**Religion and Society in T'ang and Sung China** Patricia Buckley Ebrey, Peter N. Gregory, 1993-08-01 The T'ang 618-907 and Sung 960-1279 dynasties were times of great change in China. The economy flourished, the population doubled, printing led to a great increase in the availability of books. Buddhism became a fully sinicized religion penetrating deeply into ordinary life. This volume represents a collaborative effort of nine scholars of Chinese religion history and thought to begin addressing the question of how changes in the religions of the Chinese people were implicated in the momentous social and cultural changes of this period. Religion and society in Tang and Sung China Livia Kohn, Religious Experience and Lay Society in T'ang China Glen Dudbridge, 2002-06-20 The remains of Tai Fu's lost collection Kuang i chi The Great Book of Marvels preserve three hundred short tales of encounters with the other world. This study develops a style of close reading through which those tales give access to the lives of individuals in eighth century China. Through the eyes of a mid-century county official, the picture emerges of a complex lay society served by a mixed priesthood of ritual practitioners whose members' lives at all levels were profoundly shaped by their perceived experience of contact with the other world. It was a society embarking on fundamental change, and this book uses the sharp historical focus of Tai Fu's collection to study the dynamics of that change. The work gracefully reveals the transition from the beliefs and institutions of early mediaeval China towards those we now recognize as modern. **Society and the Supernatural in Song China** Edward L. Davis, 2001-06-01 Society and the Supernatural in Song China is at once a meticulous examination of spirit possession and exorcism in the twelfth and thirteenth centuries and a social history of the full panoply of China's religious practices and practitioners at the moment when she was poised to dominate the world economy. Although the Song dynasty 960-1276 is often identified with the establishment of Confucian orthodoxy, Edward Davis demonstrates the renewed vitality of the dynasty's Taoist, Buddhist, and local religious traditions. He charts the rise of hundreds of new temple cults and the lineages of clerical exorcists and vernacular priests, the increasingly competitive interaction among all practitioners of therapeutic ritual, and the wide social range of their patrons and clients. **Daoist Ritual, State Religion, and Popular Practices** Shin-Yi Chao, 2013-03-01 Zhenwu or the Perfected Warrior is one of the few Chinese Deities that can rightfully claim a countrywide devotion. Religious specialists, lay devotees, the state machine, and the cultural industry all participated both collaboratively and competitively in the evolution of this devotional movement. This book centres on the development and transformation of the godhead of Zhenwu as well as the devotional movement focused on him. Organised chronologically on the development of the Zhenwu worship in Daoist rituals, state religion, and popular practices, it looks at the changes in the way Zhenwu was perceived and the historical context in which those changes took place. The author investigates the complicated means by which various social and political groups contested with each other in appropriating cultural religious symbols. The question at the core of the book is how, in a given historical context, human agents and social institutions shape the religious world to which they

profess devotion The work offers a holistic approach to religion in a period of Chinese history when central local official clerical and popular power are constantly negotiating and reshaping established values     Staging Tianxia Lanlan

Kuang,2024-09-03 Staging Tianxia explores the ancient Chinese vision of world order known as tianxia all under heaven by focusing on the historical performative and rhetorical processes of expressive arts and cultural heritages that inform a vision of China as a historically multiethnic and cosmopolitan nation Author Lanlan Kuang unites multimedia ethnographic research and theoretical insights from ethnomusicology philosophy religious studies performance studies and cognitive science with a focus on Dunhuang bihua yuewu a modern interpretation inserted into the Chinese classical dance and theatrical arts tradition Staging Tianxia thus aims to redefine Silk Road studies and Dunhuangology a transdisciplinary field dedicated to studying the texts and art of Dunhuang a UNESCO World Heritage Site that connected China via the Silk Road with Central Asia South Asia Europe and the Middle East Staging Tianxia is a careful ethnographic study that looks at the importance of performance tradition and poetics in the arts and aesthetic theory of China     **The Buddhist Dead** Bryan J.

