Hittite Texts and Greek Religion Ian Rutherford,2020-09-23 Our knowledge of ancient Greece has been transformed in the last century by an increased understanding of the cultures of the Ancient Near East This is particularly true of ancient religion This book looks at the relationship between the religious systems of Ancient Greece and the Hittites who controlled Turkey in the Late Bronze Age 1400-1200 BC The cuneiform texts preserved in the Hittite archives provide a particularly rich source for religious practice detailing festivals purification rituals oracle consultations prayers and myths of the Hittite state as well as documenting the religious practice of neighbouring Anatolian states in which the Hittites took an interest Hittite religion is thus more comprehensively documented than any other ancient religious tradition in the Near East even Egypt The Hittites are also known to have been in contact with Mycenaean Greece known to them as Ahhiyawa The book first sets out the evidence and provides a methodological paradigm for using comparative data It then explores cases where there may have been contact or influence such as in the case of scapegoat rituals or the Kumarbi Cycle Finally it considers key aspects of religious practices shared by both systems such as the pantheon rituals of war

festivals and animal sacrifice The aim of such a comparison is to discover clues that may further our understanding of the deep history of religious practices and when used in conjunction with historical data illuminate the differences between cultures and reveal what is distinctive about each of them

Ricoeur's Hermeneutics of Religion Brian

Gregor,2018-11-29 Religion was a constant theme throughout Paul Ricoeur's long career and yet he never wrote a full length treatment of the topic In this important new book Brian Gregor draws on the full scope of Ricoeur's writings to lay out the essential features of his philosophical interpretation of religion from his earliest to his last work Ricoeur's central claim is that religion aims at the regeneration of human capability in his words the rebirth of the capable self This book provides a rich thematic account of Ricoeur's hermeneutics of religion showing how the theme of capability informs his changing interpretations of religion from his early work on French reflexive philosophy and the philosophy of the will to his late work on forgiveness mourning and living up to death Gregor exhibits Ricoeur's original contribution to philosophical reflection on such themes as evil suffering and violence as well as imagination embodiment and spiritual exercise He also presents a critical reconsideration of Ricoeur's separation of philosophy from theology and his philosophical interpretation of Christian theological ideas of revelation divine transcendence and personhood atonement and eschatology Additionally Gregor provides an expansive look at Ricoeur's interlocutors including Marcel Jaspers Kant Hegel Levinas and Girard Theologically inclined readers will be particularly interested in the book's treatment of Karl Barth and the Protestant theology of the Word which was a vital influence on Ricoeur The result is a study of Ricoeur that is both sympathetic and critical provocative and original inviting the reader into a deeper engagement with Ricoeur's philosophical interpretation of religion

Religions of Mediterranean Antiquity Stephen G. Wilson, Michel Desjardins, 2006-01-01 Can archaeological remains be made to speak when brought into conjunction with texts Can written remains on stone or papyrus shed light on the parables of Jesus or on the Jewish view of afterlife What are the limits to the use of artifactual data and when is the value overstated Text and Artifact addresses the complex and intriguing issue of how primary religious texts from the ancient Mediterranean world are illuminated by and in turn illuminate the ever increasing amount of artifactual evidence available from the surrounding world The book honours Peter Richardson and the first two chapters offer appreciations of this scholarship and teaching The remaining chapters focus on early Christianity late antique Judaism and topics germane to the Roman world at large Many of the essays relate to features of Jewish life the epigraphic evidence for gentile converts to Judaism or for Jewish defectors ancient accounts of the Essenes or of the siege of Masada and the material context of the first great rabbinic work the Mishnah Other essays connect early Christian texts with the social and cultural realia of their day modes of travel notions of gender patronage and benefaction the relation of tenants and owners or reflect on the aesthetics of Christian architecture and the relation between building and ritual in Constantinian churches One study relates the writing of the famous novelist Apuleius to a household mithraeum in Ostia while another explores the changing appropriation of religious realia as the Roman world became Christian These wide ranging and original studies demonstrate clearly that texts and artifacts can be mutually supportive Equally they point to ways in which artifacts no less than texts are inherently ambiguous and teach us to be cautious in our conclusions *Politics and Religion in the New Century* Philip Andrew Quadrio, Carrol Besseling, 2009

Politics and Religion in the New Century contains a collection of philosophical reflections on the intersection of religion and the political in contemporary social political and intellectual life Based on new research the essays raise questions about the contemporary philosophical engagement with religion that orientate it on its practical rather than metaphysical dimension That is its social political and ethical significance This collection provides important insights for those interested in philosophy religious studies politics human rights globalisation social theory ethics sociology political economy government anthropology contemporary culture and issues of justice and power generally **New Approaches to the Study of**
