**Cornel Zwierlein, Daniel Lee**

## **Reluctant Ally Austrias Policy In The Austro Turkish War 1737 1739:**

The Reluctant Ally Karl Andrew Roider,1972      **The reluctant Ally. Austria's policy in the Austro-Turkish War, 1737-1739** Karl Andrew Roider (jr.),1972      *Austria's Wars of Emergence, 1683-1797* Michael Hochedlinger,2015-12-22 The Habsburg Monarchy has received much historiographical attention since 1945 Yet the military aspects of Austria s emergence as a European great power in the seventeenth and eighteenth centuries have remained obscure This book shows that force of arms and the instruments of the early modern state were just as important as its marriage policy in creating and holding together the Habsburg Monarchy Drawing on an impressive up to date bibliography as well as on original archival research this survey is the first to put Vienna s military back at the centre stage of early modern Austrian history      **The Russo-Turkish War, 1768-1774** Brian L. Davies,2016-01-28 The Russo Turkish War was one of the most decisive conflicts of the 18th century In this book Brian Davies offers a thorough survey of the war and explains why it was crucial to the political triumph of Catherine the Great the southward expansion of the Russian Empire and the rollback of Ottoman power from southeastern Europe The war completed the incorporation of Ukraine into the Russian Empire ended the independence of the great Cossack hosts removed once and for all the military threat from the Crimean Khanate began the partitions of Poland and encouraged Catherine II to plan projects to complete the liberation of the lower Danubian and Balkan Slavs and Greeks The war legitimated and secured the power of Catherine II finally made the Pontic steppe safe for agricultural colonization and won ports enabling Russia to control the Black Sea and become a leading grain exporter Traditionally historians Sorel for example have treated this war as the beginning of the Eastern Question the question of how the European powers should manage the decline of the Ottoman Empire A thorough grasp of the Russo Turkish War is essential to understanding the complexity and volatility of diplomacy in 18th century Europe This book will be an invaluable resource for all scholars and students on European military history and the history of Eastern Europe      The Crimean Tatars Brian Glyn Williams,2016 The pearl in the tsar s crown Dispossession the loss of the Crimean homeland Dar al Harb the nineteenth century Crimean Tatar migrations to the Ottoman Empire Vatan the construction of the Crimean fatherland Soviet homeland the nationalization of the Crimean Tatar identity in the USSR Surgun the Crimean Tatar exile in Central Asia Return the Crimean Tatar migrations from Central Asia to the Crimean Peninsula      **From Reich to Revolution** Peter H. Wilson,2019-10-10 German history after the Reformation is often seen as a confusing period of political failures before the emergence of powerful states like Prussia give some coherence to the national story The inability of Emperor Charles V to solve Germany s political and religious problems by 1558 seems to condemn the country to the chaos of the Thirty Years War and the subsequent partition of the Reich or Holy Roman Empire into virtually independent states until its final collapse in 1806 Peter H Wilson s major new study Weaves insights from the latest research into a comprehensive account of German social political and cultural development across two and a half

