Reluctant Nation Australia And The Allied Defeat Of Japan 1942 45:

Reluctant Nation David Day, 1992 Based on private diaries and confidential papers this study traces the spread of World War II across the Pacific It reinterprets standard assumptions regarding the war in Europe and the eventual involvement of the USA in World War II as well as the effect of the war in Australia *Australian National Bibliography: 1992* National Library of Australia, 1988 **Australia's War 1939-45** Joan Beaumont, 2020-09-10 The Second World War was a dominant experience in Australian history For the first time the country faced the threat of invasion The economy and society were mobilised to an unprecedented degree with 550 000 men and women or one in twelve of a population of over 7 million serving in the armed forces overseas Social patterns and family life were disrupted Politically the war gave a new legitimacy to the Australian Labor Party which had been confined to the wilderness of the Opposition at the Federal level for most of the inter war years The powers of the Federal government increased and a new momentum for social reform was generated at the popular and governmental level In the international sphere the war fundamentally shook Australian confidence in the power on which it had relied for generations Great Britain It generated a sense of independence in Australian foreign policy and initiated a new if halting and problematic realignment towards the United States In this accessible book Joan Beaumont Kate Darian Smith David Lee David Lowe Marnie Haig Muir Roy Hay and David Walker consider the range of Australia's experience of this conflict In a single volume they draw together the many aspects of the war and distil the current state of historical scholarship Australia's War 1939 45 will be invaluable to tertiary students and of enormous interest to the reader concerned with the social political and military history of Australia A companion volume on the First World War is also available *Australian Foreign Policy in Asia* Allan Patience, 2017-12-12 This book sets out to discuss what kind of middle power Australia is and whether its identity as a middle power negatively influences its relationship with Asia It looks at the history of the middle power concept develops three concepts of middle power status and examines Australia's relationships with China Japan and Indonesia as a focus It argues that Australia is an awkward partner in its relations with Asia due to both its historical colonial and discriminatory past as well its current dependence upon the United States for a security alliance It argues this should be changed by adopting a new middle power concept in Australian foreign policy **The Allure of Battle** Cathal Nolan, 2017-01-02 History has tended to measure war's winners and losers in terms of its major engagements battles in which the result was so clear cut that they could be considered decisive Cannae Konigsberg Austerlitz Midway Agincourt all resonate in the literature of war and in our imaginations as tide turning But these legendary battles may or may not have determined the final outcome of the wars in which they were fought Nor has the genius of the so called Great Captains from Alexander the Great to Frederick the Great and Napoleon play a major role Wars are decided in other ways Cathal J Nolan's *The Allure of Battle* systematically and engrossingly examines the great battles tracing what he calls short war thinking the hope that victory might be swift and wars brief As he proves persuasively however such has

almost never been the case Even the major engagements have mainly contributed to victory or defeat by accelerating the erosion of the other side's defences Massive conflicts the so called people's wars beginning with Napoleon and continuing until 1945 have consisted of and been determined by prolonged stalemate and attrition industrial wars in which the determining factor has been not military but material Nolan's masterful book places battles squarely and mercilessly within the context of the wider conflict in which they took place In the process it help corrects a distorted view of battle's role in war replacing popular images of the battles of annihilation with somber appreciation of the commitments and human sacrifices made throughout centuries of war particularly among the Great Powers Accessible provocative exhaustive and illuminating *The Allure of Battle* will spark fresh debate about the history and conduct of warfare *Australia's Empire* Deryck Marshall Schreuder, Stuart Ward, 2008-02-07 Australia's Empire is the first collaborative evaluation of Australia's imperial experience in more than a generation Bringing together political cultural and aboriginal understandings of the past it argues that the legacies of empire continue to influence the fabric of modern Australian society **Did Singapore Have to Fall?** Karl Hack, Kevin Blackburn, 2003-11-20 First time all the factors concerning the Fall of Singapore have been examined in one place Churchill's controversial role in the surrender is also examined **The Ghost Mountain Boys** James Campbell, 2008-09-30 A harrowing portrait of a largely forgotten campaign that pushed one battalion to the limits of human suffering Despite their lack of jungle training the 32nd Division's Ghost Mountain Boys were assigned the most grueling mission of the entire Pacific campaign in World War II to march over the 10 000 foot Owen Stanley Mountains to protect the right flank of the Australian army during the battle for New Guinea Reminiscent of the classics like *Band of Brothers* and *The Things They Carried* *The Ghost Mountain Boys* is part war diary part extreme adventure tale and through letters journals and interviews part biography of a group of men who fought to survive in an environment every bit as fierce as the enemy they faced Theirs is one of the great untold stories of the war Superb Chicago Sun Times Campbell started out with history but in the end he has written a tale of survival and courage of near mythic proportions America in WWII magazine In this compelling and sprightly written account Campbell shines a long overdue light on the equally deserving heroes of the Red Arrow Division Military.com **Churchill and Australia** Graham Freudenberg, 2008-11-01 Australia seemed to bring out the worst in Winston Churchill Often enough to form a discernible pattern Australia found itself on the wrong side of the very qualities his strength of will singleness of purpose his refusal to give way in things great or small large or petty the power of his imagination to set grim reality at defiance his mastery of the English language that made Winston Churchill as the philosopher Isaiah Berlin described him the saviour of his country the largest human being of his time Winston Churchill was a titan of the 20th Century universally acknowledged as one of the greatest leaders of his age Yet his relationship with Australia was a fraught one tainted by the military failure of the Gallipoli campaign in the First War and the disaster of Singapore in the Second Churchill the patrician descendant of dukes could not appreciate Australia's dearly held

