Religious Intellectual History Of Th:

The Rise of the Early Christian Intellectual Lewis Ayres, H. Clifton Ward, 2020-05-05 The study of the growth of early Christian intellectual life is of perennial interest to scholars This volume advances discussion by exploring ways in which Christian writers in the second century did not so much draw on Hellenistic intellectual traditions and models as they were inevitably embedded in those traditions The volume contains papers from a seminar in Rome in 2016 that explored the nature and activity of the emergent Christian intellectual between the late first century and the early third century The papers show that Hellenistic scholarly cultures were the milieu within which Christian modes of thinking developed At the same time the essays show how Christian thinkers made use of the cultures of which they were part in distinctive ways adapting existing traditions because of Christian beliefs and needs The figures studied include Papias from the early part of the second century Tatian Irenaeus and Clement of Alexandria from the later second century One paper on Eusebius of Caesarea explores the Christian adaptation of Hellenistic scholarly methods of commentary Christian figures are studied in the light of debates within Classics and Jewish studies

Abu-Rabi?, 1996-01-01 A systematic treatment of the religious intellectual cultural and social foundations of the Islamic resurgence in the modern Arab world that is grounded in the larger context of Arab and Islamic intellectual history

Judaeo-Christian Intellectual Culture in the

Seventeenth Century A.P. Coudert, S. Hutton, R.H. Popkin, G.M. Weiner, 2013-03-07 MURIEL MCCARTHY This volume originated from a seminar organised by Richard H Popkin in Marsh's Library on July 7-8 1994 It was one of the most stimulating events held in the Library in recent years Although we have hosted many special seminars on such subjects as rare books the Huguenots and Irish church history this was the first time that a seminar was held which was specifically related to the books in our own collection It seems surprising that this type of seminar has never been held before although the reason is obvious Since there is no printed catalogue of the Library scholars are not aware of its contents In fact the collection of books by late seventeenth and early eighteenth century European authors on for example such subjects as biblical criticism political and religious controversy is one of the richest parts of the Library's collections Some years ago we were informed that of the 25 000 books in Marsh's at least 5 000 English books or books printed in England were printed between 1640 and 1700

How Africa Shaped the Christian Mind Thomas C. Oden, 2010-07-23 Thomas C Oden surveys the decisive role of African Christians and theologians in shaping the doctrines and practices of the church of the first five centuries and makes an impassioned plea for the rediscovery of that heritage Christians throughout the world will benefit from this reclaiming of an important heritage

Religion, Medicine and the Human Embryo in Tibet Frances Garrett, 2008-04-24 This book explores the cultural history of embryology in Tibet in culture religion art and literature and what this reveals about its medicine and religion Filling a significant gap in the literature this is the first in depth exploration of Tibetan medical history in the English language It reveals the prevalence of descriptions of the development of the human body from conception to birth found in all forms of Tibetan religious literature as well as in medical texts and in art By analysing stories of embryology Frances Garrett explores questions of cultural transmission and adaptation How did Tibetan writers adapt ideas inherited from India and China for their own purposes What original views did they develop on the body on gender on creation and on life itself The transformations of embryological narratives over several centuries illuminate key turning points in Tibetan medical history and its relationship with religious doctrine and practice Embryology was a site for both religious and medical theorists to contemplate profound questions of being and becoming where topics such as pharmacology and nosology were left to shape secular medicine The author argues that in terms of religion stories of human development comment on embodiment gender socio political hierarchy religious ontology and spiritual progress Through the lens of embryology this book examines how these concerns shift as Tibetan history moves through the formative renaissance period of the twelfth through to the seventeenth centuries

