planet eons ago Second this volume emphasizes moral concern and the importance of universal values Ideas of human well being have been formulated from ancient times Religious beliefs invariably contain statements of value in the form of commandments and exhortations that express fundamental goals for a quality of life Third the nature of religion and spirituality is discussed Religion today has become controversial socially and marginal sociologically The role of religion in society is sometimes problematic or abused but it is also underestimated and misunderstood The authors suggest that contemporary religion might best be viewed as non ideological spiritual culture This in turn looks to a future in which religion and culture coalesce This volume includes an international cast of scholars from Japan the United States Canada the United Kingdom Germany Greece Italy New Zealand and Belgium All have engaged in research outside their own countries Taken as a whole this volume addresses issues of interest to those in the fields of futures studies religion and philosophy and in particular those concerned with human agency personal responsibility and public choice     *Media, Religion and Culture*