centuries Addresses fundamental questions such as how the apparently fragile structure of the Reich survived the trauma of the Thirty Years War and why despite gross social inequality Germany did not experience mass French style revolution Provides a helpful glossary detailed appendices and a guide to further reading to aid study The Rise of the Great Powers 1648 - 1815 Derek Mckay,H.M. Scott,D Mckay,2014-09-19 The heyday of the European states system was in the century before the First World War How the system of five great powers in conscious equilibrium came into being is the central theme of this book **Sovereignty** Cornel Zwierlein,Daniel Lee,2024-09-16 Was the emperor as sovereign allowed to seize the property of his subjects Was this treated differently in late medieval Roman law vis vis the theory and practice of zabt in Mughal India How did political sovereignty relate to the church s powers and to trade How about maritime sovereignty after Grotius How was the East India Company as a corporation interacting with an Indian Nawab How did the shogunate negotiate sovereignty in early modern Japan This volume addresses such questions through thoroughly researched historical case studies covering the disciplines of History Political Sciences and Law Contributors Nicholas Abbott Tiraana Bains Michael P Breen Sylvio Hermann De Franceschi Philippe Denis David Dyzenhaus Andrew Fitzmaurice Joshua Freed Kajo Kubala Daniel Lee Fabrice Micallef Kenneth Pennington Mark Ravina and Cornel Zwierlein **War, State and Society in Württemberg, 1677-1793** Peter H. Wilson,Peter Hamish Wilson,1995-03-23 This book provides a radical new interpretation of the aims of the lesser German princes during the seventeenth and eighteenth centuries through the example of the duchy of W rttemberg Arguing that the princes political ambitions were fundamental in shaping the internal development of their territories the author sheds new light on the political importance of the notorious German soldier trade and its role in international diplomacy The wider social and political impact of these policies is also investigated in a comparative framework while traditional interpretations of the dramatic struggle between duke and estates are challenged in a reassessment of the role of early modern representative institutions in German state development The relationship of these internal political struggles to the different elements of the Holy Roman Empire is revealed opening up new perspectives on the role of the German states within the imperial structure and revealing the empire as a flawed but functioning political system The Banat of Temesvar Timothy Olin,2025-02-04 This book explores the establishment and development of a multi ethnic frontier society on the Habsburg Ottoman border in the historic region of the Banat today divided between Romania Yugoslavia and Hungary After it passed from Ottoman to Habsburg control in the early eighteenth century the Habsburgs sought to settle the region with Western and Central European migrants mainly though not exclusively German speakers from the Holy Roman Empire Historian Timothy Olin argues that this policy led to destabilizing demographic changes and laid the foundations for the ethno religious tensions that characterized the region through the twentieth century and beyond Imperial authorities used colonists as a means to ensure the loyalty and stability of the province and to prevent Hungarian Ottoman collusion Their settlement beginning in the 1710s and lasting until the 1820s led to government sponsored

displacement and resettlement of many local villages In the process of narrating the history of the region Olin argues that the land empires of Europe engaged in forms of settlement that fit the larger patterns of colonial rule in other parts of Europe and the world and demonstrates that the movement of settlers and the culture they brought with them began a process of Europeanization in the borderlands of the continent and helped solidify Europe's boundaries An Ottoman Statesman in War and Peace Virginia H. Aksan, 2023-12-21 This study of the life and milieu of a statesman utilizing a wide array of hitherto unused chronicle and documentary material offers new insights into many aspects of Ottoman eighteenth century society Subjects touched upon include career development and patronage in the central bureaucracy increasing knowledge and interest in European diplomacy and the impact of war on traditional attitudes Of particular interest is the section on the 1768-74 Russo-Turkish War a traumatic awakening for the Ottomans who yielded significant territory but were also faced with the necessity of reconstructing a polity and ideology which no longer produced results on the battlefield Ahmed Resmi was the first of a new generation of statesmen who saw real virtue in the rationalization of war and the need for peace within prescribed borders **European Military Rivalry, 1500-1750** Gregory Hanlon, 2020-03-26 European Military Rivalry 1500-1750 Fierce Pageant examines more than 200 years of international rivalry across Western Central and Eastern Europe and the Mediterranean rim The book charts the increasing scale expenditure and duration of early modern wars the impact of modern fortification on strategy and the movement of armies the incidence of guerrilla war and localized conflict typical of the French wars of religion the recourse by warlords to private financing of troops and supplies and the creation of disciplined standing armies and navies in the age of Absolutism made possible by larger bureaucracies In addition to discussing key events and personalities of military rivalry during this period the book describes the operational mechanics of early modern warfare and the crucial role of taxation and state borrowing The relationship between the Christian West and the Ottoman Empire is also extensively analysed Drawing heavily upon international scholarship over the past half century European Military Rivalry 1500-1750 Fierce Pageant will be of great use to undergraduate students studying military history and early modern Europe **History of the Balkans: Volume 1** Barbara Jelavich, 1983-07-29 Volume I discusses the history of the major Balkan nationalities It describes the differing conditions experienced under Ottoman and Habsburg rule but the main emphasis is on the national movements their successes and failures to 1900 and the place of events in the Balkans in the international relations of the day Age of Louis XIV William James Roosen, 2017-07-12 William James Roosen has written the first general study of European diplomacy in the age of Louis XIV which is based on the actual practices and institutions of that era rather than on the writing of early theoreticians Though the seventeenth century may not have been a period of great innovations in international diplomacy it provides us with an important illustration of the workings of a system which was well suited to the gradually changing needs of its time and which has been called the best form of diplomacy ever developed Dr Roosen demonstrates both the obvious differences and the many similarities between