Protestants, Gender and the Arab Renaissance in Late Ottoman Syria Womack Deanna Ferree Womack, 2019-03-14 The Ottoman Syrians residents of modern Syria and Lebanon formed the first Arabic speaking Evangelical Church in the region This book offers a fresh narrative of the encounters of this minority Protestant community with American missionaries Eastern churches and Muslims at the height of the Nahda from 1860 to 1915 Drawing on rare Arabic publications it challenges historiography that focuses on Western male actors Instead it

shows that Syrian Protestant women and men were agents of their own history who sought the salvation of Syria while adapting and challenging missionary teachings These pioneers established a critical link between evangelical religiosity and the socio cultural currents of the Nahda making possible the literary and educational achievements of the American Syrian Mission and transforming Syrian society in ways that still endure today

Rome and Religion in the Medieval World Valerie L. Garver, Owen M. Phelan, 2016-04-08 Rome and Religion in the Medieval World provides a panoramic and interdisciplinary exploration of Rome and religious culture The studies build upon or engage Thomas F X Noble s interest in Rome especially his landmark contributions to the origins of the Papal States and early medieval image controversies Scholars from a variety of disciplines offer new viewpoints on key issues and questions relating to medieval religious cultural and intellectual history Each study explores different dimensions of Rome and religion including medieval art theology material culture politics education law and religious practice Drawing upon a wide range of sources including manuscripts relics historical and normative texts theological tracts and poetry the authors illuminate the complexities of medieval Christianity especially as practiced in the city of Rome itself and elsewhere in Europe when influenced by the idea of Rome Some trace early medieval legacies to the early modern period when Protestant and Catholic theologians used early medieval religious texts to define and debate forms of Roman Christianity The essays highlight and deepen scholarly appreciation of Rome in the rich and varied religious culture of the medieval world

The Intellectual Consequences of Religious Heterodoxy, 1600-1750 Sarah Mortimer, John Robertson, 2012-03-02 Challenging the common assumption that religious heterodoxy was a prelude to the secularisation of thought this volume explores the variety of relations between heterodox theology political thought moral and natural philosophy and historical writing in both Protestant and Catholic Europe from 1600 to the Enlightenment

Darwin, Dharma, and the Divine G. Clinton Godart, 2017-01-31 Darwin Dharma and the Divine is the first book in English on the history of evolutionary theory in Japan Bringing to life more than a century of ideas G Clinton Godart examines how and why Japanese intellectuals religious thinkers of different faiths philosophers biologists journalists activists and ideologues engaged with evolutionary theory and religion How did Japanese religiously think about evolution What were their main concerns Did they reject evolution on religious grounds or as was more often the case how did they combine evolutionary theory with their religious beliefs Evolutionary theory was controversial and never passively accepted in Japan It took a hundred years of appropriating translating thinking and debating to reconsider the natural world and the relation between nature science and the sacred in light of evolutionary theory Since its introduction in the nineteenth century Japanese intellectuals including Buddhist Shinto Confucian and Christian thinkers in their own ways and often with opposing agendas struggled to formulate a meaningful worldview after Darwin In the decades that followed as the Japanese redefined their relation to nature and built a modern nation state the debates on evolutionary theory intensified and state ideologues grew increasingly hostile toward its principles Throughout the religious reception of evolution was dominated by

a long held fear of the idea of nature and society as cold and materialist governed by the mindless struggle for survival This aversion endeavored many religious thinkers philosophers and biologists to find goodness and the divine within nature and evolution It was this drive argues Godart that shaped much of Japan s modern intellectual history and changed Japanese understandings of nature society and the sacred Darwin Dharma and the Divine will contribute significantly to two of the most debated topics in the history of evolutionary theory religion and the political legacy of evolution It will therefore appeal to the broad audience interested in Darwin studies as well as students and scholars of Japanese intellectual history religion and philosophy

