French and American Revolutions the exercise of Church Patronage by premiers the development of Church parties the growth of Toleration the reaction of the churches to industrialisation the Halevy debate the reform of the church after 1830 the development of Nonconformity and the state of religion and social groups in 1850 Religion of the People David Hempton, 2013-10-31 Taking account of broader patterns of growth the focus of this book is Methodism in the British Isles Hempton discusses why Methodism the most important religious movement in the English speaking world in the 18th and 19th centuries grew when and where it did and what was the nature of the Methodist experience for those who embraced it He also explores the themes of law politics and gender which lie at the heart of Methodist influence on individuals communities and social structures *The National Church in Local Perspective* Jeremy Gregory, Jeffrey Scott Chamberlain, 2003 The political social and economic role of the Church in the various regions of England identifying common themes and highlighting regional differences **The Church of England 1688-1832** Dr William Gibson, William Gibson, 2012-10-12 A wide ranging new history of a key period in the history of the church in England from the Glorious Revolution of 1688 89 to the Great Reform Act of 1832 This was a tumultuous time for both church and state when the relationship between religion and politics was at its most fraught This book presents evidence of the widespread Anglican commitment to harmony between those of differing religious views and suggests that High and Low Churchmanship was less divergent than usually assumed **What Happens When We Practice Religion?** Robert Wuthnow, 2020-05-19 He favors the use of a broad range of analytic tools drawn from multiple disciplines and approaches to the study of religion The five chapters of this book describe the central concepts and arguments now advancing the study of religious practice Chapter 1 entitled Theories discusses the theoretical contributions associated with the aforementioned shift in religious studies to the investigation of religious practice Chapter 2 Situations discusses how religious activities and experiences are shaped by the physical and temporal spaces in which social action occurs Chapter 3 Intentions takes on an important topic that has proven difficult to study from a social science perspective Feelings are the focus of Chapter 4 and the role of Bodies is addressed in Chapter 5 *Protest, Politics and Work in Rural England, 1700-1850* Carl Griffin, 2013-11-28 Rural workers in eighteenth and early nineteenth century England were not passive victims in the face of rapid social change Carl J Griffin shows that they deployed an extensive range of resistances to defend their livelihoods and communities Locating protest in the wider contexts of work poverty and landscape change this new text offers the first critical overview of this growing area of study

New Directions in American Religious History Harry S. Stout, D. G. Hart, 1998-01-01 The eighteen essays collected in this book had their origin in a conference of the same title held at the Wingspread Conference Center in October of 1993 Some of the most distinguished scholars in the field were invited to reflect on their specialities in American religious history in ways that summarized where the field is and where it ought to move in the decades to come Organized according to four general ways of looking at religious history places and regions universal themes transformative events and marginal groups

and ethno cultural outsiders the essays address a wide range of topics including Puritanism religion and the Civil War Protestantism and economic behavior gender and sexuality in American Protestantism and the contemporary de Christianization of American culture Featuring contributions from David D Hall Donald G Matthews Allen C Guelzo Gordon S Wood Daniel Walker Howe Robert Wuthnow Jon Butler David A Hollinger and others this thought provoking and up to date collection will interest anyone involved in the study of American religion and history *Church, Chapel and Party* Richard D. Floyd, 2008-01-23 Through close examination of dozens of electoral contests in carefully chosen constituencies the author demonstrates that the fundamental division separating the burgeoning liberal and conservative parties in England in the 1830s and 1840s was religion and that this controversy was what created a perceptible two party system in British politics

Mighty England Do Good Steven S. Maughan, 2014-08 In late Victorian and Edwardian England says Steven Maughan foreign missions had a broad resonance and significance not adequately explored by historians of English culture *Mighty England Do Good* fills that lacuna by examining the rapid growth of foreign missions in the Church of England between 1850 and 1915 culminating at the height of the missionary enterprise in Britain Maughan s book bridges the gaps between religious cultural and imperial history to give a full picture of the movement s importance Maughan explores Anglicanism as a microcosm of the larger religious culture of Britain particularly in light of the expanding British empire This book provides a multidimensional reassessment of the power that foreign missions had to shape belief institutions culture and practice not only within the Church of England but also in the broader culture of the time **Government and Community in the**

English Provinces, 1700-1870 David Eastwood, 1997-06-09 In this bold and original study David Eastwood offers a reinterpretation of politics and public life in provincial England He explores the ways in which power was exercised and reconstructs the social and cultural foundations of political authority in provincial England Professor Eastwood demonstrates the crucial role played by local elites in policy making and shows how English public institutions and political culture can only be understood in terms of the long run development of the English state **The Clerical Profession in the Long**

