Choosing Our Religion Elizabeth Drescher, 2016-03-01 To the dismay of religious leaders study after study has shown a steady decline in affiliation and identification with traditional

religions in America By 2014 more than twenty percent of adults identified as unaffiliated up more than seven percent just since 2007 Even more startling more than thirty percent of those under the age of thirty now identify as Nones answering none when queried about their religious affiliation Is America losing its religion Or as more and more Americans choose different spiritual paths are they changing what it means to be religious in the United States today In *Choosing Our Religion* Elizabeth Drescher explores the diverse complex spiritual lives of Nones across generations and across categories of self identification such as Spiritual But Not Religious Atheist Agnostic Humanist just Spiritual and more Drawing on more than one hundred interviews conducted across the United States Drescher opens a window into the lives of a broad cross section of Nones diverse with respect to age gender race sexual orientation and prior religious background She allows Nones to speak eloquently for themselves illuminating the processes by which they became None the sources of information and inspiration that enrich their spiritual lives the practices they find spiritually meaningful how prayer functions in spiritual lives not centered on doctrinal belief how morals and values are shaped outside of institutional religions and how Nones approach the spiritual development of their own children These compelling stories are deeply revealing about how religion is changing in America both for Nones and for the religiously affiliated family friends and neighbors with whom their lives remain intertwined

Cultural Catholics Maureen K. Day, 2024-10-15 Over half of self identified Catholics are regularly absent from the pews on Sunday How do these cultural Catholics practice their faith and how can we better minister to them Who are cultural Catholics and how do we connect with them Written by award winning sociologist and professor of religion Maureen K Day *Cultural Catholics* tells the story of those who consider themselves Catholic but infrequently attend Mass This accessible book examines cultural Catholics on a range of topics allowing readers to come to a better understanding of this group and offers ministerial insights for connecting with and accompanying them on their spiritual journeys Cultural Catholics comprise just over half of self identified Catholics in the United States Typical efforts or questions of outreach come from parishes but because most cultural Catholics are loosely tethered to parish life the standard avenues of Catholic ministry do not reach them in any reliable way Using a nationally representative survey of more than 1 500 American Catholics as well as insights from ministry leaders this book allows readers to see the differences and similarities in how cultural Catholics relate to their faith compared to Catholics in the pews It also explores cultural Catholics religious beliefs and practices political and civic commitments parish experiences and concludes with concrete evidence based pastoral approaches

Native American Religious Traditions Suzanne Crawford O'Brien, 2015-08-27 Focusing on three diverse indigenous traditions *Native American Religious Traditions* highlights the distinct oral traditions and ceremonial practices the impact of colonialism on religious life and the ways in

which indigenous communities of North America have responded and continue to respond to colonialism and Euroamerican cultural hegemony

The SAGE Handbook of the Sociology of Religion James A Beckford, Jay Demerath, 2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook s 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009

The Discipline of Religion Russell T. McCutcheon, 2003-12-08 The Discipline of Religion is a lively critical journey through religious studies today looking at its recent growth as an academic discipline and its contemporary political and social meanings Focusing on the differences between religious belief and academic religious discourse Russell T McCutcheon argues that the invention of religion as a discipline blurs the distinction between criticism and doctrine in its assertion of the relevance of faith as a credible object of study In the leap from disciplinary criticism to avowal of actual cosmic and moral meaning schools of religious studies extend their powers far beyond universities and into the everyday lives of those outside managing and curtailing specific types of speech and dissent

Teaching for a Multifaith World Eleazar S. Fernandez, 2017-05-05 When religious diversity is our reality radical hospitality to people of other faiths is not a luxury but a necessity More than necessary for our survival radical hospitality to

religious diversity is necessary if we are to thrive as a global society By no means does the practice of hospitality in a multifaith world require that we be oblivious of our differences On the contrary it demands a respectful embrace of our differences because that is who we are Neither does radical hospitality require that we water down our commitment because faithfulness and openness are not contradictory We must be able to say with burning passion that we are open to the claims of other faiths because we are faithful to our religious heritage The essays in this book do not offer simply theological exhortations they offer specific ways of how we can become religiously competent citizens in a multifaith world Let us take the bold steps of radical openness with this book on our side
