

WAR AND RELIGION

AN ENCYCLOPEDIA OF FAITH AND CONFLICT

VOLUME 1 | A-G

JEFFREY M. SHAW AND TIMOTHY J. DEMY, EDITORS

Religion War

Jeffrey M. Shaw Ph.D., Timothy J. Demy

Religion War:

War and Religion Jeffrey M. Shaw Ph.D., Timothy J. Demy, 2017-03-27 This three volume reference provides a complete guide for readers investigating the crucial interplay between war and religion from ancient times until today enabling a deeper understanding of the role of religious wars across cultures Containing some 500 entries covering the interaction between war and religion from ancient times the three volume War and Religion An Encyclopedia of Faith and Conflict provides students with an invaluable reference source for examining two of the most important phenomena impacting society today This all inclusive reference work will serve readers researching specific religious traditions historical eras wars battles or influential individuals across all time periods The A Z entries document ancient events and movements such as the First Crusade that began at the end of the 10th century as well as modern day developments like ISIS and Al Qaeda Subtopics throughout the encyclopedia include religious and military leaders or other key people ideas and weapons and comprehensive examinations of each of the major religious traditions views on war and violence are presented The work also includes dozens of primary source documents each introduced by a headnote that enable readers to go directly to the source of information and better grasp its historical significance The in depth content of this set benefits high school and college students as well as scholars and general readers Holy War Idea in Western and Islamic Traditions James Turner

Johnson, 2010-11-01 Explores the attitudes of Western Christianity and Islam toward war for religion explaining the differences in the two cultural traditions that result in fundamentally different perceptions of the nature of religious wars

Religion and War Timothy J. Demy, Gina Granados Palmer Ph.D., 2022-10-18 Looking at topics across the spectrum of America s wars religious groups personalities and ideas this volume shows that even in an increasingly secular society religious roots and values run deep throughout American society and are elevated in times of war There is a long and deep relationship between religion politics and war in U S history While there is a constitutional and legal separation of religion and the state in American society religion has been and remains a potent force in American culture and politics affecting many aspects of life including perspectives on war and peace and the experience of war in U S history From the American Revolution to the wars of the 21st century religious values have informed and influenced American attitudes toward war and peace and have provided rationale for support and non support of American participation in conflicts An overview essay surveys the background and significance of religion in American culture and provides historical context for discussions of contemporary topics A timeline highlights key events related to wars and conflicts The volume then includes more than 50 topical essays that discuss specific wars as well as religious themes within culture and politics ultimately providing a detailed overview of the intersection of religion war and politics in contemporary America **The War and Religion** Marion John Bradshaw, 1919 **The Gods of War** Meic Pearse, 2007-01-01 In this provocative book historian Meic Pearse debunks the common misconception that religion causes war He argues that while religion is often a significant generator of armed

