doeuff, 2023-11-16 The work of Michèle Le Doeuff creatively disrupts established notions of what philosophy might be Far from being a discipline about the leader and the disciple a hierarchy of knowledge and paternalism Le Doeuff proposes a philosophy of dialogue and friendship The conversations in this book explore how this philosophy can be enacted and explored and show how openness and generosity can be the starting point of truly rigorous thinking Introduced and curated by the late philosopher Pamela Sue Anderson *In Dialogue with Michèle Le Doeuff* explores themes like contemporary feminism joy in philosophy memory the significance of friendship to thinking and a key Le Doeuffian concept the imaginary Le Doeuff's interlocutors including Penelope Deutscher Elizabeth Fallaize and Meenda Dhandia are some of the most significant thinkers in the fields of feminism and continental thought and provide insights and ways into considering philosophy as a profoundly dialogical exercise **Jewish Voices in Feminism** Nelly Las, 2015-08-01 Original French language edition *Voix juives dans le féminisme* Raesonances françaises et anglo-americaïnes A2011 Paris
