Stanton, Edward Ramsamy, Peter J. Seybolt, Carolyn M. Elliott, 2012-01-05 In our age of globalization and multiculturalism it has never been more important for Americans to understand and appreciate foreign cultures and how people live love and learn in areas of the world unfamiliar to most U S students and the general public The four volumes in our cultural sociology reference encyclopedia take a step forward in this endeavor by presenting concise information on those regions likely to be most foreign to U S students the Middle East Asia and Africa The intent is to convey

what daily life is like for people in these selected regions It is hoped entries within these volumes will aid readers in efforts to understand the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions

New Religions and State's Response to Religious Diversification in Contemporary Vietnam Chung Van Hoang, 2017-07-03 This book approaches newly emerging religious groups through the interplay between religious and non religious spheres in the specific context of Vietnam It considers the new religious groups as a part of religious reconfiguration in Vietnam caused by intensified interactions among these spheres It explores changes of relationship between religions and changes between the religious sphere and the political economic and public spheres in contemporary Vietnam Specifically it traces trajectories of religious development in relation to politico economic changes in this rapidly modernising nation It tests a hypothesis that at least some new yet unrecognized new religious groups have a positive active role in modernisation rather than a negative reactive role To this end the book draws on a number of research approaches and methodologies in an effort to provide readers with a multi faceted understanding of Vietnam s new religious groups The research is interdisciplinary in orientation drawing on sociology and anthropology It is also comparative in that it bases its argument on a consideration of three distinct new religious groups in Vietnam The research is also qualitative and ethnographic in that it drew on some of the techniques associated with participant observation during a sustained period of fieldwork amongst the three religious groups The concept of religious reconfiguration developed in this book provides a framework for the study of religion in Vietnam which opens the way to further analysis from a comparative perspective Meanwhile an emphasis upon religious reinvention which addresses processes of remaking transforming legitimating and accommodating can be useful for research into New Religious Movements elsewhere in Asia A research in the challenges of new religions could act as a catalyst for interdisciplinary studies based on detailed empirical study of religious diversity and of religious freedom by other scholars It is hoped that this research might help to give a voice to religious minorities that are often the victim of stereotyping misunderstanding and punitive treatment The book is suitable for post graduate students and social researchers who are interested in religious revival religious diversification State religion relationships and State s regulation of new religions

The Hebrew Bible in Contemporary Fiction and Poetry Lena-Sofia Tiemeyer, 2025-03-31 This book discusses 20th and 21st centuries literary retellings of biblical texts focusing on how fiction and poetry fill the extant narrative gaps present in the often sparse biblical accounts and align the narratives with theological and or cultural expectations of modern interpreting communities The chapters written by an international group of scholars explore biblical retellings in a variety of modern languages ranging from Korean and Chinese to Hebrew and Arabic Most of the contributions deal with retellings of the narrative books Genesis Exodus Judges Ruth 1 2 Samuel Daniel but a few are devoted to prophetic Hosea and poetic Psalms ones Another set of articles looks beyond specific biblical books and instead analyses how the Bible has been retold in different literary genres

Children and YA literature sci fi and fantasy Christian Inspiration fiction and in modern political discourse North and South Korea All the chapters further highlight how literary retellings of the Bible form two way movements They reveal the often subversive quality of literary retellings retellings not only emphasise those nuances in the biblical texts that create unease but also problematise their standpoint and question their moral and theological message The Hebrew Bible in Contemporary Fiction and Poetry is suitable for students and scholars of biblical studies working on intertextuality and reception history It is also of interest to those working on comparative literature particularly with regards to the Hebrew Bible in popular culture and literature

Historical Dictionary of the Republic of Korea James E. Hoare, 2020-10-13 South Korea Republic of Korea is the more successful of the two Koreas in both economic and political terms Even the Asian economic crisis of 1997 1998 which hit badly was weathered successfully and when the next crisis came along in 2007 South Korea coped better than many other countries This economic strength taken with the steady progress of democratization since 1987 indicates that when the peninsula is eventually reunified as one day it probably will be a new unified Korea will follow the South Korea model rather than that of North Korea This fourth edition of Historical Dictionary of the Republic of Korea contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Republic of Korea

New Religious Movements in Modern Asian History David W. Kim, 2020-09-30 This book provides evidence that the emergence of Asian new religious movements NRMs was predominantly the result of anti colonial ideology from local religious groups or individuals The contributors argue that when traditional religions were powerless to maintain their cultural heritage the leadership of NRMs adduced alternative principles and the new teachings of each NRM attracted the local people enough for them to change their beliefs The contributors argue that as a whole the Asian new religious movements overall were very ardent and progressive in transmitting their new ideologies The varied viewpoints in this volume attest to the consistent development of Asian NRMs from domestic and international dimensions by replacing old traditional religions

