Encounters in Hindu Domains Vineeta Sinha, 2011-04-07 The historical and empirical project presented here is grounded in a desire to theorize religion state relations in the multi ethnic multi religious secular city state of Singapore The core research problematic of this project has emerged out of the confluence of two domains religion law and bureaucracy and religion and colonial encounters This work has two core objectives one to articulate the actual points of engagement between institutions of religion and the state and two to identify the various processes mechanisms and strategies through which relations across these spheres are sustained The thematic foundations of this book rest on disentangling the complex interactions between religious communities individuals and the various manifestations of the Singapore state relationships that are framed within a culture of bureaucracy This is accomplished through a scrutiny of Hindu domains on the island nation state from her identity as part of the Straits Settlements to the present day The empirical and analytical emphases of this book rest on the author s engagement with the realm of Hinduism as it is conceived structured framed and practiced within the context of a strong state in Singapore today Ethnographically the book focusses on Hindu temple management and the observance of Hindu festivals and processions enacted within administrative and bureaucratic frames *The Cambridge Companion to Religious Studies* Robert A. Orsi, 2012 Informative and provocative this book introduces readers to debates in the contemporary study of religion and suggests future research possibilities **The Oxford Handbook of International**

Hidden Religion Micah Issitt, Carlyn Main, 2014-09-16 Covering secret societies mysterious ancient traditions and the often mistaken history of the world s religious symbols this book takes readers on a tour through the fascinating world of religious symbolism and reveals the most mysterious and misunderstood facets of religion Hidden Religion The Greatest Mysteries and Symbols of the World s Religious Beliefs not only explores the history and origins of widely recognizable symbols like the Christian cross and the Star of David but also introduces readers to more obscure symbols from religious traditions around the world even defunct ones like those of the ancient Aztec and Mayan societies In addition the book

discusses the religious secrets found in the major religions including secret societies of Christianity Judaism Islam and Buddhism Containing more than 170 entries the encyclopedia is organized by religious category such as Abrahamic East Asian and African Diasporic religions then alphabetically within each category Each entry is prefaced with a short introduction that explains where and when the religious tradition originated and describes the religion today This information is followed by an analysis of the historical development and use of symbols along with an explanation of connections between symbols used by different religions such as shared astrological symbolism in the form of moon sun or star motifs *Nationalism, Liberalism, and Progress* Ernst B. Haas, 2018-09-05 Far from being an inevitably aggressive and destructive force nationalism is for Ernst B Haas the primary means of bringing coherence to modernizing societies In the second volume of his magisterial exploration of this topic Haas emphasizes the benefits of liberal nationalism which he deems more progressive than other nation building formulas because it relies on reason to improve citizens lives The Dismal Fate of New Nations considers several societies that modernized relatively recently many of them aroused to nationalism by the imperialism of the old nation states The book probes the different patterns of development in emerging countries Iran Egypt India Brazil Mexico China Russia and Ukraine for insights into the possibilities and limitations of all nationalisms especially liberal nationalism Employing a systematic comparative perspective Haas organizes the book around the notion of change and its management by political elites in Asia Eastern Europe Latin America and the Middle East Haas particularly wants to understand how nationalism plays out in the politics of modernization within non Western cultures especially those where religions other than Christianity predominate Where the hold of religion remains formidable he argues the mixture of traditional and secular modernist institutions and beliefs will challenge the victory of liberal nationalism and the very success of nation state formation

Nationalism, Liberalism, and Progress: The dismal fate of new nations Ernst B. Haas, 1997 Has global liberalism made the nation state obsolete Or on the contrary are primordial nationalist hatreds overwhelming cosmopolitanism To assert either theme without serious qualification according to Ernst B Haas is historically simplistic and morally misleading Haas describes nationalism as a key component of modernity and a crucial instrument for making sense of impersonal rapidly changing and heterogeneous societies He characterizes nationalism as a feeling of collective identity a mutual understanding experienced among people who may never meet but who are persuaded that they belong to a community of kindred spirits Without nationalism there could be no large integrated state He explores nationalism in five societies that had achieved the status of nation states by about 1880 the United States Britain France Germany and Japan

Donors, Devotees, and Daughters of God Leslie C. Orr, 2000 Through the use of epigraphical evidence Leslie C Orr brings into focus the activities and identities of the temple women devadasis of medieval South India and suggests new ways of understanding the character of the temple woman and of the role of women in Indian religion and society How Secular is Art? ,2022 *Religions of China in Practice* Donald S. Lopez, Jr., 2021-08-10 This third volume of

