Religion Romaine Iconography Of Religions:

Iconography of religions Theodorus Petrus van Baaren, 1988 *The Religion of the Romans* Jörg Rüpke, 2007-12-03

Contributing to our understanding of ancient history the author guides the reader through the fascinating world of Roman religion describing its unique characteristics and bringing its peculiarities into stark relief **Religions of Rome: Volume 2, A Sourcebook** Mary Beard, John North, Simon Price, 1998-06-28 Volume two reveals the extraordinary diversity of ancient Roman religion A comprehensive sourcebook it presents a wide range of documents illustrating religious life in the Roman world from the foundations of the city in the eighth century BC to the Christian capital more than a thousand years later Each document is given a full introduction explanatory notes and bibliography and acts as a starting point for further discussion Through paintings sculptures coins and inscriptions as well as literary texts in translation the book explores the major themes and problems of Roman religion such as sacrifice the religious calendar divination ritual and priesthood Starting from the archaeological traces of the earliest cults of the city it finishes with a series of texts in which Roman authors themselves reflect on the nature of their own religion its history even its funny side Judaism and Christianity are given full coverage as important elements in the religious world of the Roman empire **The Religion of Senators in the Roman Empire** Zsuzsanna Várhelyi, 2010-04-22 This book examines the connection between political and religious power in the pagan Roman Empire through a study of senatorial religion Presenting a new collection of historical epigraphic prosopographic and material evidence it argues that as Augustus turned to religion to legitimize his powers senators in turn also came to negotiate their own power as well as that of the emperor partly in religious terms In Rome the body of the senate and priesthoods helped to maintain the religious power of the senate across the Empire senators defined their magisterial powers by following the model of emperors and by relying on the piety of sacrifice and benefactions The ongoing participation and innovations of senators confirm the deep ability of imperial religion to engage the normative symbolic and imaginative aspects of religious life among senators **Individuals and Materials in the Greco-Roman Cults of Isis (SET)** Valentino Gasparini, Richard Veymiers, 2018-10-16 In *Individuals and Materials in the Greco Roman Cults of Isis* Valentino Gasparini and Richard Veymiers present a collection of reflections on the individuals and groups which animated one of Antiquity's most dynamic significant and popular religious phenomena the reception of the cults of Isis and other Egyptian gods throughout the Hellenistic and Roman worlds These communities whose members seem to share the same religious identity for a long time have been studied in a monolithic way through the prism of the Cumontian category of the Oriental religions The 26 contributions of this book divided into three sections devoted to the agents their images and their practices shed new light on this religious movement that appears much more heterogeneous and colorful than previously recognized *A Companion to Roman Religion* Jörg Rüpke, 2011-03-25 A comprehensive treatment of the significant symbols and institutions of Roman religion this companion places the various religious symbols discourses and practices

