Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment:

Reluctant Rebels John Walton, 1984-01 **The Globalizing Cities Reader** Xuefei Ren, Roger Keil, 2017-10-12 The newly revised *Globalizing Cities Reader* reflects how the geographies of theory have recently shifted away from the western vantage points from which much of the classic work in this field was developed The expanded volume continues to make available many of the original and foundational works that underpin the research field while expanding coverage to familiarize students with new theoretical and epistemological positions as well as emerging research foci and horizons It contains 38 new chapters including key writings on globalizing cities from leading thinkers such as John Friedmann Michael Peter Smith Saskia Sassen Peter Taylor Manuel Castells Anthony King Jennifer Robinson Ananya Roy and Fulong Wu The new Reader reflects the fact that world and global city studies have evolved in exciting and wide ranging ways and the very notion of a distinct global class of cities has recently been called into question The sections examine the foundations of the field and processes of urban restructuring and global city formation A large number of new entries focus on the emerging urban worlds of Asia Latin America and Africa including Beijing Bogota Cairo Cape Town Delhi Istanbul Medellin Mumbai Phnom Penh Rio de Janeiro Sao Paulo and Shanghai The book also presents cases off the conventional map of global cities research such as smaller cities and less known urban regions that are undergoing processes of globalization The book is a key resource for students and scholars alike who seek an accessible compendium of the intellectual foundations of global urban studies as well as an overview of the emergent patterns of early 21st century urbanization and associated sociopolitical contestation around the world *International Law and Revolution* Owen Taylor, 2019-05-23 This book explores the historical inter relations between international law and revolution with a focus on how international anti capitalist struggle plays out through law The book approaches the topic by analysing the meaning of revolution and what revolutionary activity might look like before comparing this with legal activity to assess the basic compatibility between the two It then moves on to examine two prominent examples of revolutionary movements engaging with international law from the twentieth century the early Soviet Union and the Third World movement in the nineteen sixties and seventies The book proposes that the form of law or its base logic is rooted in capitalist social relations of private property and contract and that therefore the law is a particularly inhospitable place to advance revolutionary breaks with established distributions of power or wealth This does not mean that the law is irrelevant to revolutionaries but that turning to legal means comes with tendencies towards conservative outcomes In the light of this the book considers the possibility of how or whether international law might contribute to the pursuit of a more egalitarian future *International Law and Revolution* fills a significant gap in the field of international legal theory by offering a deep theoretical reflection on the meaning of the concept of revolution for the twenty first century and its link to the international legal system It develops the commodity form theory of law as applied to international law and explores the limits of law for progressive social struggle informed by historical analysis It will therefore

appeal to students and scholars of public international law legal history human rights international politics and political history

Modern Revolution Daniel Brook,2005-09-15 Using a comparative historical methodology this book analyzes and contrasts the 1989 Velvet Revolution in Czechoslovakia with China's Tiananmen Square rebellion from socio cultural and political economic perspectives

Max Weber's Comparative-Historical Sociology Today Stephen Kalberg,2017-03-02 Bringing together the author's major scholarly work on Weber over the last thirty years *Max Weber's Comparative Historical Sociology Today* addresses major themes in Weber's thought whilst also examining the mode of analysis practised in his comparative historical writings By exploring Weber's concepts and procedures the individual chapters seek to convey the rigor of his research strategies demonstrating their uniqueness In this light this study proceeds to identify as incomplete and then reconstruct the analyses undertaken by Weber of the rise of Confucianism in China the caste system in India and monotheism in ancient Israel The analysis then advances to the modern era utilising Weber's research procedures to explain the origins of four independent phenomena the singularity of the American political culture the cultural foundations of modern citizenship cultural pessimism *Kulturpessimismus* in nineteenth century Germany and the location of work in contemporary German society A dialogue with a variety of recent major schools is pursued throughout this volume Offering a rich examination of the major themes in Weber's sociology alongside a reconstruction of his mode of analysis and application of his approach this book will appeal to scholars around the world with interests in social theory German and American societies cultural sociology political sociology the sociology of knowledge comparative historical sociology and the sociology of civilizations

Caribbean Revolutions and Revolutionary Theory Brian Meeks,2001 This volume re-examines the meaning of revolution as a useful concept in politics It traces the history of the concept from its ancient beginnings but especially in connection with the idea of progress since the French Revolution More recent statements are examined as a prelude to arriving at a less deterministic entrenched definition than has often been the case but which retains the idea of revolution as a potential window and facilitator of change

