Religion Society Economics Easternpean:

Handbook of Religion and the Asian City Peter van der Veer, 2015-05-19 *Handbook of Religion and the Asian City* highlights the creative and innovative role of urban aspirations in Asian world cities. It points out that urban politics and governance are often about religious boundaries and processions in short that public religion is politics. The essays show how projects of secularism come up against projects and ambitions of a religious nature a particular form of contestation that takes the city as its public arena. Asian cities are sites of speculation not only for those who invest in real estate but also for those who look for housing for employment and for salvation. In its potential and actual mobility the sacred creates social space in which they all can meet. *Handbook of Religion and the Asian City* makes the comparative case that one cannot study the historical patterns of urbanization in Asia without paying attention to the role of religion in urban aspirations. Re-enchanting Modernity Mayfair Yang, 2020-05-15 In *Re-enchanting Modernity* Mayfair Yang examines the resurgence of religious and ritual life after decades of enforced secularization in the coastal area of Wenzhou, China. Drawing on twenty-five years of ethnographic fieldwork, Yang shows how the local practices of popular religion, Daoism and Buddhism are based in community-oriented grassroots organizations that create spaces for relative local autonomy and self-governance. Central to Wenzhou's religious civil society is what Yang calls a ritual economy in which an ethos of generosity is expressed through donations to temples, clerics, ritual events and charities in exchange for spiritual gain. With these investments in transcendent realms, Yang adopts Georges Bataille's notion of ritual expenditures to challenge the idea that rural Wenzhou's economic development can be described in terms of Max Weber's notion of a Protestant Ethic. Instead, Yang suggests that Wenzhou's ritual economy forges an alternate path to capitalist modernity.

The Religious Question in Modern China Vincent Goossaert, David A. Palmer, 2011-04-15 Recent events from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion. *The Religious Question in Modern China* highlights parallels and contrasts between historical events, political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present. Vincent Goossaert and David A. Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society. From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies, the authors demonstrate that from the nineteenth century onward as the Chinese state shifted the religious landscape consistently resurfaced in a bewildering variety of old and new forms. *The Religious Question in Modern China* integrates historical, anthropological and sociological perspectives in a comprehensive overview of China's religious history that is certain to become an indispensable reference for specialists and students alike.

Religion in China and Its Modern Fate Paul R. Katz, 2014-04-01 Paul R.

Katz has composed a fascinating account of the fate of Chinese religions during the modern era by assessing mutations of communal religious life innovative forms of religious publishing and the religious practices of modern Chinese elites traditionally considered models of secular modernity The author offers a rare look at the monumental changes that have affected modern Chinese religions from the first all out assault on them during the 1898 reforms to the eve of the Communist takeover of the mainland Tracing the ways in which the vast religious resources texts expertise symbolic capital material wealth etc that circulated throughout Chinese society during the late imperial period were reconfigured during this later era Katz sheds new light on modern Chinese religious life and the understudied nexus between religion and modern political culture Religion in China and Its Modern Fate will appeal to a broad audience of religionists and historians of modern China

Religion in Modern Taiwan Philip Clart, Charles B. Jones, 2003-09-30 Religion in Modern Taiwan takes a new look at Taiwan's current religious traditions and their fortunes during the twentieth century Beginning with the cession of Taiwan to Japan in 1895 and the currents of modernization that accompanied it the essays move on to explore the developments that have taken place as Buddhists Daoists Christians non Han aborigines and others have confronted resisted and adapted to even thrived in the many upheavals of the modern period An overview of Taiwan's current religious scene is followed by a comprehensive look at the state of religion in the country prior to the end of World War II and the return of Taiwan to Chinese sovereignty The remaining essays probe aspects of change within individual religious traditions The final chapter analyzes changes that took place in the scholarly study and interpretation of religion in Taiwan during the course of the twentieth century Religion in Modern Taiwan will be read with interest by students and scholars of Chinese religion religion in Taiwan the modern history of Taiwan and by those concerned with issues of religion and modernization Contributors Chang Hsun Philip Clart Shiun wey Huang Christian Jochim Charles B Jones Paul Katz Andr Lalibert Lee Fong mao Randall Nadeau Julian Pas Barbara Reed Murray A Rubinstein Maoism and Grassroots Religion Xiaoxuan Wang, 2020 Maoism and Grassroots Religion explores grassroots religious life under and after Mao in Rui an County Wenzhou of southeast China a region widely known for its religious vitality Drawing on unexplored local state archives records of religious institutions memoirs and interviews it tells the story of local communities encounter with the Communist revolution and its consequences especially competition and struggles for religious property and ritual space Xiaoxuan Wang shows that Maoism permanently altered the religious landscape in China especially by inadvertently promoting the localization and even in some areas expansion of Protestant Christianity as well as the reinvention of traditional communal religion He contends that the post Mao religious revival had deep historical roots in the Mao years and cannot be explained by contemporary economic motives and cultural logics alone The book calls for a new understanding of Maoism and secularism in the People's Republic of China