Beyond Religious Borders David M. Freidenreich, Miriam Goldstein, 2011-11-29 The medieval Islamic world comprised a wide variety of religions While individuals and communities in this world identified themselves with particular faiths boundaries between these groups were vague and in some cases nonexistent Rather than simply borrowing or lending customs goods and notions to one another the peoples of the Mediterranean region interacted within a common culture Beyond Religious Borders presents sophisticated and often revolutionary studies of the ways Jewish Christian and Muslim thinkers drew ideas and inspiration from outside the bounds of their own religious communities Each essay in this collection covers a key aspect of interreligious relationships in Mediterranean lands during the first six centuries of Islam These studies focus on the cultural context of exchange the impact of exchange and the factors motivating exchange between adherents of different religions Essays address the influence of the shared Arabic language on the transfer of knowledge reconsider the restrictions imposed by Muslim rulers on Christian and Jewish subjects and demonstrate the need to consider both Jewish and Muslim works in the study of Andalusian philosophy Case studies on the impact of exchange examine specific literary religious and philosophical concepts that crossed religious borders In each case elements native to one religious group and originally foreign to another became fully at home in both The volume concludes by considering why certain ideas crossed religious lines while others did not and how specific figures involved in such processes understood their own roles in the transfer of ideas

Maimonides Review of Philosophy and Religion Volume 2, 2023 ,2023-09-04 The Maimonides Review of Philosophy and Religion is an annual collection of double blind peer reviewed articles that seeks to provide a broad international arena for an intellectual exchange of ideas between the disciplines of philosophy theology religion cultural history and literature and to showcase their multifarious junctures within the framework of Jewish studies Contributions to the Review place special thematic emphasis on scepticism within Jewish thought and its links to other religious traditions and secular worldviews The Review is interested in the tension at the heart of matters of reason and faith rationalism and mysticism theory and practice narrativity and normativity doubt and dogma

The Qur'an in South Asia Kamran Bashir, 2021-09-20 The book investigates modern Qur an commentaries in South Asia and engages with how Muslim scholars have imagined and assessed their past intellectual heritage The research is focused on British India from the time of the Mutiny of 1857 to the moment of the Partition of united India in 1947 Offering critical scrutiny of Muslim exegesis of the

Qur'an in North India the study especially focuses on the Qur'anic thought of Sayyid Ahmed Khan d 1989 Ashraf Ali Thanawi d 1943 and Hamid al Din Farahi d 1930 The volume challenges widespread assumptions of an all pervasive reform and revivalism underlying the academic study of Islam Instead of looking for Muslim revivalism and reform as epistemological foundations it stresses the study of modern Qur'an commentaries in particular local and cosmopolitan contexts Departing from the oft repeated explanations of Muslim scholarship and modern Islam through the lens of traditionalism and modernism it discovers how Muslim scholars viewed themselves in relation to the Islamic tradition and how they imagined and assessed their past intellectual heritage Studying the history of the interpretation of the Qur'an in the multiple contexts of nineteenth and early twentieth century British India the book will be of interest to readers of Qur'anic studies modern Islam and South Asian studies

Formation of a Religious Landscape: Shi'i Higher Learning in Safavid Iran Maryam Moazzen, 2017-11-20 In *Formation of a Religious Landscape Shi'i Higher Learning in Safavid Iran* Maryam Moazzen offers the first systematic examination of Shi'i educational institution and practices by exploring the ways in which religious knowledge was produced authenticated and transmitted in the second half of Safavid rule 1588 1722 By analyzing the deeds of endowment of the Madrasa-yi Sulaymaniyya and other mosque madrasas built by the Safavid elite this study sheds light on the organizing mechanisms and structures utilized by such educational foundations Based on the large number of ijazas and other primary sources including waqfiyyas biographical dictionaries and autobiographies this study also reconstructs the Safavid madrasas curriculum and describes the pedagogical methods used to transmit religious knowledge as well as issues that faced Shi'i higher learning in early modern times