From People's War to People's Rule Timothy J. Lomperis,2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself Rather he proposes a comparison of the Vietnam experience with seven other cases of Western intervention in communist insurgencies during the Cold War era China Indochina Greece the Philippines Malaya Cambodia and Laos Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization Therefore he argues any intervention in a people's war will succeed or fail depending on how it affects this crisis The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements Applying this theory to the ongoing Sendero Luminoso insurgency in Peru Lomperis makes a qualified prediction of that conflict's outcome He concludes that a global trend toward democratization has produced a new

era of people's rule **The New Handbook of Political Sociology** Thomas Janoski, Cedric de Leon, Joya Misra, Isaac William Martin, 2020-03-05 Political sociology is a large and expanding field with many new developments and The New Handbook of Political Sociology supplies the knowledge necessary to keep up with this exciting field Written by a distinguished group of leading scholars in sociology this volume provides a survey of this vibrant and growing field in the new millennium The Handbook presents the field in six parts theories of political sociology the information and knowledge explosion the state and political parties civil society and citizenship the varieties of state policies and globalization and how it affects politics Covering all subareas of the field with both theoretical orientations and empirical studies it directly connects scholars with current research in the field A total reconceptualization of the first edition the new handbook features nine additional chapters and highlights the impact of the media and big data *Globalization on the Ground* Christopher Chase-Dunn, Nelson Amaro, Susanne Jonas, 2001-04-25 This book presents research analysis and reflections on the major issues of Guatemalan development and democracy the role of the military the involvement of Mayan communities in national development the possible emergence of more inclusive political institutions and the roles of international forces and agencies in Guatemalan social change The chapters in this book are written by some of the most prominent scholars and public policy experts from Guatemala and the United States **Political Analysis for Intelligence** George Caldwell, 1992 **Conflict Resolution in Africa** Francis M. Deng, I. William Zartman, 2011-07-01 While dramatic changes are taking place on the international scene and among the major powers Africa continues to suffer from a multitude of violent conflicts The toll of these conflicts is monumental in terms of war damage to productivity scarce resources diverted to armaments and military organizations and the resulting insecurity displacement and destruction At the same time Africans in response to internal demands as well as to international changes have begun to focus their attention and energies on these problems and are trying innovative ways to resolve differences by nonviolent means The outcomes of these attempts have urgent and complex implications for the future of the continent with respect to human rights principles of democracy and economic development In this book African European and U S experts examine these important issues and the prospects for conflict management and resolution in Africa They review the scholarship in resolution in light of international changes now taking place Addressing the undying internal causes of conflict they question whether global events will promote peace or threaten to unleash even more conflict The authors focus their analysis on the issues involved in African conflicts and examine the areas in need of the most dramatic changes They offer specific recommendations for dealing with current problems but caution that unless policymakers confront the security situation in Africa further destruction to national unity and political and economic stability is imminent Case studies and themes for further long term research are recommended **Bandits and Bureaucrats** Karen Barkey, 2018-10-18 Why did the main challenge to the Ottoman state come not in peasant or elite rebellions but in endemic banditry Karen Barkey shows how Turkish strategies of incorporating peasants and rotating elites

kept both groups dependent on the state unable and unwilling to rebel Bandits formerly mercenary soldiers were not interested in rebellion but concentrated on trying to gain state resources more as rogue clients than as primitive rebels The state's ability to control and manipulate bandits through deals bargains and patronage suggests imperial strength rather than weakness she maintains Bandits and Bureaucrats details in a rich archivally based analysis state society relations in the Ottoman empire during the sixteenth and seventeenth centuries Exploring current eurocentric theories of state building the author illuminates a period often mischaracterized as one in which the state declined in power Outlining the processes of imperial rule Barkey relates the state political and military institutions to their social foundations She compares the Ottoman route with state centralization in the Chinese and Russian empires and contrasts experiences of rebellion in France during the same period Bandits and Bureaucrats thus develops a theoretical interpretation of imperial state centralization through incorporation and bargaining with social groups and at the same time enriches our understanding of the dynamics of Ottoman history

Religion and Political Power Gustavo Benavides, M. W. Daly, 1989-01-01 This book explores the interaction between two of the most charged topics in the modern world religion and politics It shows the inextricable connection between religious attitudes and representations and political activities After an introductory chapter explores theoretically the religious articulations of political power the authors examine the role played by religion in the current political situation in several countries Approaching these cases as anthropologists historians sociologists and political scientists the authors make visible the dialectical relationship between religion and the pursuit of political power on the one hand the political significance of religious choices and on the other the almost unavoidable need to articulate in religious terms a group's attempt to acquire maintain or expand political power