Eighteenth Century, 1680-1840 W. M. Jacob, 2007-09-06 A study of the clergy of the Church of England as a professional group during the later Stuart and Georgian periods Jacobs describes their social backgrounds selection and education lifestyles and supervision and challenges long held views that most were inappropriately educated poverty stricken and neglectful of their duties **Rival Jerusalems** K. D. M. Snell, Paul S. Ell, 2000-10-26 This pioneering book is based upon very extensive analysis of the famous 1851 Census of Religious Worship and earlier sources such as the 1676 Compton Census The authors stress contextual and regional understanding of religion Among the subjects covered for all of England and Wales are the geography of the Church of England Roman Catholicism the old and new dissenting denominations the spatial complementarity of denominations and their importance for political history A range of further questions are then analysed such as regional continuities in religion the growth of religious pluralism Sunday schools and child labour during

industrialisation free and appropriated church sittings landownership and religion and urbanisation and regional secularisation This book s advanced methods and findings will have far reaching influence within the disciplines of history historical and cultural geography religious sociology and in the social science community general Useful Learning Anthony R. Cross,2017-05-05 Explorations of the English Baptist reception of the Evangelical Revival often and rightfully focus on the work of the Spirit prayer Bible study preaching and mission while other key means are often overlooked Useful Learning examines the period from c 1689 to c 1825 and combines history in the form of the stories of Baptist pastors their churches and various societies and theology as found in sermons pamphlets personal confessions of faith constitutions covenants and theological treatises In the process it identifies four equally important means of grace The first was the theological renewal that saw moderate Calvinism answer The Modern Question develop into evangelical Calvinism and revive the denomination Second were close groups of ministers whose friendship mutual support and close theological collaboration culminated in the formation of the Baptist Missionary Society and local itinerant mission work across much of Britain Third was their commitment to reviving stagnating Associations or founding new ones convinced of the vital importance of the corporate Christian life and witness for the support and strengthening of the local churches and furthering the spread of the gospel to all people Finally was the conviction of the churches and their pastors that those with gifts for preaching and ministry should be theologically educated At first local ministers taught students in their homes and then at the Bristol Academy In the early nineteenth century a further three Baptist academies were founded at Horton Abergavenny and Stepney and these were soon followed by colleges in America India and Jamaica *God and Mammon* Mark A. Noll,2002 This collection of essays offers a close look at the connections between American Protestants and money in the Antebellum period They provide essential background to an issue that continues to generate controversy in the Protestant community today Birth, Death, and Religious Faith in an English Dissenting Community Albion M. Urdank,2015-12-17 This study lies at the intersection of three principal areas of social history demography religion and quantitative methods It is a microanalysis of an English population at the level of the Anglican parish during the era of the evangelical revival which includes unusually Protestant dissenters from the Established church in this case Particular Baptists who were moderate Calvinists It goes a step beyond previous studies by giving Anglicans and Dissenters co equal status in a comparative demographic analysis and by demonstrating how religious values informed procreative activity It does so through a combination of advanced statistical methodologies and an innovative treatment of data collection forms as readable texts The study concludes that the likelihood of another birth increased following a religious conversion experience especially among both Anglican and Baptist wives following marriage Mortality too had a less constraining effect on procreative activity which in conformity with the English experience was driven largely by fertility *Writing local history* John Beckett,2013-07-19 This fascinating book looks at how local history developed from the antiquarian county studies of the sixteenth century

through the growth of professional history in the nineteenth century to the recent past Concentrating on the past sixty years it looks at the opening of archive offices the invigorating influence of family history the impact of adult education and other forms of lifelong learning The author considers the debates generated by academics including the divergence of views over local and regional issues and the importance of standards set by the Victoria County History VCH Also discussed is the fragmentation of the subject The antiquarian tradition included various subject areas that are now separate disciplines among them industrial archaeology name studies family landscape and urban history This is an authoritative account of how local history has come to be one of the most popular and productive intellectual pastimes in our modern society Written by a practitioner who has spent more than twenty years teaching local history to undergraduates and M A students as well as lecturing to local history societies John Beckett is currently Director of the VCH A remarkable book that will be of great interest to students and scholars of local history as well as amateur and professional genealogists

The English Reformation and the Laity Caroline Litzenberger, 2002-05-16 This book examines the effects of the English Reformation on the full spectrum of lay religion from 1540 to 1580 through an investigation of individuals and parishes in Gloucestershire Rather than focusing on either the acceptance of Protestantism or the demise of the traditional Catholic religion as other historians have done it considers all shades of belief against the backdrop of shifting official religious policy The result is the story of responses ranging from stiff resistance to eager acceptance creating a picture of the religion of the laity which is diverse and complex but also layered as parishes and individuals expressed their faith in ways which reflected the institutional or personal nature of their piety Finally while the book focuses on Gloucestershire it reveals broad patterns of beliefs and practices which could probably be found all over England

Popular Anti-Catholicism in Mid-Victorian England Denis G. Paz, 1992 Anti Catholic sentiment was a major social cultural and political force in Victorian England capable of arousing remarkable popular passion Hitherto however anti Catholic feeling has been treated largely from the perspective of parliamentary politics or with reference to the propaganda of various London based anti Catholic religious organizations This book sets out to Victorian anti Catholicism in a much fuller and more inclusive context accounting for its persistence over time disguising it from anti Irish sentiment and explaining its social economic political and religious bases locally as well as nationally The author is principally concerned with determining what led ordinary people to violent acts against Roman Catholic targets violent acts against Roman Catholic petitions joining anti Catholic organizations and reading anti Catholic literature All too often English history and even British history turns out to be the history of what was happening in the West End One of the special distinctions of this book is that it shows the interplay between national issues and their local conditions The book covers the period ca