including Judaism and Christianity into a larger framework to reveal the sprawling landscape of the Roman religion An innovative introduction to Roman religion Approaches the field with a focus on the human figures instead of the gods Analyzes religious changes from the eighth century BC to the fourth century AD Offers the first history of religious motifs on coins and household everyday utensils Presents Roman religion within its cultural social and historical contexts *The Gods of Ancient Rome* Robert Turcan, 2013-10-28 First published in 2001 This is a vivid account of what their gods meant to the Romans from archaic times to late antiquity and an exploration of the rites and rituals connected to them After an extensive introduction into the nature of classical religion the book is divided into three main parts religions of the family and land religions of the city and religions of the empire The book ends with the rise and impact Christianity Using archaeological and epigraphic evidence and drawing extensively on a wide range of relevant literary material this book is ideally suited for undergraduate courses in the history of Rome and its religions Its urbane style and lightly worn scholarship will broaden its appeal to the large number of non academic readers with a serious interest in the classical world Rabbinisme et Paganisme en Palestine romaine E. Friedheim, 2006-07-01 This study deals essentially with the knowledge of the Palestinian Rabbis concerning paganism in the days of Mishna and Talmud The Late Professor Saul Lieberman wrote that Many isolated items on idolatry and idol worshippers are scattered all over rabbinic literature It would require a large volume to treat this topic This valuable and exhaustive study proves methodically that the Rabbis had deeper knowledge about Syrian Arabian Anatolian and Graeco Roman Pagan cults than is commonly believed Clear accessible and displaying considerable scholarship this work will undoubtedly provide an important challenge to both historians archaeologists and scholars of Rabbinic texts Cette tude traite essentiellement du niveau de connaissances des Rabbins de Jud e et de Galil e concernant les cultes pa ens dans le sens le plus large du terme Le Professeur Saul Lieberman affirmait Many isolated items on idolatry and idol worshippers are scattered all over rabbinic literature It would require a large volume to treat this topic Ce travail exhaustif travers l ensemble du corpus talmudique et au regard de la r alit historique propre la Palestine romaine montre m thodiquement que les connaissances des Sages tant sur les divinit s du paganisme que sur des rites syriens arabes anatoliens voire gr co romains taient bien plus vastes et approfondies que ce qu il est commun ment admis aujourd hui par la recherche historique De part sa claret et son accessibilit ce livre int ressera aussi bien les historiens du peuple juif que ceux des religions antiques Les arch ologues les historiens du Levant l poque romaine ainsi que les sp cialistes de la litt rature talmudique y trouveront galement un vif int r t en vertu de son aspect extr mement novateur *Ancient Marbles in Naples in the Eighteenth Century* Eloisa Dodero, 2019-09-16 In *Ancient Marbles in Naples in the Eighteenth Century* Eloisa Dodero aims at documenting the history of numerous private collections formed in Naples during the 18th century with particular concern for the Neapolitan marbles and the circumstances of their dispersal Research has thus made it possible to formulate a synthesis of the collecting dynamics of Naples in the 18th century to define the interest of the great European collectors

especially British in the antiquities of the city and its territory and to draw up a catalogue which for the first time brings together the nucleus of sculptures reported in the Neapolitan collections or coming from irregular excavations most of which shared the destiny of dispersal in some cases here traced in definitive fashion Divine Images and Human Imaginations in Ancient Greece and Rome, 2015-08-27 The polytheistic religious systems of ancient Greece and Rome reveal an imaginative attitude towards the construction of the divine One of the most important instruments in this process was certainly the visualisation Images of the gods transformed the divine world into a visually experienceable entity comprehensible even without a theoretical or theological superstructure For the illiterates images were together with oral traditions and rituals the only possibility to approach the idea of the divine for the intellectuals images of the gods could be allegorically transcended symbols to reflect upon Based on the art historical and textual evidence this volume offers a fresh view on the historical literary and artistic significance of divine images as powerful visual media of religious and intellectual communication Sacrifice in Religious Experience Albert I. Baumgartner, 2018-09-24 This book presents revised papers delivered at the 1998 and 1999 Taubes Minerva Center for Religious Anthropology conferences The papers from the 1998 conference discuss the role of sacrifice in religious experience from a comparative perspective Those from the second conference examine alternatives to sacrifice The first theme has been much elaborated in recent scholarship and the essays here participate in that on going inquiry The second theme has been less explored and the goal of this volume is to stimulate examination of the topic by offering a set of test cases In both sections of the volume a wide variety of religious traditions are considered The essays show that in spite of the inclination we may sometimes have to consider sacrifice part of the idolatrous past long overcome it remains a persistent and meaningful part of religious experience **Lived Religion in the Ancient Mediterranean World** Valentino Gasparini, Maik Patzelt, Rubina Raja, Anna-Katharina Rieger, Jörg Rüpke, Emiliano Urciuoli, 2020-04-06 The Lived Ancient Religion project has radically changed perspectives on ancient religions and their supposedly personal or public character This volume applies and further develops these methodological tools new perspectives and new questions The religious transformations of the Roman Imperial period appear in new light and more nuances by comparative confrontation and the integration of many disciplines The contributions are written by specialists from a variety of disciplinary contexts Jewish Studies Theology Classics Early Christian Studies dealing with the history of religion of the Mediterranean West Asian and European area from the late Hellenistic period to the early Middle Ages and shaped by their intensive exchange From the point of view of their respective fields of research the contributors engage with discourses on agency embodiment appropriation and experience They present innovative research in four fields also of theoretical debate which are Experiencing the Religious Switching the Code A Thing Called Body and Commemorating the Moment **Die orientalischen Religionen im Römerreich** Maarten J.
