Religion Science And Public Policy:

Handbook of Religion and Society David Yamane, 2016-07-15 The Handbook of Religion and Society is the most comprehensive and up to date treatment of a vital force in the world today It is an indispensable resource for scholars students policy makers and other professionals seeking to understand the role of religion in society This includes both the social forces that shape religion and the social consequences of religion This handbook captures the breadth and depth of contemporary work in the field and shows readers important future directions for scholarship Among the emerging topics covered in the handbook are biological functioning organizational innovation digital religion spirituality atheism and transnationalism The relationship of religion to other significant social institutions like work and entrepreneurship science and sport is also analyzed Specific attention is paid where appropriate to international issues as well as to race class sexuality and gender differences This handbook includes 27 chapters by a distinguished diverse and international collection of experts organized into 6 major sections religion and social institutions religious organization family life course and individual change difference and inequality political and legal processes and globalization and transnationalism Faith and Health Paul D. Simmons, 2008 Faith and Health examines controversial issues in medical ethics such as embryo stem cell research the face transplant cyborgs and the human and physician assisted suicide Those struggling with such confusing and controversial subjects will appreciate the insights from ethics theology and law the author brings together Here is guidance for personal or social responses to questions in medicine that affect us all **Religion, Science, and Public Policy** Frank T. Birtel, 1987 **Religion and Psychology** Sylvan D. Ambrose, 2006 This book is devoted to research on the interaction between two fields which have an enormous impact on most of mankind *Science Education for Diversity* Nasser Mansour, Rupert Wegerif, 2013-06-18 Reflecting the very latest theory on diversity issues in science education including new dialogic approaches this volume explores the subject from a range of perspectives and draws on studies from around the world The work discusses fundamental topics such as how we conceptualize diversity as well as examining the ways in which heterogeneous cultural constructs influence the teaching and learning of science in a range of contexts Including numerous strategies ready for adoption by interested teachers the book addresses the varied cultural factors that influence engagement with science education It seeks answers to the question of why increasing numbers of students fail to connect with science education in schools and looks at the more subtle impact that students individually constructed identities have on the teaching and learning of science Recognizing the diversity of its audience the book covers differing levels and science subjects and examines material from a range of viewpoints that include pedagogy curricula teacher education learning gender religion and ICT as well as those of in service and trainee teachers at all levels **Feminism in Action** Jean F. O'Barr, 1994 Feminism in Action is Jean O Barr s firsthand account of two decades spent working to promote the cause of higher education for women through the establishment of women s studies programs The book brings together revised

versions of O Barr s most *Science Vs. Religion* Elaine Howard Ecklund,2010-05-06 That the longstanding antagonism between science and religion is irreconcilable has been taken for granted And in the wake of recent controversies over teaching intelligent design and the ethics of stem cell research the divide seems as unbridgeable as ever In *Science vs Religion* Elaine Howard Ecklund investigates this unexamined assumption in the first systematic study of what scientists actually think and feel about religion In the course of her research Ecklund surveyed nearly 1 700 scientists and interviewed 275 of them She finds that most of what we believe about the faith lives of elite scientists is wrong Nearly 50 percent of them are religious Many others are what she calls spiritual entrepreneurs seeking creative ways to work with the tensions between science and faith outside the constraints of traditional religion The book centers around vivid portraits of 10 representative men and women working in the natural and social sciences at top American research universities Ecklund s respondents run the gamut from Margaret a chemist who teaches a Sunday school class to Arik a physicist who chose not to believe in God well before he decided to become a scientist Only a small minority are actively hostile to religion Ecklund reveals how scientists believers and skeptics alike are struggling to engage the increasing number of religious students in their classrooms and argues that many scientists are searching for boundary pioneers to cross the picket lines separating science and religion With broad implications for education science funding and the thorny ethical questions surrounding stem cell research cloning and other cutting edge scientific endeavors *Science vs Religion* brings a welcome dose of reality to the science and religion debates **Science, Religion, the Humanities and Hope** Anne Runehov,Michael Fuller,2024-03-19

This book collects a multidisciplinary range of contributions focusing on the prolific and seminal work of Willem Drees in the fields of philosophy of religion philosophy of the humanities and science and theology religion Trained in both theoretical physics and theology philosophy of religion Drees holds doctoral degrees in both theology and in philosophy and amongst other distinguished positions held professorships at the University of Leiden and at the University of Tilburg Drees was also Editor in Chief of *Zygon Journal of Religion Science* between 2008 and 2018 and served as President of the European Society for the Study of Science and Theology ESSSAT between 2002 and 2008 In 2018 he was elected as member of the Royal Holland Society of Sciences and Humanities KHMW This contributed volume builds on Drees expansive and provocative scholarly contributions notably around the concept and meaning of naturalism and the humanities to the fields of science and religion as exemplified by his works *Religion Science and Naturalism* 1996 and *What Are the Humanities For* 2021 In a time where more and more young people across the globe are entering higher education such cross disciplinary explorations and re evaluations are vital to the field Accordingly by approaching his work from a variety of disciplines this collection illuminates the broad reach of Drees work and provides scholars from various fields with many new and rich opportunities avenues for research **Religion and the Social Sciences** Jeff Levin,2018-08-13 In recent years researchers across the social sciences have made important contributions to the study of religion Thanks to their inquiry we have greatly improved