A Protestant Theology of Passion Volker Küster, 2010 Minjung Theology is introduced here through theological biographical sketches of its main representatives They formulated a protestant liberation theology under the South Korean military dictatorship of the 1970s and 80s Their strong emphasis on the suffering han of the people minjung led them to the formulation of a genuine theology of the cross in Asia Volker Küster explores the reception of Minjung Theology and raises the question what happened to it during the democratization process and the rise of globalization in the 1990s Interpretations of art works by Minjung artists provide deep insights into these transformation processes Prologue and epilogue abstract from the Korean case and offer a concise theory of contextual theology in an intercultural framework

Seoul Ross King, 2018-02-28 Seoul is a colossus both in its physical presence and the demand it places on any intellectual effort to understand it How did it come to be How can a city this immense work Underlying its spectacle and incongruities is a city that might be described as ill at ease with its own past The bitter rifts of Japanese colonization persist as does the troubled aftermath of the Korean War and its divisions the economic Miracle on the Han that followed is crosscut by memories of the violent dictatorship that drove it In Seoul author Ross King interrogates this contested history and its physical remnants tacking between the city's historiography and architecture with attention to monuments streets and other urban spaces The book's structuring device is the dichotomy of erasure and memory as necessary preconditions for reinvention King traces this phenomenon from the old dynasties to the Japanese regime and wartime destruction he then follows the equally destructive reinvention of Korea under dictatorship to the brilliant city of the present with its extraordinary explosion of creativity and ideas the post 1991 Hallyu the Korean Wave The final chapter returns to questions of forgetting and memory but now as conditions of possibility for what would seem to underlie the present trajectory of this extraordinary city and culture Seoul can be read King suggests in the context of the hybrid ideas that have characterized Korean cultural history It may be their present eruption that accounts for the city of contradictions that confronts the contemporary observer and that most extraordinary of Korean phenomena the rise of an alternative virtual world eclipsing both city and nation Has the very idea of Korea been reinvented even as the weakly defined nation state slips away

Eschatology and Ecology Paul Hang-Sik Cho, 2011-05-01 This book raises the question of why Korean people and Korean Protestant Christians in particular pay so little attention in theory or practice to ecological issues The author argues that there is an important connection or elective affinity between this lack of attention and the otherworldly eschatology that is so dominant within Korean Protestant Christianity Dispensational premillennialism originally imported by American

missionaries resonated with traditional religious beliefs in Korea and soon came to dominate much of Korean Protestantism. This book argues that this of all forms of millennialism is the most damaging to ecological concerns. It also suggests how Korean churches may effectively respond to the ecological challenge. Makers of Modern Korean Buddhism Jin Y. Park, 2012-02-01. The first book in English devoted exclusively to modern Korean Buddhism, this work provides a comprehensive exploration for scholars, students, and serious readers. Makers of Modern Korean Buddhism focuses on three key areas: Buddhist reform, Zen revival, and the interrelationship of religion, history, and politics. In Korea, the modern period in Buddhism begins in earnest in the late nineteenth century during the closing years of the Chosŏn dynasty, which was characterized by a repressive brand of neo-Confucianism. Buddhist reformers arose to seek change in both Buddhism and Korean society at large. The work begins with a look at five of these reformers and their thought and work. The Zen revival that began at the end of the nineteenth century is covered from that period to contemporary times through an exploration of the life and thought of important Zen masters. The influence of Japanese Buddhist missionaries, the emergence of Korean engaged Buddhism known as Minjung Buddhism, and the formation of modern Buddhist scholarship in Korea are discussed as well. This outstanding collection will be highly valued by the scholarly community for the way it deals comprehensively and insightfully with an important though relatively unexplored topic in the modern era. Steven Heine, author of *Zen Skin*, *Zen Marrow*, *Will the Real Zen Buddhism Please Stand Up*. Jin Y. Park is Associate Professor of Philosophy and Religion at American University. She is the author of *Buddhism and Postmodernity*, *Zen Huayan*, and *The Possibility of Buddhist Postmodern Ethics* and the editor of several books including *Buddhisms and Deconstructions*. *Culture as Text, Text as Culture* Elodie Lafitte, Christina Wall, Mary Cobb Wittrock, 2020-05-22. *Culture as Text, Text as Culture* represents a novel interdisciplinary analysis of textuality as it pertains to Cultural Studies. More specifically, the work examines how the analysis of texts has shaped the most vital contemporary debate of Cultural Studies: the recognition that all texts and their contexts are constructs. Building upon a Post-structuralist/Post-modern understanding of truth as a construct, Cultural Studies has long since acknowledged the ability of texts to express the time and culture of their origin. This work, however, expands this idea, demonstrating not only how a culture is preserved in a text but how that text can in turn define its culture, even redefine its history. This compendium is structured around four of the most prominent contemporary topics of Cultural Studies: the relationship between historical and fictional writing; the ability of authors to recreate or redefine history; the relationship between language and image; and the ability for traditionally marginalized groups to reassert their place in history. The book presents articles from a large spectrum of disciplinary fields and civilizations in order to demonstrate how the application of Cultural Studies can unite seemingly disparate disciplines. **Reform, Identity and Narratives of Belonging** Arkotong Longkumer, 2010-03-04. *Reform, Identity and Narratives of Belonging* focuses on the Heraka, a religious reform movement and its impact on the Zeme Naga tribe in the North Cachar Hills of Assam, India. Drawing upon critical studies of religion,

cultural ethnic identity and nationalism archival research in both India and Britain and fieldwork in Assam the book initiates new grounds for understanding the evolving notions of reform and identity in the emergence of a Heraka religion Arkotong Longkumer argues that reform and identity are dynamically inter related and linked to the revitalisation and negotiation of both tradition legitimising indigeneity and change legitimising reform The results have deepened yet challenged not only prevailing views of the Western construction of the category religion but also understandings of how marginalised communities use collective historical imagination to inspire self identification through the discourse of religion In conclusion this book argues for a re evaluation of the way in which multi religious traditions interact to reshape identities and belongings

