**Questioning the Human** Lieven Boeve, Yves De Maeseneer, Ellen Van Stichel, 2014-08-15 Theological anthropology is being put to the test in the face of contemporary developments in the spheres of culture politics and science traditional perspectives on the human person are no longer adequate Yet can theological anthropology move beyond its previously established categories and renew itself in relation to contemporary insights The present collection of essays sets out to answer this question Uniting Roman Catholic theologians from across the globe it tackles from a theological perspective challenges related to the classical natural law tradition part 1 to the modern conception of the subject part 2 and to the postmodern awareness of diversity in a globalizing context part 3 Its contributors share a fundamental methodological choice of a critical constructive dialogue with contemporary culture science and philosophy This collection integrates a wider range of approaches than one usually finds in theological volumes bringing together experts in systematic theology and in theological ethics Authors come from different American contexts including Black and Latino and from a European context that include both French and German Moreover the interdisciplinary insights upon which the different contributions draw stem from both the natural sciences such as neuroscience evolutionary biology and ethology and the humanities such as cultural studies philosophy and hermeneutics This volume will be essential reading for anyone seeking a state of the art account of theological anthropology of the uncertainties it is facing and of the responses it is in the process of formulating The shared Roman Catholic background of the authors of this collection makes this volume a helpful complement to recent publications that predominantly represent views from other theological traditions      **Reclaiming Narrative for Public Theology** Mary Doak, 2004-10-14 Argues for American national narratives in Christian theology that respect the separation of church and state and a diverse multifaith society      **Religion and American Public Life** Robin W. *Prophetic and Public* Kristin E. Heyer, 2006-06-02 The United States was founded on a commitment to religious tolerance Based on this commitment it has become one of the most religiously diverse and religiously observant liberal democracies in the world Inherent in this political reality is the question What is the appropriate relationship between religious beliefs and public life This is not a new question but in contemporary US politics it has become a particularly insistent one In this intelligent wide ranging book Kristin Heyer provides new and nuanced answers Prophetic and Public employs the discourse of public theology to consider what constitutes appropriate religio political engagement According to Heyer public theology

connects religious faith concepts and practices to their public relevance for the wider society Her use of public theology concepts to address the appropriate possibilities and limits for religious political engagement in the United States is both useful and enlightening Heyer approaches the relationship between public morality and religious commitment through the example of the Catholic Church She looks at two prominent Catholics Michael Baxter and Bryan Hehir as a way of discussing norms for practice of public theology Heyer also analyzes case studies of three US Catholic advocacy groups The US Conference of Catholic Bishops NETWORK and Pax Christi USA Through her analysis she shows the various ways that the organizations Catholic identity impacts their social and political efforts From her investigations come norms that define possibilities and limits for political actions based on religious conviction This deeply thoughtful book examines what is truly fundamental and inescapable about public life and private religious belief in the United States In doing so it makes skillful use of the tools of theology philosophy law and advocacy to demonstrate that the Catholic Church reveals great diversity in its public theology providing legitimate options for a faithful response to urgent political issues

**Women and Peace in the Islamic World** Yasmin Saikia, Chad Haines, 2015-01-20

How realistic is the prospect of peace in the Muslim world This question is the predominant focus for global analysis today but its debate frequently ignores the cultural and social complexity of the Muslim world reducing it into a system of states and select actors This book addresses such a failing by exploring how the everyday interactions of women in accordance with Islamic personal ethics can offer the world a new interpretation of peace In particular it focuses on the women in Islamic societies from Aceh to Bosnia Morocco to Bangladesh initiating a dialogue on the role of these women in peacemaking This concentration upon the complex issues of the everyday both enables a detailed exploration of how people conceptualise peace and opens up new frameworks for conflict resolution The discussions that emerge lead to a critical questioning of assumptions about peace as a state policy and cessation of violence Drawing upon original research from different parts of the Middle East North Africa and Asia including Iran India Afghanistan Bangladesh Bosnia Egypt and Sudan the contributors offer a refreshing new look at Muslim women as peacemakers challenging any assumptions of Islam as an inherently violent religion Such a timely work provides new and important analyses on the role of Muslim women in forging new pathways of peace in the contemporary world

**Literature and the Renewal of the Public Sphere** M. Walhout, Susan Van Zanten

Gallagher,2000-08-08 This collection examines the ways in which religion and literature are capable of renewing what the eminent German philosopher Jürgen Habermas refers to as the public sphere The essays range from close commentaries on particular texts King Lear The Brothers Karamazov Bartleby the Scrivener to surveys of the careers of selected writers who have entered the public sphere Elizabeth Gaskell W H Auden Raymond Carver Sherman Alexie to historical and theoretical examinations of various national and international public spheres Faith, Morality, and Civil Society Dale McConkey, Peter Augustine Lawler,2003-01-01 In this rich collection of essays editors Dale McConkey and Peter Augustine Lawler explore the contributions that religious faith and morality can make to a civil society Though the level of religious expression has remained high in the United States the shift from traditional religious beliefs to a far more individualized style of faith has led many to contend that no faith commitment collective or personal should contribute to the vibrancy of a civil democratic society Challenging those who believe that the private realm is the only appropriate locus of religious belief the contributors to this volume believe that religion can inform and invigorate the secular institutions of society such as education economics and politics Drawn from a wide variety of religious and moral traditions these diverse essays show from many perspectives the important contribution religion has to make in the public square that is civil society *Battleground: Religion* Daniel L. Smith-Christopher,2008-12-30 Is there a controversial issue in the contemporary world that does not involve religion Whether it s a debate over the beginning of life or on sexuality and family life or on the stewardship of humans over the environment almost all of the most contentious matters that impact today s society involve people s deeply held religious beliefs Battleground Religion helps clarify these complex topics by examining how various religious beliefs and practices impact current political social and cultural debates Each of the approximately 100 entries examines a hot button issue from war and peace to the culture wars and discusses in a balanced and objective way the points of view on these topics from all parts of the religious spectrum Students will come away from Battleground Religion with a better understanding of the issues that they will be encountering for years to come Each entry includes a bibliography or resources for further information

Rozell, Gleaves Whitney, 2017-09-21 This book chronologically analyzes thirteen key US Presidents from Washington to Trump to highlight how religion has informed or influence their politics and policies For years leading scholars have largely neglected religion in presidential studies Yet religion has played a significant role in a number of critical presidencies in US history This volume reveals the deep religious side to such presidents as Truman Eisenhower and Reagan among others and the impact that faith had on their administrations Now in its third edition this work also provides a fresh look at the legacy of Obama s faith based administration as well as a new chapter on the 2016 Trump campaign s dependence on religious voters to provide a timely update to a key text in the study of religion and the presidency      A Private Woman in Public Spaces Barbara A. Frisina, 2012-02-01 The Pragmatic Century critically assesses the significance of American philosopher Richard J Bernstein s intellectual contributions Written by scholars who share with Bernstein a combined interest in the American pragmatic tradition and contemporary religious thought the essays explore such diverse topics as Bernstein s place as an interpreter of both American and continental thought the possibility of system building and analysis in an antimetaphysical age the potential for theological and ethical reinterpretation in contemporary society and much more Included are not only responses by Bernstein to each essay but also two new essays by Bernstein himself that orient readers to the central role pragmatism has played throughout the last

century and also provide an encomium to the continuing value of democratic ideals at a time when those ideals are threatened on many different fronts
