Medieval Weapons Robert D. Smith, Kelly DeVries, 2007-04-20 This fascinating reference covers the weapons and armor used by warriors from the 4th to the 15th century and discusses how and why they changed over time In the Middle Ages the lack of standardized weapons meant that one warrior's arms were often quite different from another's even when they were fighting on the same side And with few major technological advances in that period the evolution of those weapons over the centuries was incremental But evolve they ultimately did bringing arms armor and siege weapons to the threshold of the modern era From the fall of the Roman Empire to the beginnings of the Renaissance **Medieval Weapons An Illustrated History of Their Impact** covers the inexorable transformation from warrior in the mail shirt to fully armored knight from the days of spears and swords to the large scale adoption of the handgun **Medieval Weapons** covers this fascinating expanse of centuries in chapters devoted to the early medieval Carolingian Crusade and late medieval periods Within each period the book details how weapons and armor were developed what weapons were used for different types of battles and how weapons and armor both influenced and were influenced by

changing tactics in battles and sieges **The Carolingian World** Marios Costambeys, Matthew Innes, Simon MacLean, 2011-05-12 A comprehensive and accessible survey of the great Carolingian empire which dominated western Europe in the eighth and ninth centuries Encountering Islam on the First Crusade Nicholas Morton, 2016-07-14 The First Crusade 1095-9 has often been characterised as a head to head confrontation between the forces of Christianity and Islam. For many it is the campaign that created a lasting rupture between these two faiths. Nevertheless, is such a characterisation borne out by the sources? Engagingly written and supported by a wealth of evidence, *Encountering Islam on the First Crusade* offers a major reinterpretation of the crusaders' attitudes towards the Arabic and Turkic peoples they encountered on their journey to Jerusalem. Nicholas Morton considers how they interpreted the new peoples, civilizations and landscapes they encountered, sights for which their former lives in Western Christendom had provided little preparation. Morton offers a varied picture of cross-cultural relations, depicting the Near East as an arena in which multiple protagonists were pitted against each other. Some were fighting for supremacy, others for their religion, and many simply for survival.

Prowess, Piety, and Public Order in Medieval Society, 2017-03-06 Richard Kaeuper's career has examined three salient concerns of medieval society: knightly prowess and violence, lay and religious piety, and public order and government, most directly in three of his monographs: *War, Justice and Public Order* (Oxford, 1988), *Chivalry and Violence in Medieval Europe* (Oxford, 1999), and *Holy Warriors* (Penn, 2009). Kaeuper approaches historical questions with an eye towards illuminating the inherent complexities in human ideas and ideals, and he has worked to untangle the various threads holding together cultural constructs such as chivalry, licit violence, and lay piety. The present festschrift in his honor brings together scholars from across disciplines to engage with those same concerns in medieval society from a variety of perspectives. Contributors are Bernard S. Bachrach, Elizabeth A. R. Brown, Samuel A. Claussen, David Crouch, Thomas Devaney, Paul Dingman, Daniel P. Franke, Richard Firth Green, Christopher Guyol, John D. Hosler, William Chester Jordan, Craig M. Nakashian, W. Mark Ormrod, Russell A. Peck, Anthony J. Pollard, Michael Prestwich, Sebastian Rider, Bezerra Leah Shopkow, and Peter W. Sposato.

Between Sword and Prayer, 2017-10-02 *Between Sword and Prayer* is a broad-ranging anthology focused on the involvement of medieval clergy in warfare and a variety of related military activities. The essays address, on the one hand, the issue of clerical participation in combat, in organizing military campaigns, and in armed defense, and on the other, questions surrounding the political, ideological, or religious legitimization of clerical military aggression. These perspectives are further enriched by chapters dealing with the problem of the textual representation of clergy who actively participated in military affairs. The essays in this volume span Latin Christendom, encompassing geographically the four corners of medieval Europe: Western, East Central, Northern Europe, and the Mediterranean. Contributors are Carlos de Ayala, Martine Geneviève Bihler, Thierry Chris Dennis, Pablo Dorronzoro, Ramon Lawrence G. Duggan, Daniel Gerrard, Robert Houghton, Carsten Selch Jensen, Radosław Kotecki, Jacek Maciejewski, Ivan Majnari, Monika Michalska, Michael Edward Moore, Craig M. Nakashian, John S. Ott,

Emotions in a Crusading Context is the first book length study of the emotional rhetoric of crusading It investigates the ways in which a number of emotions and affective displays primarily fear anger and weeping were understood represented and utilised in twelfth and thirteenth century western narratives of the crusades making use of a broad range of comparative material to gauge the distinctiveness of those texts crusader letters papal encyclicals model sermons chansons de geste lyrics and an array of theological and philosophical treatises In addition to charting continuities and changes over time in the emotional landscape of crusading this study identifies the underlying influences which shaped how medieval authors represented and used emotions analyzes the passions crusade participants were expected to embrace and reject and assesses whether the idea of crusading created a profoundly new set of attitudes towards emotions Emotions in a Crusading Context calls on scholars of the crusades to reject the traditional methodological approach of taking the emotional descriptions embedded within historical narratives as straightforward reflections of protagonists lived feelings and in so doing challenges the long historiographical tradition of reconstructing participants beliefs and experiences from these texts Within the history of emotions Stephen J Spencer demonstrates that despite the ongoing drive to develop new methodologies for studying the emotional standards of the past typified by experiments in neurohistory the social constructionist or cultural historical approach still has much to offer the historian of medieval emotions **Writing the Military History of Pre-Crusade Europe** David S. Bachrach, Bernard S. Bachrach, 2020-12-29 Writing the Military History of Pre Crusade Europe brings together fourteen articles by eminent historians David S Bachrach and Bernard S Bachrach Crucial to the writing of medieval military history is a thorough understanding of the strengths and weaknesses of the available source materials Just as important is a broad conception of the range of sources which scholars can draw upon to ask and answer questions about the organization and conduct of war The studies collected in this volume provide insights regarding many of the most important narrative works from pre Crusade Europe with a particular emphasis on the ways in which they can be used to write military history as well as the pitfalls facing historians who read these texts transparently without regard for the authors various parti pris and limitations In addition to their treatment of narrative works several of the studies in this volume highlight the importance of treating historiographical texts within the broader range of source materials that illuminate the conduct and organization of war in pre crusade Europe particularly material sources developed through excavations as well as contemporary images most prominently the Bayeux Tapestry The book will appeal to scholars and students of medieval history as well as those interested in military history CS1097 *Just Wars, Holy Wars, and Jihads* Sohail H. Hashmi, 2012-08-16 Surveying the period from the rise of Islam in the early seventh century to the present day Just Wars Holy Wars and Jihads is the first book to investigate in depth the historical interaction among Jewish Christian and Muslim ideas about when the use of force is justified Grouped under the three labels of just war holy war and jihad these ideas are