Cuevas,Jacqueline I. Stone,2007-04-30 In its teachings practices and institutions Buddhism in its varied Asian forms has been and continues to be centrally concerned with death and the dead Yet surprisingly death in Buddhism has received little sustained scholarly attention The Buddhist Dead offers the first comparative investigation of this topic across the major Buddhist cultures of India Sri Lanka China Japan Tibet and Burma Its individual essays representing a range of methods shed light on a rich array of traditional Buddhist practices for the dead and dying the sophisticated but often paradoxical discourses about death and the dead in Buddhist texts and the varied representations of the dead and the afterlife found in Buddhist funerary art and popular literature This important collection moves beyond the largely text and doctrine centered approaches characterizing an earlier generation of Buddhist scholarship and expands its treatment of death to include ritual devotional and material culture Contributors James A Benn Raoul Birnbaum Jason A Carbine Bryan J Cuevas Hank Glassman John Clifford Holt Matthew T Kapstein D Max Moerman Mark Rowe Kurtis R Schaeffer Gregory Schopen Koichi Shinohara Jacqueline I Stone John S Strong 13 illus     **Chinese Religion** Xinzhong Yao,2010-05-25 A new introduction To The field of Chinese religion and culture ideally suited to undergraduate students     *The Tao of the West* J.J. Clarke,2002-01-04 In this

book J J Clarke shows us how Taoist texts ideas and practices have been assimilated within a whole range of Western ideas and agendas We see how Chinese thinkers such as Lao tzu and Chuang tzu along with practices such as Feng Shui and Tai Chi have been used as a key Western inspiration in religion philosophy ethics politics ecology and health The Tao of the West not only provides a fascinating introduction to Taoism it also offers a timely insight into the history of the West s encounter with this ancient tradition and into the issues arising from inter cultural dialogue Anyone interested in understanding the key influence Taoism has had on the West will welcome and embrace this book     Oedipal God Meir Shabar,2015-08-31 Oedipal God offers the most comprehensive account in any language of the prodigal deity Nezha Celebrated for over a millennium

Nezha is among the most formidable and enigmatic of all Chinese gods. In this theoretically informed study, Meir Shahar recounts Nezha's riveting tale which culminates in suicide and attempted patricide and uncovers hidden tensions in the Chinese family system. In deploying the Freudian hypothesis, Shahar does not imply the Chinese legend's identity with the Greek story of Oedipus. For one, in Nezha's story, the erotic attraction to the mother is not explicitly acknowledged. More generally, Chinese oedipal tales differ from Freud's Greek prototype by the high degree of repression that is applied to them. Shahar argues that despite a disastrous father-son relationship, Confucian ethics require that the oedipal drive masquerade as filial piety in Nezha's story, dictating that the child god kill himself before trying to avenge himself upon his father. Combining impeccable scholarship with an eminently readable style, the book covers a vast terrain. It surveys the image of the endearing child god across varied genres, from oral and written fiction through theater, cinema, and television serials to Japanese manga cartoons. It combines literary analysis with Shahar's own anthropological field work, providing a thorough ethnography of Nezha's flourishing cult. Crossing the boundaries between China's diverse religious traditions, it tracks the rebellious infant in the many ways he has been venerated by Buddhist monks, Daoist priests, and possessed spirit mediums whose dramatic performances have served to negotiate individual familial and collective tensions. Finally, the book offers a detailed history of the legend and the cult, reaching back over two thousand years to its origins in India, where Nezha began as a mythological being named Nalak, whose sexual misadventures were celebrated in the Sanskrit epics as early as the first centuries BCE. Here, Shahar reveals the long-term impact that Indian mythology has exerted through the medium of esoteric Buddhism upon the Chinese imagination of divinity. A tour de force of literary analysis, ethnographic research, psychological insight, and cross-cultural investigation, *Oedipal God* is a must-read for anyone interested in Chinese studies and the historical connection between India and China. Shahar's broad reach and engaging approach will appeal to specialists and students in a variety of disciplines, including Chinese religion, Chinese literature, anthropology, Buddhist studies, psychology, Indian studies, and cross-cultural history.

**The Oxford Handbook of Religion and Violence** Mark Juergensmeyer, Margo Kitts, Michael K. Jerryson, 2015-11. Violence has always played a part in the religious imagination, from symbols and myths to legendary battles, from colossal wars to the theater of terrorism. *The Oxford Handbook of Religion and Violence* surveys intersections between religion and violence throughout history and around the world. The forty original essays in this volume include overviews of major religious traditions showing how violence is justified within the literary and theological foundations of the tradition, how it is used symbolically and in ritual practice, and how social acts of violence and warfare have been justified by religious ideas. The essays also examine patterns and themes relating to religious violence, such as sacrifice and martyrdom, which are explored in cross-disciplinary or regional analyses and offer major analytic approaches from literary to social scientific studies. The contributors to this volume, innovative thinkers who are forging new directions in theory and analysis related to religion and violence, provide novel insights into this important field of studies. By