conflict both in the past and in the present the two principal causes of human warfare are in fact culture and greed for territory resources or power Since culture and greed often clothe themselves in religion wars fought for culture often appear to be fought for religion With keen analysis of global history and current events Pearse shows how irreligion has produced far bloodier wars than religion and how global secularism itself does violence to religion and traditional cultures Ultimately throughout history warfare has been waged over the shape of society itself A crisis in meaning leads people to fight for what they fear may be lost For a world weary of war Pearse points beyond both cultural and secular metanarratives to an alternative hope Market Audience Church leaders Laypeople Evangelists and missionaries Seminary students and professors Features and Benefits Provides a global historical perspective on war religion and culture Evenhanded and broad in scope Examines both historical and contemporary examples *Holy War, Just War* Lloyd H. Steffen, 2007 *Holy War Just War* explores the dark side in Christianity Islam and Judaism by examining how the concept of ultimate value contributes to religious violence The book states that religion has within its own conceptual tools the resources to understand its own dark side and that religious people must subject their religion to a moral vision of goodness and constrain those parts that make for violence and hatred **Faith, War, and Violence** Gabriel R. Ricci, 2017-09-08 *Faith War and Violence* analyzes the age old links between religion and violence perpetrated in the name of God and the role religion performs in politically infusing the state with romantic spiritualism The volume examines instances of this phenomenon from ancient Rome to the modern day it finds that religion inspired violence is not restricted to Abrahamic faiths or to one geographic region The fact that symbolically charged religious violence has destructive consequences is not lost on contributors to *Faith War and Violence* Among the subjects tackled are the ideological and religious foundations that inspired the founders of Al Qaeda and its role in the Arab Spring the long history of religious conflict in Ireland known as the Troubles Sikh extremism and the evolution of the Christian approach to war As the contributors demonstrate in Western societies the unity of religious fervor and warmongering stretches from Constantine's incorporation of Christian symbols into Roman army flags to slogans like Gott mit uns God is with us which appeared on the belt buckles of German soldiers in World War I In recent years George W Bush declared the war on terror a crusade and his speechwriter David Frum coined the religiously inspired term Axis of Evil to describe Iraq and other countries opposing the United States **The Warfare between Science and Religion** Jeff Hardin, Ronald L. Numbers, Ronald A. Binzley, 2018-10-15 Why is the idea of conflict between science and religion so popular in the public imagination The conflict thesis the idea that an inevitable and irreconcilable conflict exists between science and religion has long been part of the popular imagination In *The Warfare between Science and Religion* Jeff Hardin Ronald L Numbers and Ronald A Binzley have assembled a group of distinguished historians who explore the origin of the thesis its reception the responses it drew from various faith traditions and its continued prominence in public discourse Several essays in the book examine the personal circumstances and theological idiosyncrasies of important intellectuals including John

William Draper and Andrew Dickson White who through their polemical writings championed the conflict thesis relentlessly. Other essays consider what the thesis meant to different religious communities including evangelicals, liberal Protestants, Roman Catholics, Eastern Orthodox Christians, Jews, and Muslims. Finally, essays both historical and sociological explore the place of the conflict thesis in popular culture and intellectual discourse today. Based on original research and written in an accessible style, the essays in *The Warfare between Science and Religion* take an interdisciplinary approach to question the historical relationship between science and religion. This volume, which brings much needed perspective to an often bitter controversy, will appeal to scholars and students of the histories of science and religion, sociology, and philosophy.

Roberts, Christopher P. Scheitle, M. Alper Yalçınkaya. *War and Religion [3 Volumes]* Jeffrey M. Shaw, Timothy J.

Demy, 2017-03-27. This three-volume reference provides a complete guide for readers investigating the crucial interplay between war and religion from ancient times until today, enabling a deeper understanding of the role of religious wars across cultures. Containing some 500 entries covering the interaction between war and religion from ancient times, the three-volume *War and Religion: An Encyclopedia of Faith and Conflict* provides students with an invaluable reference source for examining two of the most important phenomena impacting society today. This all-inclusive reference work will serve readers researching specific religious traditions, historical eras, wars, battles, or influential individuals across all time periods. The A-Z entries document ancient events and movements such as the First Crusade that began at the end of the 10th century, as well as modern-day developments like ISIS and Al Qaeda. Subtopics throughout the encyclopedia include religious and military leaders or other key people, ideas, and weapons, and comprehensive examinations of each of the major religious traditions. Views on war and violence are presented. The work also includes dozens of primary source documents, each introduced by a headnote that enables readers to go directly to the source of information and better grasp its historical significance. The in-depth content of this set benefits high school and college students as well as scholars and general readers. Enables readers to explore the ongoing and important relationship between war and religion across history through coverage of the wars themselves, the important leaders, battles, and campaigns, and the treaties that resulted from these wars. Directs readers to further reading material and supplies a comprehensive bibliography that guides further inquiry into the topic of war and religion. Supplies primary source documents that include letters written by participants of the Crusades, proclamations, and declarations from the Protestant Reformation, and UN documents related to war and religion. **God at War** Mark