Religion and European Society Ben Schewel, Erin K. Wilson, 2019-08-05 A contemporary examination of the role of religion in the European public sphere and beyond Although the role of religion has arguably declined in the societies of

Western and Northern Europe religious participation in other parts of the continent and among growing immigrant communities remains an important aspect of daily life. Recent years have seen a resurgence of religion in the public sphere prompting many researchers to view European secularism as an outlier in this global trend. *Religion and European Society A Primer* presents recent academic literature that explores key developments and current debates in the field covering topics such as changing patterns of belief, religion across the political spectrum and development and humanitarian aid. Articles written by leading scholars draw from well established findings to help readers contemplate the role of religion in public life, understand the assumptions and underpinnings of the secular worldview and develop new ways of thinking about global issues relevant to contemporary global affairs. Each theme is addressed by several articles to provide readers with diverse, sometimes competing perspectives. This volume offers concepts and ideas that can be used in various policy practitioner and academic settings, clarifying overarching concepts and trends rather than analyzing specific policy issues that can quickly become outdated. Addresses issues of contemporary importance such as demographic changes in religious observance, increased immigration, the emergence of new religious movements and changes in more established religions. Explores the ethical and philosophical concepts as well as the practical everyday consequences of European post secularism. Challenges widespread assumptions about the secular nature of the modern public sphere. Offers analytical tools as well as practical policy recommendations on a range of issues including media regulation, gender conflict and peacebuilding, immigration and humanitarianism. Designed to move research findings from academic journals to the realm of public discourse. *Religion and European Society A Primer* is a valuable source of information for practitioners within and outside of Europe of religious studies, politics and international affairs.

Superstitious Regimes Rebecca Nodostup, 2010-07-01 We live in a world shaped by secularism, the separation of numinous power from political authority and religion from the political, social and economic realms of public life. Not only has progress toward modernity often been equated with secularization, but when religion is admitted into modernity it has been distinguished from superstition. That such ideas are continually contested does not undercut their extraordinary influence. These divisions underpin this investigation of the role of religion in the construction of modernity and political power during the Nanjing Decade, 1927-1937, of Nationalist rule in China. This book explores the modern recategorization of religious practices and people and examines how state power affected the religious lives and physical order of local communities. It also looks at how politicians conceived of their own ritual role in an era when authority was meant to derive from popular sovereignty. The claims of secular nationalism and mobilizational politics prompted the Nationalists to conceive of the world of religious association as a

dangerous realm of superstition that would destroy the nation This is the first superstitious regime of the book's title It also convinced them that national feeling and faith in the party state would replace those ties the second superstitious regime

History and Magical Power in a Chinese Community P. Sangren, 1987-09-01 This book is a case study of history and culture in the Taiwanese town of Ta-chi and the group of rural villages that constitute its standard marketing community However its scope exceeds that of most community studies The author attempts to construct a holistic view of Chinese culture from an analysis of the relationship between history and ritual in a particular locality The author argues that social institutions and collective representations are dialectically connected in the process of social and cultural reproduction He describes this dialectical process through an analysis of the key cultural concept of ling the magical power attributed to ghosts gods and ancestors In analyzing the symbolic logic of ling he asserts that it can be fully understood only as a product of the reproduction of social institutions and as a manifestation of a native historical consciousness Structuralist and Marxist insights are combined to explain how ling is best understood as both a cultural logic of symbolic relations and a material logic of social relations The book is in three parts Part I is a social and economic history that outlines what one might call an objectivist or positivist view of Ta-chi's history describing events as they were regardless of the perceptions of local participants This material is a background to the synchronic sociological analysis of local territorial cults that constitutes Part II In Part III the author unsettles the objectivist assumptions of Part I by showing how the idiom of ling underlies Taiwanese constructions of history and identity and how the cultural construction of history dialectically reproduces society and creates history The book is illustrated with 8 pages of photographs 17 line drawings and 9 maps

Town and Country in China David Faure, Tao Tao Liu, 2016-04-30 The transformation in Chinese social theory in the twentieth century placed the rural-urban divide at the centre of individual identity In 1500 such distinctions were insignificant and it was the emergence of political reforms in the early 1920s and 1930s which separated cities and towns as agents of social change and encouraged a perception of rural backwardness This interdisciplinary collection traces the development and distinctions between urban and rural life and the effect on the Chinese sense of identity from the sixteenth century to the present day It provides a daunting example of the influence that political ideology may exert on an individual's sense of place