diplomatic procedures and practices of the seventeenth century and the twentieth Any student of diplomacy and international relations will gain valuable insight and understanding from this study of the early modern diplomatic personalities institutions and practices One of Dr Roosen s goals in writing this book has been to discover the relationships between the ideological and socioeconomic structures and the diplomatic personalities who have influenced modern diplomacy Further he supplies the only available study of the realities of diplomatic practices in seventeenth century Europe and provides an excellent basis for comparison with twentieth century international relations in the hope that studying early modern diplomatic personalities institutions and practices should increase our understanding of international relations today There are chapters on The States of Europe Kings and Ministers Ambassadors Second Class Diplomats A Typical Early Modern Embassy Information Important Objective of Diplomatic Activity and The Variety of Diplomatic Duties

**Britain, Hanover and the Protestant Interest, 1688-1756** Andrew C. Thompson, 2006 A new examination of the links between religion and politics in the early eighteenth century showing how the defence of protestantism became a major plank in foreign policy Religious ideas and power politics were strongly connected in the early eighteenth century William III George I and George II all took their role as defenders of the protestant faith extremely seriously and confessional thinking was of major significance to court whiggery This book considers the importance of this connection It traces the development of ideas of the protestant interest explaining how such ideas were used to combat the perceived threats to the European states system posed by universal monarchy and showing how the necessity of defending protestantism within Europe became a theme in British and Hanoverian foreign policy Drawing on a wide range of printed and manuscript material in both Britain and Germany the book emphasises the importance of a European context for eighteenth century British history and contributes to debates about the justification of monarchy and the nature of identity in Britain Dr ANDREW C THOMPSON is Lecturer in History Queens College Cambridge

*Ottoman Military Administration in Eighteenth-Century Bosnia* Michael Hickok, 2023-07-10 Ottoman Military Administration in Eighteenth Century Bosnia is a provocative and original study of Ottoman administration in a provincial setting Blending Ottoman and Slavic sources this study examines in particular the Bosnian campaigns against the Austrians in 1736 along with the structure personnel system and financing of the Bosnian militia Archival material chronicles personal letters and journals and poetry help show how Bosnians and Ottoman officials cooperated to arrive at a shared sense of social order and mutual defence and undermine later Balkan nationalist histories which tend to tell a story of Ottoman administrative incompetence against a backdrop of nascent independent movements

**German Armies** Peter Wilson, 2002-11-01 German armies examines the diversity of German involvement in European conflict from the Peace of Westphalia to the age of Napoleon Challenging assumptions of the Holy Roman Empire as weak and divided this study provides a comprehensive account of its survival in a hostile environment of centralizing belligerent states In contrast to the later german states the

Empire was inherently defensive yet many of its component territories embarked on expansionist militaristic policies creating their own armies to advance their objectives The author examines the resultant tensions and explains the structure and role of the different German forces In addition a number of wider issues are addressed such as war and the emergence of absolutism the rise of Austria and Prussia as great powers non violent forms of conflict resolution and the relative effectiveness of German military and political institutions in meeting the challenge of revolutionary France Drawing on a range of sources the author provides a detailed analysis of the German dimension of the great struggles against Louis XIV s France competition for supremacy in the Baltic and Mediterranean and the prolonged wars with the Ottoman Turks German armies extends the boundaries of military history by placing ancien regime warfare within a wider social cultural and international context     **The Siege of Mosul and Ottoman-Persian Relations** Robert W. Olson, 2017-07-12 First published in 1997 Routledge is an imprint of Taylor Francis an informa company
