Religion In Canadian Society:

Religion in Canadian Society Stewart Crysedale, Les Wheatcroft, 1976 Professors Crysedale and Wheatcroft have assembled a comprehensive selection of studies on aspects of religion in Canada. The book contains 33 articles by sociologists, anthropologists, and historians, many of them published here for the first time. The editors' substantial introduction provides a cogent outline of the nature of socioreligious studies in Canada today; it includes a discussion of theoretical perspectives and methods of inquiry and an analysis of the problems and issues confronting Canadian social scientists working in this field. The studies in this volume deal with such topics as the place of religion in the lives of indigenous peoples, religion and its adaptation to social change, responses to religious callings, and religion and cultural ethnic cleavages. Publisher Religion and Canadian Society Lori G. Beaman, 2012 This text offers an outstanding selection of readings that represent an overview of the key issues in the sociology of religion from a uniquely Canadian perspective. Masterfully planned and united by clearly articulated themes, the second edition moves through three thematic cornerstones: contexts, identities, and strategies. Recurring sub-themes include the definition of religion, the secularization debate, the challenge of diversity, and the gendered aspects of religious experience. Key additions to this edition include a discussion on cultural diversity, an exploration of religion and sexuality, and a thorough historical overview of religion in Canada. **Encyclopedia of Religion and Society** William H. Swatos, 1998 As the new millennium approaches, the sacred and profane interface conflict and intermingle in novel ways. The Encyclopedia of Religion and Society provides a guide map for these developments. From succinct brief notes to essay-length entries, it covers world religions, religious perspectives on political and social issues, and religious leaders and scholars present and past in the United States and the world. This comprehensive volume is an essential reference for studies in the anthropology, psychology, politics, and sociology of religion. Topics include abortion, adolescence, African American religious experience, anthropology of religion, Buddhism, commitment, conversion, definition of religion, ecology, movement, Emile Durkheim, ethnicity, fundamentalism, Hinduism, Islam, Judaism, new religious movements, organization, parish, Talcott Parsons, racism, research methods, Roman Catholicism, sexism, Unification Church, Max Weber, and many others. *Religion in Canadian Society* Stewart Crysedale, 1976 Religion and Ethnicity in Canada Paul Bramadat, David Seljak, 2009-01-01 As the leading book in its field, *Religion and Ethnicity in Canada* has been embraced by scholars, teachers, students, and policy makers as a breakthrough study of Canadian religious ethnic diversity and its impact on multiculturalism. A team of established scholars looks at the relationships between religious and ethnic identity in Canada's six largest minority religious communities: Hindus, Buddhists, Sikhs, Jews, Muslims, and practitioners of Chinese religion. The chapters also highlight the ethnic diversity extant within these traditions in order to offer a more nuanced appreciation of the variety of lived experiences of members of these communities. Together, the contributors develop consistent themes throughout the volume: among them, the changing nature of religious practice and ideas, current demographics, racism, and the role of women.

Chapters related to the public policy issues of healthcare education and multiculturalism show how new ethnic and religious diversity are challenging and changing Canadian institutions and society Comprehensive and insightful Religion and Ethnicity in Canada makes a unique contribution to the study of world religions in Canada **Religion Et Culture Au Canada** Canadian Society for the Study of Religion,1978 **Religion and Canadian Society** Lori Gail Beaman,2006

