Religion And The One Philosophies East And West:

Religion and The One Frederick Copleston, 2003-01-01 Theories of one ultimate reality exist in philosophies of both the East and the West and in both traditions such theories are commonly connected with religion In Religion and the One Frederick Copleston explores the approach that different philosophies have taken to the question of divine reality with a special focus on the metaphysics of the One In the first part of the book Copleston looks at the features of different traditions discussing Taoist philosophy the Vedanta schools of thought in India the development of philosophy in the Islamic world and a number of movements from the Western tradition The second part questions why people form such theories exploring factors such as the nature of the self and the cognitive value of mysticism Writing with all his hallmark learning and lucidity the author also discusses the consequences of the metaphysics of the One for ethical ideals and social activism Approaching the issues in an open minded and unprejudiced fashion he does not pretend to have answers to all the questions he raises However unlike many theologians and philosophers he is not prepared to dismiss metaphysics as being inherently irreligious

Religion and the One Frederick Charles Copleston, 1999-12 History and Systems of Psychology James F. Brennan, Keith A. Houde, 2022-11-17 The Eighth Edition of this classic textbook connects the rich story of psychology's past to contemporary research and practice **The Epistemology of Comparative Philosophy** Joseph Kaipayil, 1995 **After Our Likeness** Miroslav Volf, 1998 In After Our Likeness Miroslav Volf explores the relationship between persons and community in Christian theology He seeks to counter the tendencies toward individualism in Protestant ecclesiology and give community its due Christianity and Classical Culture Jaroslav Pelikan, 1993-01-01 The momentous encounter between Christian thought and Greek philosophy reached a high point in fourth century Byzantium and the principal actors were four Greek speaking Christian thinkers whose collective influence on the Eastern Church was comparable to that of Augustine on Western Latin Christendom In this erudite and informative book a distinguished scholar provides the first coherent account of the lives and writings of these so called Cappadocians named for a region in what is now eastern Turkey showing how they managed to be Greek and Christian at the same time Jaroslav Pelikan describes the four Cappadocians Gregory of Nazianzus Basil of Caesarea Gregory of Nyssa and Macrina sister and teacher of the last two who were trained in Classical culture philosophy and rhetoric but who were also defenders and expositors of Christian orthodoxy On one issue of faith and life after another the nature of religious language the ways of knowing the existence of God the universe as cosmos time and space free will and immortality the nature of the good life the purpose of the universe they challenged and debated the validity of the Greek philosophical tradition in interpreting Scripture Because the way they resolved these issues became the very definition of normative Christian belief says Pelikan their system is still a key to our understanding not only of Christianity's diverse religious traditions but also of its intellectual and philosophical traditions This book is based on the prestigious Gifford Lectures presented by Jaroslav Pelikan at the University of Aberdeen in 1992 and 1993

