Women and World Religions Lucinda J. Peach,2002 This book features a number of different articles and essays that focus on women as active agents of their spiritual lives a topic that is often overlooked in most other world religion books It explores how women from many parts of the world have thought about acted and have been treated as members of a religious tradition Investigates how women of a variety of religious traditions e g Hinduism Buddhism Islam Christianity etc practice their religion how their beliefs differ from men and how they have carved out their own place within their religious tradition For anyone interested in how women

are shaped by and how they shape the various world religions *World Religions in America, Fourth Edition* Jacob Neusner, 2009-10-07 The fourth edition of *World Religions in America* continues its lauded tradition of providing students with reliable and nuanced information about America's religious diversity while also reflecting new developments and ideas. Each chapter was updated to reflect important changes and events and current statistics and information. New features include a timeline of key events and people for each tradition, sidebars on major movements or controversies, personal stories from members of various faiths, a theme-based organization of subjects, more subheads, three new chapters exploring America's increasing religious diversity and suggestions for further study. *Religion in the Lives of English Women, 1760-1930* Gail Malmgreen, 1986 , **Woman and Religion** Mary John Mananzan, 1988 **Religion, Gender and Citizenship**, 2016 Through interviews with Christian and Muslim women in Norway, Spain, and the United Kingdom, this book explores intersections between religion, citizenship, gender, and feminism. How do religious women think about citizenship and how do they practice citizenship in everyday life? How important is faith in their lives and how is religion bound up with other identities such as gender and nationality? What are their views on gender equality, women's movements, and feminism? The answers offered by this book are complex. Religion can be viewed as both a resource and a barrier to women's participation. The interviewed women talk about citizenship in terms of participation, belonging, love, care, tolerance, and respect. Some seek gender equality within their religious communities, while others accept different roles and spaces for women. Natural differences between women and men and their equal value are emphasized more than equal rights. Women's movements are viewed as having made positive contributions to women's status, but interviewees are also critical of claims related to abortion and divorce and of feminism's allegedly selfish, unwomanly, anti-men, and power-seeking stance. In the interviews, Christian privilege is largely invisible and silenced, while Muslim disadvantage is both visible and articulated. Line Nyhagen and Beatrice Halsaa unpack and make sense of these findings, discussing potential implications for the relationship between religion, gender, and feminism. **Women and Religion** Susan M. Shaw, 2021-08-09 This volume offers students a broad examination of the impact of religion on the lives of women around the world, focusing on differences among women, indigenous religions, the impact of religion in colonization and resistance to religious oppression. Sexism pervasive in religion limits access to high leadership positions, dictates gender-related religious practices and roles, portrays women in limited ways in sacred texts, excludes or condemns them if they are lesbian, bisexual, or transgender, and makes them subject to violence by people of other faiths as well as their own. This volume is organized into eight chapters, each focusing on a different region of the world: North America, Latin America and the Caribbean, Europe, North Africa and the Middle East, Sub-Saharan Africa, Central and East Asia, South and Southeast Asia, and Oceania. Chapters cover women's status and experiences in the religions of each region, including indigenous religions and such major world religions as Christianity, Judaism, Islam, Buddhism, and Hinduism. Additionally, they cover issues of religion for women such as women in religious leadership, women

in sacred texts LGBTQ issues in religion the intersections of religion and politics for women the legacy of Christian missionaries on the colonial project religious violence against women and women s resistance to religious oppression
