Religious Sociology Interfaces And Boundaries Contributions In Sociology:

Religious Sociology William H. Swatos Jr., 1987-06-18 This collection of seventeen essays presents an interactive discussion of critical issues in sociology and religion Combining reports from empirical research with discussions of theoretical issues personal reflections and applied perspectives the book offers a thorough examination of the sociology religion interface The collection brings together experience and analysis in the best sociological tradition while taking a fundamental non reductionist approach toward religious perspectives **Elenchus of Biblica**, 1992 **Bibliographie Internationale de Sociologie 1987** British Library of Political and Economic Science, 1991 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences **Multiculturalism and Intergroup Relations** James Frideres, James S. Frideres, 1989-01-12 Written by some of the most distinguished scholars in the field of ethnic relations this volume examines the role of ethnicity in modern day society and the impact of government policy on ethnic relations International in scope the essays look at a number of different but interrelated issues aging identity minority groups and others examining each from a multidisciplinary perspective Coverage ranges from the problems of Asian Americans to integration issues in Israel and the relationship between ethnic diversity and patterns of retirement The contributions include both theoretical and empirical works The first section of the study presents the primary issues and central concepts involved in the study of multiculturalism in modern day societies Specific chapters address such issues as the vesting of ethnic interests in state institutions state policies toward subordinate ethnics and government efforts to address multiculturalism Particularly valuable is a retrospective analysis of Canada's Bilingual and Bicultural Report The next section contains detailed case studies which identify specific ethnic groups and analyze their current societal roles In the final chapters the contributors present two projections of what ethnic relations will be like in the twenty first century as North America becomes more multi ethnic and multilingual Taken together the essays offer an illuminating overview of the nature of multiculturalism in widely diverse societies **Books in Print**, 1977 **American Ritual Dramas** Mary Jo Deegan, 1989-01-20 Deegan attempts a most unlikely synthesis of the cynical theories of Erving Goffman and the community affirming views of Victor Turner Moreover in testing the result in the context of modern American rituals Deegan adds a good measure of Marxist oriented feminism to provide strong structural connections and depth to the analysis The end result of this difficult and rough edged synthesis is not without flaws but it represents a highly creative provocative promising and critical approach to modern American culture All of this makes for fascinating reading and is quite certain to hold the attention of professional sociologists and their students at all levels Choice In a landmark contribution to the sociological literature Mary Jo Deegan examines the underlying social patterns that generate American rituals The first book to employ dramaturgical theory to analyze popular rituals such as football games and the singles bar scene American Ritual Dramas

draws upon the pioneering work of Erving Goffman Victor Turner and T R Young to construct a critical framework for examining the social structure of everyday life and its relation to times of celebration or fun The result is a new and important clarification of two aspects of ritual life in America the long term patterns unique to our worldview and material life and the rapid innovation of new rituals that impel modern life In developing her arguments Deegan looks at two major types of ritual participatory rituals and media constructed rituals Through the use of the dramatic metaphor she looks at the roles we play the language we use and the rules we follow in diverse ritual settings ranging from household auctions to the Star Trek television series and the written adventures of The Wizard of Oz Extending the work of earlier theorists Deegan looks for the first time in this context at the issues of sex and class and their relation to bureaucracy and modern uses of time Her critical inquiry reveals that these familiar social rituals and others like them are paradoxically liberating and restricting at the same time The solution lies Deegan concludes in fostering alternative ritual behavior patterns that liberate all members of the community in the democratic experience of playfulness
