Religious Experience And Scientific Method:

Religious Experience and Scientific Method Henry Nelson Wieman, 1926 **Religious Experience and Scientific Method** Henry Nelson Wieman, 1971 **Religion and Radical Empiricism** Nancy Frankenberry, 1987-01-01 Rarely in modern times has religion been associated with empiricism except to its own peril This book represents a comprehensive and systematic effort to retrieve and develop the tradition of American religious empiricism for religious inquiry Religion and Radical Empiricism offers a challenging account of how and why reflection on religious truth claims must seek justification of those claims finally in terms of empirical criteria Ranging through many of the major questions in philosophy of religion the author weaves together a study of the varieties of empiricism in all its historical forms from Hume to Quine She finds in James and Dewey in Wieman Meland and Loomer of the Chicago School in Whitehead and in Abhidharma Buddhism constructive elements of a radically empirical approach to the controversial topic of religious experience This work provides a strong counter argument to critics of revisionary theism to caricatures of philosophy as conversation and to any collapse of the category of experience into its linguistic forms Religious Experience and Scientific Method. Wieman Henry Nelson Wieman, 1970 **Religion and Scientific Method** G. Schlesinger, 2012-12-06 I With the immense success of modern science it has generally become accepted that the only way to acquire knowledge is by the use of the method uniformly practiced by working scientists Consequently the credibility of the claims of religion which seem to be based on belief in revelation tradition authority and the like have been considerably shaken In the face of the serious threat provided by the ascendancy of modern scientific methodology religious thinkers have adopted various defensive attitudes Some have retreated into an extreme position where Theism is completely safe from any attack on it by the use of empirical methods of inquiry maintaining that contrary to appearances religion makes no factual claims whatsoever To be religious they say is to subscribe to a certain value system it is to adopt a set of practices and a given attitude to the meaning and purpose of life without making any assertions about this or that empirical feature of the universe Others wishing to remain more faithful to what religion traditionally meant throughout the ages agree that Theism does make factual claims but that these are so radically different from the kind of claims made by science that it is only right that they should be established by a separate method on its own In matters of faith reliance on widely entrenched tradition and sacred authority is not objectionable according to some The Journal of Religion , 1926 Includes section Book reviews **The Journal of Philosophy, Psychology and Scientific Methods** , 1920 **Religious Experience and the Creation of Scripture** Mark Wreford, 2021-01-28 This volume examines the reasons that prompted the New Testament writers to create the texts which would become the formation of the Christian religion exploring the possibility that certain religious experiences were understood as revelatory and consequently inspired the writing of texts which were seen as special from their inception Mark Wreford uses Luke Acts and Galatians as test cases within the New Testament reflecting both on the stated importance of

religious experiences whether the author's own or others to the development of these texts and the status the texts claim for themselves Wreford suggests that Luke Acts offers a helpful example of the relationship between religious experience and the creation of Scripture as an extensive narrative which reflects on early Christian claims to Spirit inspired witness and which begins with an explicit authorial statement of purpose Similarly in Galatians Paul's autobiographical account of God's revelation of Christ to him is the foundation of a letter that is intended to play an authoritative role in shaping its addressees own faith and practice Wreford argues that religious experiences are presented as the driving force behind the creation of the texts examining how such religious experience links with notions of scripture and canonicity He then asserts that both Luke and Paul understood themselves to be creating new scriptural writings on the basis of their relationship to new religious experiences citing the experience and speech at Pentecost the inclusion of gentiles in the experience and Paul's own conversion experience as key elements behind the self understanding of these New Testament authors

The Varieties of Religious Experience William James, 1920 **The Varieties of Spiritual Experience** David B. Yaden, Research Director at the Marcus Institute of Integrative Health Andrew Newberg, 2025-08-22 This book explores scientific breakthroughs on spiritual experiences from the fields of psychology and neuroscience beginning with an account of William James's foundational work before turning to cutting edge research using neuroimaging psychedelics and large surveys Illustrated with examples of spiritual experiences drawn from a diverse set of personal accounts this book provides the basis for a scientifically informed contemporary understanding of these mysterious and deeply meaningful moments *The Varieties of Religious Experience (Complete Edition)* William James, 2018-11-02 This eBook has been formatted to the highest digital standards and adjusted for readability on all devices *The Varieties of Religious Experience A Study in Human Nature* is a book by Harvard University psychologist and philosopher William James It comprises his edited Gifford Lectures on natural theology which were delivered at the University of Edinburgh in Scotland in 1901 and 1902 The lectures concerned the nature of religion and the neglect of science in the academic study of religion **The Story of Religion as Told in the Lives of Its Leaders** Charles Francis Potter, 1929 **Methodology in Religious Studies** Arvind Sharma, 2012-02-01

Methodology in Religious Studies assesses the impact of women's studies on the various methods employed in studying religion Since its inception in the 1860s the study of religion as an academic discipline has evolved over time ranging from the classically historical to the boldly hermeneutical The women's studies movement has since the 1980s become part and parcel of the intellectual landscape of our times and the study of religion has become increasingly influenced by it What are the implications of this new development for the methodology of religious studies Leading practitioners of psychological theological sociological anthropological phenomenological historical and hermeneutic approaches examine the mutually enriching interface between religious studies and women's studies as they explore the broader issue of the interaction between method and the nature of the subject itself **The American Journal of Theology** University of Chicago. Divinity

School, 1916 Vols 2 6 include Theological and Semitic literature for 1898 1901 a bibliographical supplement to the American journal of theology and the American journal of Semitic languages and literatures By W Muss Arnolt Separately paged

The Journal of Philosophy, Psychology, and Scientific Methods Frederick James Eugene Woodbridge, Wendell T. Bush, 1919 Methods of Private Religious Living Henry Nelson Wieman, 1929 **Religious Behaviour and Spiritual Experience** Ashit Chandra Chakraborty, Swami Priyavratana, 2015-12-23 Spiritual life and its experiences seem to elude ordinary understanding Can spiritual truths be investigated by scientific techniques Why do people take to spiritual life Is there a scientific truth behind supra normal experiences This book published by Advaita Ashrama a publication centre of Ramakrishna Math Belur Math India deals with scientific exploration of spiritual experiences and answers these questions

Science and Religion J.W. Fennema, Paul Iain, 2012-12-06 The world is increasingly becoming one It is at the same time one endangered ecosystem and one thriving market place with material and spiritual goods on competitive display And the good and evil things of life cannot easily be sorted out The world is becoming one also in the sense that it is better understood today than it was in earlier times that the material good and the spiritual good though seemingly belonging to different realms of fact defined by their respective modes of existence together constitute effectively one and the same reality the modern world of science technology computerized administration and power that calls upon humankind to struggle for a just participatory and sustainable society and to strive for a society of the future that will be the world over both long lived and worth living The Second European Conference on Science and Religion held on 10 13th March 1988 on the campus of the Universiteit Twente Enschede The Netherlands was meant to be a modest market place a forum where standpoints and opinions could be presented and criticized It was meant to offer an opportunity to meet and to make acquaintances in the expectation that the exchange of thoughts would lead to new conceptual horizons that would challenge what so far had been considered as hard fact or what until now had been looked upon as a distinctive feature of a well established view either of the kingdom of the sciences or of the realm of religion **Religious Experience Reconsidered** Ann Taves, 2011-10-23 Annotation Ann Taves addresses the subject of religious experience directly and the problems of reductionism and humanistic fears of the sciences indirectly and by example The orientation of this book is practical more than philosophical
