Lowe,2013-10-08 First Published in 2001 The Reluctant Imperialists British Foreign Policy 1878 1902 Volume II focuses on the documents whose purpose is less to define what policy was than to give students some idea of the dialogue that lay behind it *The Reluctant Imperialists* C. J. Lowe,1967 **The Reluctant Imperialists** Imanuel Geiss,2002 **The Reluctant Imperialists** Cedric James Lowe,1967 **The Reluctant Imperialists** Cedric James Lowe,1967 Choose Your Weapons Douglas Hurd,2013-03-28 Noisy popular liberal interventionism Or a more conservative diplomatic approach concentrating on co operation between nations This is the debate that lies at the heart of modern politics and Hurd traces its most interesting and influential exponents He starts with Canning and Castelreagh in post Waterloo Britain to a generation later the victory of the interventionist Palmerston over Aberdeen then to Salisbury Imperialism and Grey European balance of power and finally to Eden and Bevin who combined to lay the foundations of a post war compromise That delicate balance has served its purpose for over half a century but as we enter a new era of terrorism and racial conflict the old questions and divisions are re surfacing Reluctant Imperialists Pt1 V1 C.J. Lowe,2014-05-01 First published in 2001 This is part of the Foreign Policies of Great Power series this is Volume I of British Foreign Policy from 1878 to 1902 and focuses on the reluctant imperialists The work was published in two parts with the dividing line being 1902 **Censorship and Propaganda in World War I** Eberhard Demm,2019-05-30 This book demonstrates how people were kept ignorant by censorship and indoctrinated by propaganda Censorship suppressed all information that criticized the army and government that might trouble the population or weaken its morale Propaganda at home emphasized the superiority of the fatherland explained setbacks by blaming scapegoats vilified and ridiculed the enemy warned of the disastrous consequences of defeat and extolled duty and sacrifice The propaganda message also infiltrated entertainment and the visual arts Abroad it aimed to demoralize enemy troops and stir up unrest among national minorities and other marginalized groups The many illustrations and organograms provide a clear visual demonstration of Demm s argument The Fear of Invasion David G. Morgan-Owen,2017-07-07 The Fear of Invasion presents a new interpretation of British preparation for War before 1914 It argues that protecting the British Isles from invasion was the foundation upon which all other plans for the defence of the Empire were built up Home defence determined the amount of resources available for other tasks and the relative focus of the Army and Navy as both played an important role in preventing an invasion As politicians were reluctant to prepare for offensive British participation in a future war home defence became the means by which the government contributed to an ill defined British grand strategy The Royal Navy formed the backbone of

British defensive preparations However after 1905 the Navy came to view the threat of a German invasion of the British Isles as a far more credible threat than is commonly realised As the Army became more closely associated with operations in France the Navy thus devoted an ever greater amount of time and effort to safeguarding the vulnerable east coast In this manner preventing an invasion came to exert a very insidious effect on the Navy by the outbreak of War in 1914 This book explains how and why this came to pass and what it can tell us about the role of government in forming strategy *Italian Foreign Policy 1870-1940* C.J. **Selling the Congo** Matthew G. Stanard,2012-01-01 Belgium was a small neutral country without a colonial tradition when King Leopold II ceded the Congo his personal property to the state in 1908 For the next half century Belgium not only ruled an African empire but also through widespread enduring and eagerly embraced propaganda produced an imperialist minded citizenry Selling the Congo is a study of European pro empire propaganda in Belgium with particular emphasis on the period 1908 60 Matthew G Stanard questions the nature of Belgian imperialism in the Congo and considers the Belgian case in light of literature on the French British and other European overseas empires Comparing Belgium to other imperial

powers the book finds that pro empire propaganda was a basic part of European overseas expansion and administration during the modern period Arguing against the long held belief that Belgians were merely reluctant imperialists Stanard demonstrates that in fact many Belgians readily embraced imperialistic propaganda Selling the Congo contributes to our understanding of the effectiveness of twentieth century propaganda by revealing its successes and failures in the Belgian case Many readers familiar with more popular histories of Belgian imperialism will find in this book a deeper examination of European involvement in central Africa during the colonial era **Cecil Rhodes and the Cape Afrikaners** M.