Rediscovering God with Transcendental Argument David Peter Lawrence, 2015-07-29 Rediscovering God with Transcendental Argument provides a comparative philosophical study of the Pratyabhijñā a system of the medieval Kashmiri Śaiva thinkers Utpaladeva and Abhinavagupta Beginning with intensive descriptive and prescriptive reflections on the nature of philosophy itself the book examines the special characteristics of the Pratyabhijñā discourse as both philosophical apologetics and spiritual exercise Lawrence situates the Pratyabhijñā speculation within the larger context of Hindu and Buddhist deliberations about the role of interpretation in experience and gives a groundbreaking exposition of the epistemology and ontology of Śhiva's self recognition He observes the similarities and differences of the Pratyabhijñā with Christian understandings of the divine logos and argues that the Śaiva philosophy elucidates a cogent way of demonstrating the reality of God against contemporary relativism deconstructionism and other forms of skepticism Love, the Ultimate Apologetic Art Lindsley, 2009-09-20 Defending the Christian faith is a multidimensional task But central to that task must be the presentation and example of the uniqueness of Christian love Author and apologist Art Lindsley explores the persuasive and illuminating power of Christ like love expressed in commitment conscience community and courage Such love Lindsley shows us does indeed bear ultimate witness to the living truth of Jesus Christ Reality, Religion, and Passion Jessica Frazier, 2009-01-01 Radical doubt about the truths that govern life has posed a problem for thinkers in many different cultures and periods This study uncovers the solutions offered by a postmodern Western thinker Hans Georg Gadamer and an early modern Indian thinker Rupa Goswami each of whom offers a renewed postskeptical vision of a revitalized life that is firmly rooted in the transcendental truths of reality **Philosophy East & West**, 2000 *The Jamesian Mind* Sarin Marchetti, 2021-12-28 William James 1842 1910 is widely regarded as the founding figure of modern psychology and one of the most important philosophers of the nineteenth and twentieth centuries Renowned for his philosophical theory of pragmatism and memorable turns of phrase such as stream of consciousness and the will to believe he made enormous contributions to a rich array of philosophical subjects from the emotions and free will to religion ethics and the meaning of life The Jamesian Mind covers the major aspects of James's thought from his early influences to his legacy with over forty chapters by an outstanding roster of international contributors It is organized into seven parts Intellectual Biography Psychology Mind and Self Ethics Religion and Politics Method Truth and Knowledge Philosophical Encounters Legacy In these sections fundamental topics are examined including James's conceptions of philosophical and scientific inquiry habit self free will and determinism pragmatism truth and pluralism Considerable attention is also devoted to James in relation to the intellectual traditions of empiricism and Romanticism as well as to such other philosophical schools as utilitarianism British idealism Logical Empiricism and existentialism James's thought is also situated in an interdisciplinary context including modernism sociology and politics showcasing his legacy in psychology and ethics An indispensable resource for anyone studying and researching James's philosophy The Jamesian Mind will also interest those in related disciplines such as

psychology religion and sociology **Auden's O** Andrew W. Hass, 2013-11-01 Explores the rise of the idea of nothing in Western modernity and how its figuration is transforming and offering new possibilities In this groundbreaking interdisciplinary history of ideas Andrew W Hass explores the ascendancy of the concept of nothing into late modernity He argues that the rise of the reality of nothing in religion philosophy and literature has taken place only against the decline of the concept of One a shift from a sovereign understanding of the One unity universality toward the figure of the O a cipher figure that as nonentity is nevertheless determinant of other realities The figuring of this O culminates in a proliferation of literary expressions of nothingness void and absence from 1940 to 1960 but by century s end this movement has shifted from linear progression to mutation whereby religion theology philosophy literature and other critical modes of thought such as feminism merge into a shared circular activity The writer W H Auden lends his name to this O his long poetic work *The Sea and the Mirror* an exemplary manifestation of its implications Hass examines this work along with that of a host of writers philosophers and theologians to trace the revolutionary hermeneutics and creative space of the O and to provide the reasoning of why nothing is now such a powerful force in the imagination of the twenty first century and of how it might move us through and beyond our turbulent times *Systematic Philosophical Theology, Volume 1* William Lane Craig, 2025-03-03 Offers a transformative journey through Christian doctrine invites readers to engage with an intellectually enriching exploration of faith and reason *Systematic Philosophical Theology* is a multi volume explication of Christian doctrine in the classic Protestant tradition of the *loci communes* Blending the disciplines of biblical theology historical theology and analytic theology this landmark series provides readers with a biblically faithful philosophically coherent articulation of the full range of Christian doctrine In the first volume of the series *Prolegomena On Scripture On Faith* distinguished theologian and philosopher William Lane Craig begins by introducing his conception of systematic philosophical theology describing how it relates to biblical theology dogmatics fundamental theology apologetics and especially philosophy of religion The chapters that follow defend the divine authority of Scripture address the nature of faith and discuss the rational justification for Christian faith Throughout the text Craig tackles deep philosophical issues that arise naturally from Christian doctrine such as questions regarding the compatibility of biblical inspiration and human freedom Taking a synoptic integrative approach that lays the foundation for engaging with subsequent volumes in the series *Prolegomena On Scripture On Faith* Offers a deep integration of philosophy and theology Characterizes the main features of systematic theology including its nature goals subject matter and relations to adjacent disciplines Combines sacred and secular knowledge to build a synoptic worldview bridging the gap between theology and scientific disciplines Presents creative formulations of Christian doctrines such as a Molinist doctrine of biblical inspiration *Systematic Philosophical Theology Volume I Prolegomena On Scripture On Faith* is essential reading for philosophers of religion systematic theologians analytic theologians and Christian philosophers It is also a valuable resource for students and scholars of religion

