Key Concepts in Practice Paul R. Katz, Stefania Travagnin, 2019-05-20 In recent years the study of modern Chinese religions has developed into a highly innovative yet challenging field One of the main reasons for this involves an ongoing and largely unresolved debate regarding what methods and theories are appropriate for analyzing the wide range of beliefs and practices we encounter This series of three volumes is based on the conviction that in this critical period of research on modern Chinese religions it is time for scholars to review the development of our field reconsider its present state of theories and analytical models and open a new chapter in the understanding of methodologies we employ Our research is grounded on the need to re-evaluate concepts and practices that inform both the religious sphere and contemporary scholarship including endogenous Chinese concepts and exogenous ideas from the West and Japan that have been foundational in shaping our knowledge of the Chinese religious landscape In this third volume of our series we examine a variety of key concepts through their praxis in modern Chinese lived religions

Bowen, 2017-07-28 Religions in Practice provides a comprehensive and primarily theme based overview for students of the anthropology of religion Whilst covering traditional topics such as magic witchcraft and spiritual healing the book addresses key contemporary subjects including migration transnationalism nationalism secularism and law It offers an issues oriented perspective on everyday religious behaviors and examines small scale societies as well as major established religions Throughout the text Bowen engages with ongoing debates concerning the place of religion in public life He successfully balances the presentation of theory and concepts with rich case study examples integrating theoretical discussion with a wide range of cross cultural ethnographic material This seventh edition has been updated throughout The opening section now focuses more clearly on the question of what is religion and on approaches to studying religion There is more on materiality as well as a new final chapter on religious mobilizing and violence Further resources are available via a

Canda, Leola Dyrud Furman, Hwi-Ja Canda, 2019-10-15 Social workers and helping professionals serve many people who draw upon religion and spirituality to find meaning, thrive and overcome oppression and obstacles in their lives. The third edition of *Spiritual Diversity in Social Work Practice* provides a comprehensive framework of values, knowledge and skills for spiritually sensitive and culturally appropriate practice with diverse religious and non-religious clients. This classic text contains forty different case examples and stories that vividly illustrate the professional values and ethical principles that guide spiritually sensitive practice. Learning activities at the end of each chapter encourage readers' personal and professional development through self-reflection, dialogue, creative expression, outreach to the community and skill application. The book also draws connections between spiritual and cultural diversity, gender and LGBTQI issues. It introduces beliefs, values and social welfare applications of Buddhism, Christianity, Confucianism, Hinduism, Indigenous spiritual perspectives, Islam, Judaism, Existentialism and Transpersonal and Deep Ecological Theories. Skills for spiritual assessment and spiritually sensitive practices include mindfulness, meditation, ritual and ceremony, forgiveness, spiritually sensitive administration and engagement with community-based spiritual support systems. For social workers and other professional helpers committed to supporting the spiritual care of individuals, families and communities, this definitive guide offers state-of-the-art interdisciplinary and international insights as well as practical tools that students and practitioners alike can put to immediate use. [The Faith and Practice of Al-Ghazali](#) W. Montgomery Watt, Abu Hamid Muhammad ibn Muhammad al-Ghazali, 2020-09-10 Al-Ghazali was one of the great Muslim theologians. In this book, the author provides a translation of some of his works including his spiritual autobiography. Al-Ghazali's description of his own emergence from scepticism anticipates the philosophical method of systematic doubt employed by Descartes. Another work translated here sets out Al-Ghazali's ideal of how a religious person should order his life from hour to hour and day to day. **Faith-Based Organizations in Development: Discourses and Practice** Jens Koehrsen, Andreas Heuser, 2019-11-28 Exploring faith-based organizations (FBOs) in current developmental discourses and practice, this book presents a selection of empirical in-depth case studies of Christian FBOs and assesses the vital role credited to FBOs in current discourses on development. Examining the engagement of FBOs with contemporary politics of development, the contributions stress the agency of FBOs in diverse contexts of development policy, both local and global. It is emphasised that FBOs constitute boundary agents and developmental entrepreneurs; they move between different discursive fields such as national and international development discourses, theological discourses and their specific religious constituencies. By combining influxes from these different contexts, FBOs generate unique perspectives on development; they express alternative views on development and stress particular approaches anchored in their theological social ethics. This book should be of interest to those researching FBOs and their interaction with international organizations and to scholars working in the broader areas of religion and politics and politics and development. Or, A Defence of the Catholic Doctrine that Holy Scripture Has Been Since the Times of the Apostles the Sole Divine Rule of Faith and Practice to the Church William Goode,1842 **The Gülen Movement** Salih Cingilhoğlu,2017-03-10 This book

presents findings from research into one of the world's most influential Islamic movements the Gülen Movement from the perspective of social transformation through adult education At the core of research questions lies how the movement enrolls volunteers from all walks of life and transforms them to adopt its aims at the expense of their individual ideals The book reveals the socio psychological mechanisms that make such transformation possible by looking at how followers integrate weekly lectures and discussions on the theory and practice of Islam into their personal and social lives The Gülen Movement offers a moderate interpretation of Islam and stresses the vitality of establishing communication with the members of all faiths This book provides a window into how and why religion may roll into extremism by presenting findings from an opposite perspective the participants in the research all define themselves as truly pious but do not even imply an act of violence in tens of hours of interviews In short the book weaves the strands of Islamic movement and adult education into a unified whole and limns the snapshot of a social movement offering a comprehensive discussion of the role of adult education within the movement as well as its transformative potential and its wider social and political implications *Sustaining*
