Being Catholic in the Contemporary Philippines Jayeel Serrano Cornelio, 2016-06-23 This book based on extensive original research examines the nature of Catholicism in the contemporary Philippines It shows how Catholicism is apparently flourishing with good attendance at Sunday Masses impressive religious processions and flourishing charismatic groups and with interventions by the Catholic hierarchy in national and local politics However focusing in particular on the beliefs and practices of young people the book shows that young people are often adopting a different more individualised approach to Catholicism which is frequently out of step with the official position It considers the features of this a more personal and experiential relationship with God a new approach to morality in which right living is seen as more important than right believing and a critical view of what is seen as the Catholic hierarchy's misguidedness The book argues that this reinterpreting of religion by young people has the potential to alter fundamentally the nature of Catholicism in the Philippines but that nevertheless young people's new approach involves a solid enduring commitment and a strong view of their own Catholic religious identity

that music could be used to convert non Christians No mere debate over stylistic preferences many expressed that foundational aspects of evangelical identity were at stake While many books have been written about religious music that utilizes popular music styles a k a contemporary Christian music there has yet to be a scholarly treatment of how and why popular secular music is utilized by churches This book addresses that lacuna by examining this emerging trend in evangelical and emerging churches in America What is the motivation behind using music that seemingly has no connection to Christian theology values or themes such as music by Katy Perry AC DC or Van Halen and what can we learn about post denominational evangelical churches in America by uncovering these motives In this book April Stace uncovers several themes from an ethnographic study of these churches the increasingly porous boundary between the sacred and the secular the importance placed on authenticity in contemporary American culture how evangelicals are responding to what they perceive is an increasingly secular society the turn to the subject of contemporary culture the desire to leave a space for expression of doubt in the worship service without fully authorizing that doubt and the individualization of the construction of religious identity in the modern era