Juergensmeyer, 2020-05-05. For decades Mark Juergensmeyer has been studying the rise of religious violence around the world, including groups like ISIS and Christian militias that have been involved in acts of terrorism. Over the years he came to

realize that war is the central image in the worldview of virtually every religious movement engaged in violent acts Behind the moral justification of using violence are images of great confrontations of war on a transcendent scale *God at War* explores the dark attraction between religion and warfare Virtually every religious tradition leaves behind it a bloody trail of stories legends and images of war and most wars call upon the divine for blessings in battle This book finds the connection between religion and warfare in the alternative realities created in the human imagination in response to crises both personal and social Based on the author's thirty years of field work interviewing activists involved in religious related terrorist movements around the world this book explains why desperate social conflict leads to images of war and why invariably God is thought to be engaged in battle *Religion and War* Timothy J. Demy, Gina Granados Palmer

Ph.D., 2022-10-18 Looking at topics across the spectrum of America's wars religious groups personalities and ideas this volume shows that even in an increasingly secular society religious roots and values run deep throughout American society and are elevated in times of war There is a long and deep relationship between religion politics and war in U.S. history While there is a constitutional and legal separation of religion and the state in American society religion has been and remains a potent force in American culture and politics affecting many aspects of life including perspectives on war and peace and the experience of war in U.S. history From the American Revolution to the wars of the 21st century religious values have informed and influenced American attitudes toward war and peace and have provided rationale for support and non support of American participation in conflicts An overview essay surveys the background and significance of religion in American culture and provides historical context for discussions of contemporary topics A timeline highlights key events related to wars and conflicts The volume then includes more than 50 topical essays that discuss specific wars as well as religious themes within culture and politics ultimately providing a detailed overview of the intersection of religion war and politics in contemporary America **Religion and Politics in America** Frank J. Smith, 2016-07-11

There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U.S. currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in

many ways that will likely surprise modern students

Faith in the Fight Jonathan H. Ebel, 2010-03-22 *Faith in the Fight* tells a story of religion soldiering suffering and death in the Great War Recovering the thoughts and experiences of American troops nurses and aid workers through their letters diaries and memoirs Jonathan Ebel describes how religion primarily Christianity encouraged these young men and women to fight and die sustained them through war's chaos and shaped their responses to the war's aftermath The book reveals the surprising frequency with which Americans who fought viewed the war as a religious challenge that could lead to individual and national redemption Believing in a Christianity of the sword these Americans responded to the war by reasserting their religious faith and proclaiming America God chosen and righteous in its mission And while the war sometimes challenged these beliefs it did not fundamentally alter them Revising the conventional view that the war was universally disillusioning *Faith in the Fight* argues that the war in fact strengthened the religious beliefs of the Americans who fought and that it helped spark a religiously charged revival of many prewar orthodoxies during a postwar period marked by race riots labor wars communist witch hunts and gender struggles For many Americans Ebel argues the postwar period was actually one of reillusionment Demonstrating the deep connections between Christianity and Americans experience of the First World War *Faith in the Fight* encourages us to examine the religious dimensions of America's wars past and present and to work toward a deeper understanding of religion and violence in American history

The Routledge Handbook of Religion and Security Chris Seiple, Dennis Hoover, Pauletta Otis, 2013 This Handbook offers analyses of how nine different world religions have related to issues of war and peace theologically and practically overviews of how scholars and practitioners in nine different topical areas of security studies have or have not dealt with the relationship between religion and security and five case studies of particular countries in which the religion security nexus is vividly illustrated Nigeria India Israel the former Yugoslavia and Iraq