Christian Theology and the Secular University Paul A. Macdonald, Jr., 2017-02-24 If the secular university by definition is non sectarian or non denominational then how can it accommodate a discipline like Christian theology Doesn't the traditional goal of theological study which is to attain knowledge of the divine fundamentally conflict with the main goal of secular academic study which is to attain knowledge about ourselves and the world in which we live So why should theology be admitted or even care about being admitted into secular academic life And even if theology were admitted what contribution to secular academic life could it make Working from a Christian philosophical and theological perspective but also engaging a wide range of theologians philosophers and religious studies scholars *Christian Theology and the Secular University* takes on these questions arguing that Christian theology does belong in the secular university because it provides distinct resources that the secular university needs if it is going to fulfill what should be its main epistemic and educative ends This book offers a fresh and unique perspective to scholars working in the disciplines of theology philosophy and religious studies and to those in other academic disciplines who are interested in thinking critically and creatively about the place and nature of theological study within the secular university

HOW ROBESPIERRE'S HOSTILITY TOWARD TRADITIONAL RELIGION LED TO THE TERROR Nuray Bamanie, 2025-04-20

The Religion Clauses of the First Amendment Ellis M. West, 2012-07-10 The First Amendment of the U S Constitution

begins Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof The Supreme Court has consistently held that these words usually called the religion clauses were meant to prohibit laws that violate religious freedom or equality In recent years however a growing number of constitutional law and history scholars have contended that the religion clauses were not intended to protect religious freedom but to reserve the states rights to legislate on If the states rights interpretation of the religion clauses were correct and came to be accepted by the Supreme Court it could profoundly affect the way the Court decides church state cases involving state laws It would allow the states to legislate on religion even to violate religious freedom discriminate on the basis of religion or to establish a particular religion This book carefully thoroughly and critically examines all the arguments for such an interpretation and more importantly all the available historical evidence It concludes that the clauses were meant to protect religious freedom and equality of the individuals not the states rights

Johann Friedrich Blumenbach Nicolaas Rupke, Gerhard Lauer, 2018-07-11 The major significance of the German naturalist physician Johann Friedrich Blumenbach 1752 1840 as a topic of historical study is the fact that he was one of the first anthropologists to investigate humankind as part of natural history Moreover Blumenbach was and continues to be a central figure in debates about race and racism How exactly did Blumenbach define race and races What were his scientific criteria And which cultural values did he bring to bear on his scheme Little historical work has been done on Blumenbach s fundamental influential race work From his own time till today several different pronouncements have been made by either followers or opponents some accusing Blumenbach of being the fountainhead of scientific racism By contrast across early nineteenth century Europe not least in France Blumenbach was lionized as an anti racist whose work supported the unity of humankind and the abolition of slavery This collection of essays considers how with Blumenbach and those around him the study of natural history and by extension that of science came to dominate the Western discourse of race

Contesting Cultural Authority Frank M. Turner, 1993-04-08 A volume of essays which constitutes a major overview of the Victorian intellectual enterprise

Thinking Impossibilities Robert S. Westman, David Biale, 2008-05-24 Intellectuals rarely make a significant impact on one field of scholarship let alone several yet Amos Funkenstein 1937 1995 displayed an intellectual range that encompassed several disciplines and broke new ground across seemingly impenetrable scholarly boundaries The philosophy of history from antiquity to modernity medieval and early modern history of science medieval scholasticism Jewish history in all of its periods these are all areas in which he made lasting contributions *Thinking Impossibilities* brings together Funkenstein s colleagues friends and former students to engage with important aspects of his intellectual legacy Funkenstein s diverse interests were bound together by common figures of thought especially the search for pre modern intellectual groundings of modern ideas and how the seeming impossibilities of one historical moment might become positive resources of conceptual construction and development in another The essays in this volume take up major themes in European intellectual history and examine them through the unique lens that Funkenstein himself employed

during his career Of particular interest are ways in which topics of Jewish history are engaged with the larger field of the history of ideas in the West Richly interdisciplinary and full of fresh insights *Thinking Impossibilities* is a fitting tribute to an important twentieth century scholar