Socialism in Power Roland Boer, 2023-03-01 This book examines the historical development in practice and theory of governance in socialist systems With more than a century of such development from many parts of the world including the Soviet Union China and the DPRK North Korea it is possible to gain much from careful study of their political systems But what is the nature of this socialist governance It is abundantly clear that the type of governance in socialist countries had never before been seen in human history How does this governance work What was the political theory that arose from the practice How did this type of governance develop over time and in light of specific conditions These are the questions that *Socialism in Power* sets out to answer It does so not by using methods developed for studying Western liberal nation states but by deploying Marxist Leninist analysis Not an abstract Marxism but concrete Marxism as it was applied and developed in light of the particular historical conditions of the countries in question The book begins with careful analysis of the works of Marx and Engels with a particular emphasis on Engels who was crucial in establishing the basic principles of socialist governance Next the book focuses on the Soviet Union which was the first country in human history to experience socialism in power The rarely studied DPRK North Korea comes next as a transition to East Asia followed by a number of chapters on China which arguably has the most developed form of socialist governance

Eastern Learning and the Heavenly Way Carl Young, 2014-08-31 Tonghak or Eastern Learning was the first major new religion in modern Korean history Founded in 1860 it combined aspects of a variety of Korean religious traditions Because of its appeal to the poor and marginalized it became best known for its prominent role in the largest peasant rebellion in Korean history in 1894 which set the stage for a wider regional conflict the Sino Japanese War of 1894 1895 Although the rebellion failed it caused immense changes in Korean society and played a part in the war that ended in Japan s victory and its eventual rise as an imperial power It was in this context of social change and an increasingly perilous international situation that Tonghak rebuilt itself emerging as Ch ndogyo Teaching of the Heavenly Way in 1906 During the years before Japan s annexation of Korea in 1910 Ch ndogyo

continued to evolve by engaging with new currents in social and political thought strengthening its institutions and using new communication technologies to spread its religious and political message In spite of Korea s loss of independence Ch ndogyo would endure and play a major role in Korean nationalist movements in the Japanese colonial period most notably the March First independence demonstrations in 1919 It was only able to thrive thanks to the processes that had taken place in the twilight years of Korean independence This book focuses on the internal developments in the Tonghak and Ch ndogyo movements between 1895 and 1910 Drawing on a variety of sources in several languages such as religious histories doctrinal works newspapers government reports and foreign diplomatic reports it explains how Tonghak survived the turmoil following the failed 1894 rebellion to set the foundations for Ch ndogyo s important role in the Japanese colonial period The story of Tonghak and Ch ndogyo not only is an example of how new religions interact with their surrounding societies and how they consolidate and institutionalize themselves as they become more established it also reveals the processes by which Koreans coped and engaged with the challenges of social political and economic change and the looming darkness that would result in the extinguishing of national independence at the hands of Japan s expanding empire *The Next Christendom* Philip Jenkins,2011-09-01 In this new and substantially expanded Third Edition Philip Jenkins continues to illuminate the remarkable expansion of Christianity in the global South in Africa Asia and Latin America Drawing upon the extensive new scholarship that has appeared on this topic in recent years he asks how the new Christianity is likely to affect the poor among whom it finds its most devoted adherents How should we interpret the enormous success of prosperity churches across the Global South Politically what will be the impact of new Christian movements Will Christianity contribute to liberating the poor to give voices to the previously silent or does it threaten only to bring new kinds of division and conflict Does Christianity liberate women or introduce new scriptural bases for subjection Acclaim for previous editions of *The Next Christendom* Named one of the Top Religion Books of 2002 by USA Today Named One of the Top Ten Religion Books of the Year by Booklist 2002 Winner of the Christianity Today Book Award in the category of Christianity and Culture 2002 Jenkins is to be commended for reminding us throughout the often gripping pages of this lively work that the history of Christianity is the history of innovative and unpredictable adaptations The New York Times Book Review This is a landmark book Jenkin s thesis is comprehensively researched his analysis is full of insight and his projection of the future may indeed prove to be prophetic Baptist Times A valuable and provocative look at the phenomenon widely ignored in the affluent North but likely to be of enormous importance in the century ahead *The Next Christendom* is chillingly realistic about the relationship between Christianity and Islam Russell Shaw Crisis If the times demand nothing less than a major rethinking of contemporary global history from a Christian perspective *The Next Christendom* will be one of the significant landmarks pointing the way Mark Noll Books Culture
