Sociology of religion

According to Johnson, when defining the sociology of religion we look at the definition of the term religion as well as the task sociology has in the study of religion. Sociology plays an important role in the study as it involves the recognition of the social reality of any social phenomenon (Johnson 2).

According to Johnson, sociology is the study of how human beings interact with each other within groups. It focuses on how such interactions have an influence on human behavior. In other words, sociology is a field of science that strives to explain the group dynamics and how the groups have influenced individuals and human activities. Groups influence human behavior as they change, shape, and modify an individual's behavior in one way or another.

Groupings exist in the family setting, educational programs, as well as peer associations (2). In this respect, religion can be a subject of sociological study as it falls within the constraints of a group. Religion is a group phenomenon because religious organizations tend to organize themselves in groups known as congregations, fellowships, dioceses, and denominations. In this case, sociology helps us understand religion as a social phenomenon (Johnson 3).

According to Johnson, sociologists in attempting to define religion have come up with two forms of definitions. There are substantive as well as functional definitions. They go hand in hand in coming up with a clear-cut definition of religion. The substantive and the functional definitions provide a foundation in which one can understand the meaning of religion and the impact it has on the lives of the people.

The substantive definition focuses on the nature of religion when it is at its core. In other words, it focuses on the essence of religion (9). On the other hand, the functional definition mainly focuses on the impact religion has to the people who practice the religion. In combining the two definitions, sociologists have defined religion to be a