Princeton Readings in Religions demonstrates that the three religions of China Confucianism Daoism and Buddhism with a fourth folk religion sometimes added are not mutually exclusive they overlap and interact with each other in a rich variety of ways The volume also illustrates some of the many interactions between Han culture and the cultures designated by the current government as minorities Selections from minority cultures here for instance are the folktale of Ny Dan the Manchu Shamaness and a funeral chant of the Yi nationality collected by local researchers in the early 1980s Each of the forty unusual selections from ancient oracle bones to stirring accounts of mystic visions is preceded by a substantial introduction As with the other volumes most of the selections here have never been translated before Stephen Teiser provides a general introduction in which the major themes and categories of the religions of China are analyzed The book represents an attempt to move from one conception of the Chinese spirit to a picture of many spirits including a Laozi who acquires magical powers and eventually ascends to heaven in broad daylight the white robed Guanyin one of the most beloved Buddhist deities in China and the burning mouth hungry ghost The book concludes with a section on earthly conduct

Gods, Guns and Missionaries Manu S Pillai, 2024-11-21 When European missionaries first arrived in India in the sixteenth century they entered a world both fascinating and bewildering Hinduism as they saw it was a pagan mess the worship of devils and monsters by a people who burned women alive performed outlandish rites and fed children to crocodiles But soon it became clear that Hindu idolatry was far more complex than white men's stereotypes allowed and Hindus had little desire to convert But then European power began to grow in India and under colonial rule missionaries assumed a forbidding appearance During the British Raj Western frames of thinking gained ascendancy and Hindus felt pressed to reimagine their religion This was both to fortify it against Christian attacks and to resist foreign rule It is this encounter which has in good measure inspired modern Hinduism's present shape Indeed Hindus subverted some of the missionaries' own tools and strategies in the process triggering the birth of Hindu nationalism now so dominant in the country In Gods Guns and Missionaries Manu S Pillai takes us through these remarkable dynamics With an arresting cast of characters maharajahs poets gun-wielding revolutionaries politicians polemicists philosophers and clergymen this book is ambitious in its scope and provocative in its position Lucid and exhaustive it is at once a political history a review of Hindu culture and a study of the social forces that prepared the ground for Hindu nationalism Turning away from simplistic ideas on religious evolution and European imperialism the past as it appears here is more complicated and infinitely richer than popular narratives allow

Life of the Mind Shahzad Z. Najmuddin, 2005-08 He lived life with indefatigable zest read widely and wrote with authenticity without hypocrisy or cant His particular fields of interest were English literature and political theory While Shakespeare was almost a second language to him he had read in depth the works of almost every political philosopher from Plato to Fukuyama Shahzad was deeply disturbed with the poverty of the many He saw the dominant powers in the world moving towards greater affluence while the deprived and oppressed continued to subsist in acute poverty and misery He was firm in his view

that this was not the end of history He sought in his readings and in his research a new political system that would assure a more just dispensation which promised equitable distribution of wealth power hope and wellbeing Shahzad had this way of identifying a subject researching it thoroughly and reducing his thoughts into precise analytical prose Life of the Mind is a collection of some of his essays They will prove of interest to the reader who is inclined towards higher scholarship from the tribute and exordium to Life of the Mind by Dilshad Najmuddin

A Ministry of Presence Winnifred Fallers Sullivan, 2014-08-20 Most people in the United States today no longer live their lives under the guidance of local institutionalized religious leadership such as rabbis ministers and priests rather liberals and conservatives alike have taken charge of their own religious or spiritual practices This shift along with other social and cultural changes has opened up a perhaps surprising space for chaplains spiritual professionals who usually work with the endorsement of a religious community but do that work away from its immediate hierarchy ministering in a secular institution such as a prison the military or an airport to an ever changing group of clients of widely varying faiths and beliefs In A Ministry of Presence Winnifred Fallers Sullivan explores how chaplaincy works in the United States and in particular how it sits uneasily at the intersection of law and religion spiritual care and government regulation Responsible for ministering to the wandering souls of the globalized economy the chaplain works with a clientele often unmarked by a specific religious identity and does so on behalf of a secular institution like a hospital Sullivan s examination of the sometimes

heroic but often deeply ambiguous work yields fascinating insights into contemporary spiritual life the politics of religious freedom and the never ending negotiation of religion s place in American institutional life **Under Caesar's Sword** Daniel Philpott,Timothy Samuel Shah,2018-03-15 The first systematic global study of how Christians respond to persecution presenting new research by leading scholars of global Christianity Our Social World Jeanne H.