philosophy of religion and theology as well as laypeople and academics in other fields **Eastern Religions, Spirituality, and Psychiatry** H. Steven Moffic, Rama Rao Gogineni, John R. Peteet, Neil Krishan Aggarwal, Narpinder K. Malhi, Ahmed Hankir, 2024-07-30 This book provides a thorough comprehensive and accessible reference for all the major Eastern faith traditions and their intersection with psychiatry Understanding Eastern religion is of paramount value to all mental health professionals as there is a growing emphasis on religion and spirituality as a part of clinical cultural competence interventions predominantly in North America and Europe Additionally there is rising membership in Eastern Asian and non Semitic faith traditions in North America and Europe Hence more patients and clinicians belong to these non Western faiths than ever before The volume is divided into five parts Part 1 covers general issues including principles of culture religion and spirituality in psychiatry spirituality across the lifespan child rearing practice and faith and how death and dying is approached in these Eastern traditions Part 2 covers specific Eastern religions and spiritual traditions including basic principles and research based clinical aspects of Hinduism Buddhism Sikhism Taoism Zoroastrianism Jainism as well as Confucian philosophical ideas Part 3 attempts to apply the importance of cultural humility to perspectives on the Eastern Traditions from Western Psychiatry These include Christian Muslim and Jewish perspectives not of expertise but of explorations in learning Part 4 covers specific social psychiatric perspectives including the psychiatric harm that can come from caste divisions and cults posing as religions but closes with a perspective on the Eastern connections to the relatively unknown but unifying Omnist perspective All mental health professionals seeking to expand their understanding of the essential belief systems of various Eastern religions and their connection with mental health will find Eastern Religions Spirituality and Psychiatry an invaluable resource Methodologies of Comparative Philosophy Robert W. Smid, 2010-07-02 What is comparative philosophy This question is ultimately a methodological one according to this much needed book The cultivation of area studies in diverse traditions has opened up opportunities for cross cultural understanding that have rarely existed before and comparative philosophy is a rapidly emerging area of inquiry Yet surprisingly little has been written on comparative methodology in philosophy Of course there is much at stake in how we compare things how comparison is done determines what comparison is Author Robert W Smid provides a critical review of four of the most influential comparative methodologies within the American pragmatist and process philosophical traditions those of William Ernest Hocking F S C Northrop Robert Cummings Neville and David L Hall in collaboration with Roger T Ames Discussing the history of each methodology s development and critically assessing its strengths and weaknesses Smid demonstrates that it is possible to compare methods as well as traditions and encourages those interested to join the contemporary conversation **Essays on Vedanta and Western Philosophies** Arun Chatterjee, 2018-07-10 Philosophical issues such as reality and appearance God and world self and not self rebirth and immortality free will and determination mysticism etc have been examined by eastern and western philosophers as far back as the sages of Upanishads 700 BCE in the East and Plato 400 BCE in the West

However there was no significant communication among the philosophers of the East and West perhaps until the eighteenth century Arthur Schopenhauer 1788 1860 was one of the first among the great western philosophers to recognize the value of Indian philosophies Despite the lack of communication there are striking similarities of concepts and issues addressed by Indian and western philosophies Also interesting is how similar are the mystical versions of different religions of the East and West The author Dr Arun Chatterjee has attempted to bring out the similarities and differences in various chapters of this book dealing with different topics Among Indian philosophies the focus is on Vedanta philosophy and the views of Sri Aurobindo 1872 1950 The views of Swami Vivekananda 1863 1902 also are presented Other Indian philosophies such as Sankhya and Buddhism are discussed briefly Among western religions Judaism Christianity and Islam are discussed

The World's Religious Traditions Frank Whaling, 2016-10-06 The aim of this book is to make a major contribution to the field of religious studies while at the same time paying tribute to the work of Wilfred Smith Although the basis of the chapters is provided by Smith's themes of faith and tradition and Smith's approach to the study of religion this book stands in its own right as a significant addition to both content and method in the global history of religions First published in 1984 it includes contributions by Geoffrey Parrinder Annemarie Schimmel George Rupp Ninian Smart and others
