A contemporary scholar defines religion as "a system of beliefs, rituals, and practices, usually institutionalized in one manner or another, which connects this world with the beyond. It provides the bridge that allows humans to approach the divine, the universal life force that both encompasses and transcends the world". This substantive definition of religion limits religion to the belief in supernatural or divine force. However, for its functional definition, religion is anything that provides an individual

Aldridge, 2007 Religious Fundamentalism in the Contemporary World Santosh C. Saha, 2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten the world Because these new forms of violence are so often linked to religious radicalism modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions **Ethnonationalism in the Contemporary World** Daniele Conversi, 2004 Essential reading for anyone interested in problems associated with ethnicity and nationalism it offers a guide to understanding the ethnonational forces that underpin much of recent terrorist activity **A Need for Religion: Insecurity and Religiosity in the Contemporary World** Francesco Molteni, 2020-12-07 In A Need for Religion Insecurity

and Religiosity in the Contemporary World Francesco Molteni tries to answer one of the broadest questions for scholars of religion why is religiosity declining in developed countries He does so by inspecting all the different nuances of the insecurity theory which links the feeling of security typical of modern societies with the diminished need for religion as source of reassurance support and predictability In this respect he notes that much of the evidence is far less clear than expected and that secularization processes are at an advanced stage only in a rather small group of worldwide countries

Religions in Movement Robert Hefner, John Hutchinson, Sara Mels, Christiane Timmerman, 2013-10-23 There has long been a debate about implications of globalization for the survival of the world of sovereign nation states and the role of nationalism as both an agent of and a response to globalization In contrast until recently there has been much less debate about the fate of religion Globalization has been viewed as part of the rationalization process which has already relegated religion to the dustbin of history just as it threatens the nation as the world moves toward a cosmopolitan ethics and politics The chapters in this book however make the case for the salience and resilience of religion often in conjunction with nationalism in the contemporary world in several ways This book highlights the diverse ways in which religions first and foremost make use of the traditional power and

communication channels available to them like strategies of conversion the preservation of traditional value systems and the intertwining of religious and political power Nevertheless challenged by a more culturally and religiously diversified societies and by the growth of new religious sects contemporary religions are also forced to let go of these well known strategies of preservation and formulate new ways of establishing their position in local contexts This collection of essays by established and emerging scholars brings together theory driven and empirically based research and case studies about the global and bottom up strategies of religions and religious traditions in Europe and beyond to rethink their positions in their local communities and in the world

Global

Lutheranism in the Contemporary World Richard Cimino, 2025-07-18 This book explores Lutheranism and its various expressions throughout the world. This Protestant tradition has spread and developed far from its European and American heartlands to take on increasingly diverse forms. The global dispersion of Lutheranism and how it interacts with different cultures and worldviews has resulted in Lutheran pluralism in theology and church practices. Still, there are distinctive Lutheran teachings that are present in most churches going by that name. However, complex the concept of world Lutheranism may be, this volume demonstrates that a wide-angle view can best be achieved through understanding national Lutheran expressions and the lived religion of these churches and their adherents. The globalization of Christianity has impacted all communions, but at the same time, local and national contexts and institutions remain crucial in mediating global and transnational flows and shaping Christian identity, particularly as globalization has been challenged by nationalism and populism. The contributors employ historical and sociological research methods along with theological analysis to understand Lutheranism. The chapters consider prospects for Lutheranism and Lutheran identity in vastly different societies, reflecting the continuing growth of Lutheran churches in the global South and East. The countries and regions examined may not comprise all of the world's Lutherans, but they are in most cases the societies with the strongest Lutheran presence that will decide the future of Lutheranism. The book will be of particular interest to scholars of global Christianity and the history of Christianity.

SCM Studyguide: Theology in the Contemporary World Ben Pugh, 2017-11-30 No sooner have they mastered the basics than students of theology can quickly find themselves in over their heads. They are bombarded with claim and counter-claim as soon as they want to tackle anything topical. The contentious subjects tend to be the historical Jesus, gender and sexuality, or the atonement. Other subjects might be less contentious but attract an astonishing excess of literature. Take the vast literature tackling the subject of the Church, for instance, or the bloated body of tomes on various aspects of Pneumatology. This book tries to provide the bewildered and intimidated student with a primer that is at once introductory and incisive, approachable and informative. It will help those training for ministry to recover their fascination for the subject of theology and how it could apply to their future ministry. Subjects covered include The Quests for the Historical Jesus, Third Article Theology, The Missional Church, Liberation Theology, Feminist, LGBT, and Queer Approaches, Postmodern Faith, and the Emerging Church. Nonviolent Atonement.