Canada's Religions Robert Choquette,2004 Each Canadian Census reveals Canada to be an Overwhelmingly religious country With nine out of ten Canadians claiming a religious affiliation of some kind Aboriginal Catholic Protestant Jewish Islamic Hindu or one of dozens of new religions faith has necessarily had an influence on citizens personal and social lives In Canada s Religions Robert Choquette offers a history of religion in Canada and examines the ongoing tug of war between modernity and conservatism within the religious traditions themselves Given that religion affects so many areas of daily life including politics education community standards and general behaviour Canada s Religions provides academics students and educated readers with an excellent overview of the impact of religion on Canadian life Understanding the various religions in Canada argues Choquette facilitates tolerance and acceptance and eases the hostility that people may feel towards lesser known faiths Through illustrative stories and indepth research Canada s Religions offers an invaluable resource placing religion within an ever changing social context and inviting the reader to a new level of understanding of Canada s religious faiths Fifty Years of Religious Studies in Canada Harold Coward,2014-11-07 In Canadian universities in the early 1960s no courses were offered on Hinduism Buddhism or Islam Only the study of Christianity was available usually in a theology program in a church college or seminary Today almost every university in North America has a religious studies department that offers courses on Western and Eastern religions as well as religion in general Harold Coward addresses this change in this memoir of his forty five year career in the development of religious studies as a new academic field in Canada He also addresses the shift from theology classes in seminaries to non sectarian religious studies faculties of arts and humanities the birth and growth of departments across Canada from the 1960s to the present the contribution of McMaster University to religious studies in Canada and Coward s Ph D experience there the Centre for Studies in Religion and Society at the University of Victoria and the future of religious studies as a truly interdisciplinary enterprise Coward s retrospective while not a history as such documents information from his varied experience and wide network of colleagues that is essential for a future formal history of the discipline His story is both personally engaging and richly informative about the development of the field **The Status of Religion and the Public Benefit in Charity Law** Barry W.

Bussey,2020-02-29 The Status of Religion and the Public Benefit in Charity Law is an apologetic for maintaining the presumption of public benefit for the charitable category advancement of religion in democratic countries within the English common law tradition In response to growing academic and political pressure to reform charity law including recurring calls to remove tax exemptions granted to religious charities the scholars in this volume analyse the implications of legislative and

legal developments in Canada the UK Australia New Zealand and South Africa In the process they also confront more fundamental sociological or philosophical questions on the very nature and role of religion in a secular society that would deny any space for religious communities outside their houses of worship In other words this book is concerned with the place of religion and religious institutions in contemporary society It represents a series of concerns about the proper role of the state in relation to the differing beliefs of citizens some of which will quite rightly manifest in actions to benefit the wider society This debate then naturally engages with broader issues related to secularism civic engagement and liberal democratic freedoms

Religion and Diversity in Canada Lori Gail Beaman, Peter Beyer, 2008 Canada officially prides itself on being a multicultural nation welcoming people from all around the world and enshrining that status in its Charter of Rights and Freedoms as well as in an array of laws and policies that aim to protect citizens from discrimination on various grounds including race cultural origin sexual orientation and religion This volume explores the intersection of these diversities foregrounding religion as the primary focus of analysis Taking as their point of departure the contested meaning and implications of the term diversity the various contributions address issues such as the power relations that diversity implies the cultural context that limits the understanding and practical acceptance of religious diversity and how Canada compares in these matters to other countries Taken together the essays therefore elucidate the Canadian case while also having relevance for understanding this critical issue globally

New Media and Communication Across Religions and Cultures Nahon-Serfaty, Isaac, Ahmed, Rukhsana, 2014-01-31 This book offers a unique opportunity in both the social sciences humanities and communication fields to provide concrete concepts and notions in the areas of inter religious and inter cultural dialogue

Mapping the Academic Debate Johannes Duschka, Christoph Kleine, Monika Wohlrab-Sahr, Florian Zemmin, 2024-12-16 This volume maps the international academic debate on secularity It places seminal contributions from within Western academia alongside less well known texts from various parts of the world in several cases this is the first time that they have been translated into English The volume demonstrates that the academic debate on secularity was and is a global debate with contributions from many regions The collected texts relate to each other either directly or indirectly by referring to similar arguments whether reinforcing or criticising them and thus create a discourse When speaking of global secularity we therefore do not insinuate a uniform world secularity resulting from the alleged global diffusion of Western norms ideas and concepts It is rather a web of relations that is constituted via various different references These references are not evenly distributed the development in the West is often the point of reference to which positions from other regions relate to which they connect or from which they distance themselves But the references are not completely unidirectional We also present texts from Europe that underline the multidirectionality of the process even early on Thereby the volume offers the reader the material with which to trace these global exchanges and references

Religion in the Ranks Joanne Rennick, 2011-07-23 What role does religion play in the Canadian Forces today