Theorizing Revolutions John Foran, 2003-09-02 In Theorizing Revolutions some of the most exciting thinkers in the study of revolutions today look critically at the many theoretical frameworks through which revolutions can be understood and apply them to specific revolutionary cases The theoretical approaches considered in this way include state centred perspectives structural theory world system analysis elite models demographic theories and feminism and the revolutions covered range in time from the French Revolution to Eastern Europe in 1989 and in place from Russia to Vietnam and Nicaragua

The Comparative Political Economy of the Welfare State Thomas Janoski, Alexander M. Hicks, 1994-01-28 Comparative research is exploding with alternative methodological and theoretical approaches In this book experts in each one of these methods provide a comprehensive explanation and application of time series pooled event history and Boolean methods to substantive problems of the welfare state Each section of the book focuses on a different method with a general introduction to the methods and then two papers using the method to deal with analysis concerning welfare state problems in a political economy perspective Scholars concerned with methodology in this area cannot afford to overlook this book because it will help them keep up on proliferating methodologies Graduate students in political science and sociology will find this book extremely useful in their careers

What Is a Case?

Charles C. Ragin, Howard Saul Becker, 1992-07-31 The concept of the case is a basic feature of social science research and yet many questions about how a case should be defined selected and judged are far from settled The contributors to this volume probe the nature of the case and the ways in which different understandings of the concept affect the conduct and the results of research The contributions demonstrate that the work of any given researcher is often characterised by some hybrid of these basic approaches and it is important to understand that most research involves multiple definitions and uses of cases as both specific empirical phenomena and as general theoretical categories **The Challenge of Rural**

Democratisation Jonathan Fox, 2014-06-03 First published in 1990 The distribution of rural power in developing countries both shapes and is shaped by national politics Focusing on Latin America and the Philippines this volume addresses the question of why rural democratisation has proven to be so difficult across a wide range of national experiences *The Other Rebellion* Eric Van Young, 2002-04-01 Mexico's movement toward independence from Spain was a key episode in the dissolution of the great Spanish Empire and its accompanying armed conflict arguably the first great war of decolonization in the nineteenth century This book argues that in addition to being a war of national liberation the struggle was also an internal war pitting classes and ethnic groups against each other an intensely localized struggle by rural people especially Indians for the preservation of their communities While local and national elites focused their energies on wresting power from colonial authorities and building a new nation state rural people were often much more concerned about keeping village identities and lifeways intact against the forces of state expansion commercialization and modernization Conventional wisdom says that Mexican independence was achieved through a cross class and cross ethnic alliance between creole ideologues military leaders and a mass following This book shows that this is not only an incomplete explanation of what went on in Mexico during the decade of armed confrontation that led to Mexico's independence but also a distortion of Mexican social and cultural history The author delves deeply into life histories previously unexamined texts statistical social profiling and local historical ethnography to examine the dynamics of popular rebellion He focuses especially on Mexico's Indian villages but also considers the role of parish priests as insurgent leaders local conflicts over land politics and religious symbols the influence of messianism and millenarianism in popular insurgent ideology and the everyday language of political upheaval **Global Terrorism**

Brenda Lutz, 2019-04-03 Global Terrorism 4th edition continues to provide students with the most comprehensive introduction to terrorism as a global phenomenon It introduces students to history politics ideologies and strategies of both contemporary and earlier terrorist groups Written in a clear and accessible style each chapter explains a distinctive aspect of terrorism and discusses a wide variety of detailed case studies from around the world Although the focus is on the contemporary the book also includes discussion of preceding terrorist groups Building on the strengths of the first three editions this edition includes new material on Attacks by ISIS in Europe Unrest in Afghanistan and Pakistan Russia and Chechnya Violence in Iraq Decades of terrorism in Northern Ireland Sri Lanka Colombia and the Basque region of Spain

Right wing terrorism in the United States The unique combination of a genuinely historical focus and truly global coverage makes this an ideal introductory textbook for anyone interested in the study of terrorism

Labor, Class, and the International System Alejandro Portes, John Walton, 2013-09-17 Labor Class and the International System explores the interface between the labor process class structure and the global requirements of accumulation as a necessary complement to the analysis of capital and dominant institutions and focus on this interaction to clarify some of the apparent contradictions and bring the general models in line with empirical reality The book provides analysis of concepts and hypotheses derived from general theory with available empirical knowledge on each particular topic Each chapter addresses problem areas namely international migration pre capitalist modes of production and the reproduction of the urban labor force and dominant ideologies of inequality and class structure Sociologists political scientists economists researchers and students of international studies will find the book very interesting and insightful

Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment Introduction

In today's digital age, the availability of Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain

books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment books and manuals for download and embark on your journey of knowledge?

FAQs About Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment is one of the best book in our library for free trial. We provide copy of Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Reluctant Rebels Comparative Studies Of Revolution And Underdevelopment.