explored throughout twenty chapters that cover wide ranging topics from the impact of the early Islamic conquests upon Byzantine Syriac and Muslim thinking on justified war to analyzing the impact of international law and terrorism on conceptions of just war and jihad in the modern day This study serves as a major contribution to the comparative study of the ethics of war and peace *Religion on the Battlefield* Ron E. Hassner, 2016-05-18 How does religion shape the modern battlefield Ron E Hassner proposes that religion acts as a force multiplier both enabling and constraining military operations This is true not only for religiously radicalized fighters but also for professional soldiers In the last century religion has influenced modern militaries in the timing of attacks the selection of targets for assault the zeal with which units execute their mission and the ability of individual soldiers to face the challenge of war Religious ideas have not provided the reasons why conventional militaries fight but religious practices have influenced their ability to do so effectively In *Religion on the Battlefield* Hassner focuses on the everyday practice of religion in a military context the prayers rituals fasts and feasts of the religious practitioners who make up the bulk of the adversaries in bystanders to and observers of armed conflicts To show that religious practices have influenced battlefield decision making Hassner draws most of his examples from major wars involving Western militaries They include British soldiers in the trenches of World War I U S pilots in World War II and U S Marines in Iraq and Afghanistan Hassner shows that even modern rational and bureaucratized military organizations have taken and must take religious practice into account in the conduct of war *Penance in Medieval Europe, 600-1200* Rob Meens, 2014-07-17 An up to date overview of the functions and contexts of penance in medieval Europe revealing the latest research and interpretations *The Uses of the Bible in Crusader Sources* , 2017-05-22 The Uses of the Bible in Crusader Sources sets out to understand the ideology and spirituality of crusading by exploring the biblical imagery and exegetical interpretations which formed its philosophical basis Medieval authors frequently drew upon scripture when seeking to justify praise or censure the deeds of crusading warriors on many frontiers After all as the fundamental written manifestation of God s will for mankind the Bible was the ultimate authority for contemporary writers when advancing their ideas and framing their world view This volume explores a broad spectrum of biblically derived themes surrounding crusading and by doing so seeks to better comprehend a thought world in which lethal violence could be deemed justifiable according to Christian theology Contributors are Jessalynn Bird Adam M Bishop John D Cotts Sini Kangas Thomas Lecaque T J H McCarthy Nicholas Morton Torben Kjersgaard Nielsen Luigi Russo Uri Shachar Iris Shagrir Kristin Skottki Katherine Allen Smith Thomas W Smith Carol Sweetenham Miriam Rita Tessera Jan Vandeburie Julian J T Yolles and Lydia Marie Walker *In This Modern Age* Courtney M. Remembering the Crusades and Crusading Megan Cassidy-Welch, 2016-11-03 *Remembering the Crusades and Crusading* examines the diverse contexts in which crusading was memorialised and commemorated in the medieval world and beyond The collection not only shows how the crusades were commemorated in the twelfth and thirteenth centuries but also considers the longer term remembrance of the crusades into the modern era This collection is divided into three sections the first of which deals with the textual material and visual sources used to remember Each contributor introduces a particular body of source material and presents case studies using those sources in their own research The second section contains four chapters examining specific communities active in commemorating the crusades including religious communities family groups and royal courts Finally the third section examines the cultural memory of crusading in the Byzantine Iberian and Baltic regions beyond the early years as well as the trajectory of crusading memory in the Muslim Middle East This book draws together and extends the current debates in the history of the crusades and the history of memory and in so doing offers a fresh synthesis of material in both fields It will be essential reading for students of the crusades and memory

The Field of Blood Nicholas Morton, 2018-02-20 A history of the 1119 Battle of the Field of Blood which decisively halted the momentum gained during the First Crusade and decided the fate of the Crusader states During the First Crusade Frankish armies swept across the Middle East capturing major cities and setting up the Crusader States in the Levant A sustained Western conquest of the region appeared utterly inevitable Why then did the crusades ultimately fail To answer this question historian Nicholas Morton focuses on a period of bitter conflict between the Franks and their Turkish enemies when both factions were locked in a struggle for supremacy over the city of Aleppo For the Franks Aleppo was key to securing dominance over the entire region For the Turks this was nothing less than a battle for survival without Aleppo they would have little hope of ever repelling the European invaders This conflict came to a head at the Battle of the Field of Blood in 1199 and the face of the Middle East was forever changed