Examining the changing functions of the official religious leaders in the chaplaincy as well as the place and purpose of religion in the lives of regular military personnel Religion in the Ranks explores this question in the context of late modernity and the Canadian secular state In depth interviews with chaplains and with personnel of differing spiritual beliefs offer insight into how religion affects the real life experiences of those who have endured difficult assignments witnessed atrocities and struggled to overcome post traumatic stress disorder While identifying the historic function of religion in the Canadian Forces Joanne Benham Rennick demonstrates that spiritual interests remain important even to those who do not consider themselves to be religious Arguing that the leadership practices and beliefs rooted in religious affiliations create essential support systems for individuals both at home and on assignment Benham Rennick shows that there is still a place for religion in Canada s military

Regional, Critical, and Historical Approaches Peter Antes, Armin W. Geertz, Randi R. Warne, 2008-12-19 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches

Caught in the Current Sam Reimer, 2023-04-15 Evangelical Christianity is known for its defence of traditional Christian teachings and resistance to liberalizing trends Many Western evangelicals themselves do not yet realize how their faith is being reshaped by the modern zeitgeist Caught in the Current explores how and why Western evangelicals are changing Church attendance is declining conservative moral positions are unpopular and young people are drifting away from the faith Evangelism is avoided so few are joining congregations Yet these surface changes are only symptoms of a more profound shift that church leaders have not fully apprehended Drawing upon 125 interviews with British and Canadian clergy and active laity Sam Reimer argues that evangelicals have been deeply influenced by a post Christian culture that has rejected institutional religious authority and embraced self spirituality As individual evangelicals struggle to

navigate these waters and to distance themselves from politicized evangelicalism in the United States they are caught between conformity and resistance between faithfulness to church moral teachings and accommodation of secular values Many are responding by turning inward to define their Christian beliefs for themselves The ironic result is that the decline of institutional religious authority is not happening just in Western culture but within evangelical churches as well Caught in the Current is an insightful and nuanced assessment of how British and Canadian evangelicals are navigating a post Christian culture often in ways that are distinct from how their counterparts in the United States approach it New Directions in American Religious History Harry S. Stout, Darryl G. Hart, 1997 These essays had their origin in a conference of the same title held in October 1993 Scholars reflect on their specialities in American religious history in ways that summarise where the field is and where it ought to move in the decades to come Resisting Orders Christine Gervais, Amanda Watson, Shanisse Kleuskens, 2025-04-29 Catholic religious sisters in Canada occupy a complicated position as they endeavour to live out their vocations while simultaneously representing and confronting a patriarchal and colonial institution that has caused harm For some this navigation has been painful for others it has been impossible Resisting Orders brings to light these women's untold stories of resistance against religious doctrine and societal norms that contradict their feminist and social justice convictions Drawing on in depth interviews with thirty two Catholic sisters and former sisters who entered the church between 1937 and 1985 the authors reveal the ways these women have understood and strategically addressed the contradictions they faced Resisting Orders rejects stereotypes of women religious as compliant subservient and rigid in their thinking recounting instead their outspokenness and action when they challenged the church on issues including the criminalization of women's ordination the clerical abuse of children reproductive injustice and the rejection of 2SLGBTQI people The authors attend to the diversity of women religious as a group making space for their evolving unexpected varied perspectives and lived experiences Resisting Orders untangles the power and resistance of women religious asking what it means to agitate for change from within at a time of reckoning for the Roman Catholic Church **Sacred as Secular** Abdolmohammad Kazempur, 2022-02-28 Debates about Islam and Muslim societies have intensified in the last four decades triggered by the 1979 Islamic Revolution in Iran and later by the events of 9 11 Too often present in these debates are wrongheaded assumptions about the attachment of Muslims to their religion and the impossibility of secularism in the Muslim world At the heart of these assumptions is the notion of Muslim exceptionalism the idea that Muslims think believe and behave in ways that are fundamentally different from other faith communities In Sacred as Secular Abdolmohammad Kazempur attempts to debunk this flawed notion of Muslim exceptionalism by looking at religious trends in Iran since 1979 Drawing on a wide range of data and sources including national social attitudes surveys collected since the 1970s he examines developments in the spheres of politics and governance schools and seminaries contemporary philosophy and the self expressed beliefs and behaviours of Iranian men women and youth He reveals that beneath Iran's religious facade is a

deep secularization that manifests not only in individual beliefs but also in Iranian political philosophy institutional and clerical structures and intellectual life Empirically and theoretically rich Sacred as Secular looks at the place of religion in Iranian society from a sociological perspective expanding the debate on secularism from a predominantly West centric domain to the Muslim world