Detriments of Theistic Religion in Politics and Its Effect on the Immigration Problem

Talavera, Isidoro, 2024-09-06 The intersection of theistic religion and politics sparks continued controversy particularly when addressing complex social issues like immigration When religious ideologies influence political decisions they can lead to policies that are less informed by empirical evidence and more driven by doctrinal beliefs The consequences are not only detrimental to the integrity of policymaking but also to the well being of communities affected by such policies Critical examination of the impacts of theistic religion on political discourse and immigration is necessary to advocate for improved evidence based approaches to policymaking *Detriments of Theistic Religion in Politics and Its Effect on the Immigration Problem* explores the effects of religious influences in government policies related to immigration Aspects of theology ethics and morality related to policy and law creation are explored along with effective solutions to solve issues of immigration in the United States This book covers topics such as theology ethics and morality and political science and is a useful resource for politicians policymakers government officials economists religious organizations business owners academicians researchers and scientists *Handbook of Bioethics and Religion* David E. Guinn, 2006-08-10 What role should religion play in a religiously pluralistic liberal society This work address specific issues such as assisted suicide stem cell research cloning reproductive health and alternative medicine It focuses on the interface of religion and bioethics

Faith-Based Organizations at the United Nations Jeff Haynes, 2016-04-30 The book examines selected faith based organisations FBOs and their attempts to seek to influence debate and decision making at the United Nations UN Increasing attention on FBOs in this context has followed what is widely understood as a widespread post Cold War religious resurgence The bibliography is available digitally at the end of sample chapter which can be downloaded on this page

Twentieth-century Shapers of Baptist Social Ethics Larry L. McSwain, William Loyd Allen, 2008 Twentieth Century Shapers of Baptist Social Ethics provides an overview of the major historical framework within which Baptists emerged with significant contributions to Christian social thought and action in the twentieth century This book provides a summary of the life principal ideas writings and most significant contributions of nineteen Baptists since 1900 Religion in the Anthropocene Celia Deane-Drummond, Sigurd Bergmann, Markus Vogt, 2018-01-01 Religion in the Anthropocene charts a new direction in humanities scholarship through serious engagement with the geopolitical concept of the Anthropocene Drawing on religious studies theology social science history philosophy and what can be broadly termed as environmental humanities this collection represents a groundbreaking critical analysis of diverse narratives on the Anthropocene The contributors to this volume recognize that the Anthropocene began as a geological concept the age of the humans but that its implications are much wider than this Does the Anthropocene idea challenge the possibility of a sacred Nature or is it a secularized theological anthropology more properly dealt with through traditional concepts from Roman Catholic social teaching on human ecology Not all contributors to this volume agree about the answers to these and many more different questions

Explorations in the Digital History of Ideas Peter de Bolla,2023-11-23 What would the history of ideas look like if we were able to read the entire archive of printed material of a historical period Would our great men usually story of how ideas are formed and change over time begin to look very different This book explores these questions through case studies on ideas such as liberty republicanism or government using digital humanities approaches to large scale text data sets It sets out the methodologies and tools created by the Cambridge Concept Lab as exemplifications of how new digital methods can open up the history of ideas to heretofore unseen avenues of enquiry and evidence By applying text mining techniques to intellectual history or the history of concepts this book explains how computational approaches to text mining can substantially increase the power of our understanding of ideas in history **Fifty Years of Religious Studies in Canada**

Harold Coward,2014-11-07 In Canadian universities in the early 1960s no courses were offered on Hinduism Buddhism or Islam Only the study of Christianity was available usually in a theology program in a church college or seminary Today almost every university in North America has a religious studies department that offers courses on Western and Eastern religions as well as religion in general Harold Coward addresses this change in this memoir of his forty five year career in the development of religious studies as a new academic field in Canada He also addresses the shift from theology classes in seminaries to non sectarian religious studies faculties of arts and humanities the birth and growth of departments across Canada from the 1960s to the present the contribution of McMaster University to religious studies in Canada and Coward s Ph D experience there the Centre for Studies in Religion and Society at the University of Victoria and the future of religious studies as a truly interdisciplinary enterprise Coward s retrospective while not a history as such documents information from his varied experience and wide network of colleagues that is essential for a future formal history of the discipline His story is both personally engaging and richly informative about the development of the field **The Politics of Religious Tourism**

Dino Bozonelos,Polyxeni Moira,2023-07-28 Addressing a dearth of literature in this area this book provides a comprehensive overview and framework of study of the politics of religious tourism Existing work shows awareness that politics is present but the approach has been one of benign neglect and or a priori assumptions about the role of politics in the management of sacred sites Previous literature is fragmented into various perspectives and approaches that best serve different disciplinary interests By understanding the politics of religious tourism through the various perspectives and approaches from the discipline of political science law public policy and other fields This book will be of great interest to researchers and students of religious tourism pilgrimage as well as related subjects such as political science economics sociology tourism law studies and religious studies