Why God Needs War and War Needs God Mark Juergensmeyer, 2020-05-05 For decades Mark Juergensmeyer has been studying the rise of religious violence around the world including groups like ISIS and Christian militias that have been involved in acts of terrorism Over the years he came to realize that war is the central image in the worldview of virtually every religious movement engaged in violent acts Behind the moral justification of using violence are images of great confrontations of war on a transcendent scale *Why God Needs War and War Needs God* explores the dark attraction between religion and warfare Virtually every religious tradition leaves behind it a bloody trail of stories legends and images of war and most wars call upon the divine for blessings in battle This book finds the connection between religion and warfare in the alternative realities created in the human imagination in response to crises both personal and social Based on the author's thirty years of field work interviewing activists involved in religious related terrorist movements around the world this book explains why desperate social conflict leads to images of war and why invariably God is thought to be engaged in battle

Religion, War, and Ethics Gregory M. Reichberg, Henrik Syse, 2014-05-26 *Religion War and Ethics* is a collection of primary sources from the world's major

religions on the ethics of war Each chapter brings together annotated texts scriptural theological ethical and legal from a variety of historical periods that reflect each tradition s response to perennial questions about the nature of war when if ever is recourse to arms morally justifiable What moral constraints should apply to military conduct Can a lasting earthly peace be achieved Are there sacred reasons for waging war and special rewards for those who do the fighting The religions covered include Sunni and Shiite Islam Judaism Roman Catholic Eastern Orthodox and Protestant Christianity Theravada Buddhism East Asian religious traditions Confucianism Shinto Japanese and Korean Buddhism Hinduism and Sikhism Each section is compiled by a specialist recognized within his or her respective religious tradition who has also written a commentary on the historical and textual context of the passages selected War and Religion: A-G (Alphabetical List of Entries; List of Primary Documents; Chronology; Guide to Related Topics) Jeffrey M. Shaw, Timothy J. Demy, 2017 Containing some 500 entries covering the interaction between war and religion from ancient times the three volume War and Religion An Encyclopedia of Faith and Conflict provides students with an invaluable reference source for examining two of the most important phenomena impacting society today This all inclusive reference work will serve readers researching specific religious traditions historical eras wars battles or influential individuals across all time periods The A Z entries document ancient events and movements such as the First Crusade that began at the end of the 10th century as well as modern day developments like ISIS and Al Qaeda Subtopics throughout the encyclopedia include religious and military leaders or other key people ideas and weapons and comprehensive examinations of each of the major religious traditions views on war and violence are presented The work also includes dozens of primary source documents each introduced by a headnote that enable readers to go directly to the source of information and better grasp its historical significance The in depth content of this set benefits high school and college students as well as scholars and general readers Features Enables readers to explore the ongoing and important relationship between war and religion across history through coverage of the wars themselves the important leaders battles and campaigns and the treaties that resulted from these wars directs readers to further reading material and supplies a comprehensive bibliography that guides further inquiry into the topic of war and religion supplies primary source documents that include letters written by participants of the Crusades proclamations and declarations from the Protestant Reformation and UN documents related to war and religion Publisher description *God of Battles* Peter Partner, 1998 Peter Partner shows how the ideal of the crusade God s War came to permeate medieval Christendom and how it influenced later Western societies Above all this book examines the fear that Islamic fundamentalism excites in the west and warns against allowing crusading war propaganda to affect our judgment today 24 illustrations Maps War of the Worldviews Deepak Chopra, M.D., Leonard Mlodinow, 2012-10-02 Two bestselling authors first met in a televised Caltech debate on the future of God one an articulate advocate for spirituality the other a prominent physicist This remarkable book is the product of that serendipitous encounter and the contentious but respectful clash of worldviews that

grew along with their friendship In War of the Worldviews these two great thinkers battle over the cosmos evolution and life the human brain and God probing the fundamental questions that define the human experience How did the universe emerge What is the nature of time What is life Did Darwin go wrong What makes us human What is the connection between mind and brain Is God an illusion This extraordinary book will fascinate millions of readers of science and spirituality alike as well as anyone who has ever asked themselves What does it mean that I am alive Religion and Contemporary Politics Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography

The Enigmatic Realm of **Religion War**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary.
