Hermeneutics and Social Transformation Bernard Latagan, 2016-01-15 In a South African context condemning apartheid is not enough. To make a non racial democratic inclusive society viable and enduring much more is required of which creative and imaginative theological thinking is not the least. Fundamental theological values and their implications for all the facets of society must be thought through not as an academic exercise but as a grass roots undertaking and the greatest challenge is to act in terms of this new understanding of society. Bernard Latagan. Some implications of the family concept in New Testament texts.

This study explores how conversion has been understood by different religions during different eras and includes a survey of the textual legal ritual historic and experiential dimensions of the phenomenon of conversion.

Explorations in the Sociology of Language and Religion Tope Omoniyi, Joshua A. Fishman, 2006-08-17 The Sociology of Language and Religion SLR is still in its infancy as a sub discipline in the macrosociolinguistic tradition It is therefore no coincidence that the editorial collaboration to produce its first definitive text *Explorations in the Sociology of Language and Religion* has involved Joshua A Fishman often cited in the literature as one of the founders of the Sociology of Language Tope Omoniyi brings to the collaboration an insightful and incisive critical eye for engaging with diversity in the treatment of language and religion Together as editors they have successfully midwived the birth of SLR The studies and debates contained in this volume revisit those themes that both of the contributory disciplines of Sociology of Language and Religion have common interest in The contributing authors explore new methodologies and paradigms of analysis that they deem appropriate for this interesting and complex interface in an attempt to demonstrate how the shared interests of these disciplines impact social practices in various communities around the world The ultimate objective of the discussions is to fashion tools for creating a body of new knowledge that supports the emergence of a better society Towards this end the authors have harnessed resources from varied geographical cultural linguistic and religious constituencies without compromising analytical depth In the process they have opened up new areas of sociolinguistic inquiry The volume is thus presented as a highly useful reference resource both for undergraduate and postgraduate scholarship *Religious Human Rights in Global Perspective* John Witte, Johan D. van der Vyver, 2023-07-24 In this Dickensian century of human rights the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents This volume and its companion *Religious Human Rights in Global Perspective Religious Perspectives* are products of an ongoing project on religion human rights and democracy undertaken by the Law and Religion Program at Emory University *Christians in the City of Lagos* Caleb O. for society at large Lying at the intersection of a variety of other disciplines law theology religious studies political science sociology and anthropology to name only the most obvious the field of law and religion is generating a burgeoning volume of interdisciplinary and trans disciplinary research and study The current volume is proof of this The discussion of the relationship between law and religion as seen from a variety of perspectives in Africa underscores the critical importance of the issues involved in the everyday life of all citizens It is accordingly vital for governments to take note of the scholarly results that are produced We hope that this volume will contribute to this aim The World of South African Music Christine Lucia,2009-03-26 The present Reader is a selection of texts on South African music which are chosen not only for their importance or the frequency of citations but with the express purpose of providing the reader with a deep understanding of the music itself Consequently there are readings that are chosen because they have been influential but there are also many which though published have not enjoyed very wide circulation There are those which are of obvious historic interest and others which speak to contemporary issues Among other things the volume provides an excellent sense of the varying ideologies and approaches that determine the relationship between author and subject The reader is indispensable to scholars and enthusiasts of South African music and it is of great interest to ethnomusicologists more generally It is also an excellent resource for those who do not have immediate access to harder to find articles and is perhaps most vital to those who are looking to find a way into the world of South African music **Foreign Correspondents Report From Africa** Heinz-Dietrich Fischer,2014 Pulitzer Prize winning reporting in African countries by American journalists has been a latecomer within the award category for international coverage It took close to two decades after the establishment of the awards that reporting about the Italian Ethiopian crisis was declared prize worthy by the Pulitzer Prize jurors During World War II prizes were given for the coverage of the North African battlefields Since the 1960s inner African conflicts like unrest in the Congo impressed the jurors as well as writings on the Apartheid system in South Africa This book contains a selection of the Pulitzer Prize winning articles and photographs by news journalists in Africa Series Pulitzer Prize Panorama Vol 8