egalitarianism while Churchill the imperial statesman was impatient and at times intolerant of Australia's growing urge towards independence. The relationship between the two would span the first 50 tumultuous years of the 20th Century from the Boer War through to opening salvos of the Cold War and act as a fascinating backdrop to Australia's maturity from a collection of autonomous colonies to full nationhood. Written with extraordinary narrative verve and relying on exhaustive research and a true insider's knowledge of the political world this is history written at its compelling best. Winner of the Walkley Award for Non fiction 2008 *The Battle of the Bismarck Sea* Michael Veitch, 2021-07-28 Readers look for and admire good writers and great writing. They will find it in spades in *The Battle of the Bismarck Sea*. The Canberra Times. In the thick of World War II during the first week of March 1943 Japan made a final desperate lunge for control of the South West Pacific. In the ensuing Battle of the Bismarck Sea a force of land based Australian and American planes attacked a massive convoy of Japanese warships. The odds were against them. But a devastating victory was won and Japan's hopes of regaining the initiative in New Guinea destroyed. More importantly for Australians the victory decisively removed any possibility that Australia might be invaded by Japanese forces. It was for us one of the most significant times in our history a week when our future was profoundly in the balance. Bestselling author Michael Veitch tells the riveting story of this crucial moment in history how the bravery of young men and experienced fighters, renegades and rule followers overcame some of the darkest days of World War II *Curtin's Empire* James Curran, 2011-01-31 John Curtin remains a venerated leader. His role as Labor's wartime supremo is etched deep into the national psyche the man who put Australia first, locked horns with Churchill, forged the alliance with the United States and became the saviour of the nation in its darkest hour. Drawing on new archival material including sensitive and private correspondence from Curtin never before seen or quoted *Curtin's Empire* shows that this British world vision was not imposed on him from abroad rather it animated Curtin from deep within. Since entering politics Curtin had fought a bitter battle with his opponents both inside and outside his party over loyalty, identity and national security. At stake was how he and his party related to the defining idea of Australian politics for their times: Britishness *Australia And The British Embrace* Stuart Ward, 2016-10-18 Until a generation ago Britishness lay at the heart of Australian political culture. How and why did this fundamental idea lose its meaning for Australians and their political institutions? The popular view is that the British ideal succumbed to a triumphant long thwarted Australian nationalism. The reality is much more complex. Having weighed the documentary evidence Stuart Ward vigorously argues that it was not Australia but the Mother Country that set the pace. The critical move was the Macmillan Government's decision in the early 1960s to seek membership of the European Economic Community. Thereafter the ties of imperial sentiment and the dictates of national self interest were essentially irreconcilable. Australia's attachment to being British was profoundly shaken and the contours of Australian nationhood were irreversibly redrawn. *Australia and the British Embrace* is an engrossing account of the unravelling of Britishness in Australian political life. The consequences of that unravelling continue to

dominate Australian politics from multiculturalism to Aboriginal reconciliation engagement with Asia and above all the prospect of a republic

Containing the Cold War in East Asia Peter Lowe, 1997 Examines the transitional years during which Britain's vital role in the formulation of Western policies declined markedly and that simultaneously marked the take off period of the Cold War Covers the communist victory in China the conclusion of the allied occupation of Japan with the restoration of sovereignty to the Japanese state and the Korean War Addresses Anglo American relations and the strains caused by the differing attitudes of the two countries towards East Asia suggesting that while Great Britain did not determine Western policies in East Asia it did exert moderating influence on the US on significant occasions Annotation copyrighted by Book News Inc Portland OR

Return to Victory James P. Duffy, 2021-03-16 General Douglas MacArthur's bloody campaign to defeat the hard Japanese forces and liberate the Philippines I shall return General Douglas MacArthur promised the Filipino people following the Japanese invasion and occupation of the Philippines in spring 1942 The people there believed MacArthur's vow and even Americans were stirred by his dramatic pledge Now two and half years later MacArthur was ready to fulfill his promise the liberation of the Philippines was about to begin It would not be an easy campaign The more than 7 000 islands of the Philippine archipelago were the key to taking down the Japanese Empire and the Imperial forces were prepared to sacrifice every man and every ship to prevent MacArthur from regaining control of them Covering both the strategic and tactical aspects of the campaign through the participation of its soldiers sailors and airmen as well as its commanders James P Duffy leads readers through a vivid account of the nearly year long bloody campaign to defeat over a quarter million die hard Japanese defenders in the Pacific theater Return to Victory is a wide ranging dramatic and stirring account of MacArthur's epic liberation of the Philippines

Man of the Century John Ramsden, 2002 Man of the Century is the often surprising story of how Winston Churchill in the last years of his life carefully crafted his reputation for posterity revealing him to be perhaps the twentieth century's first and most gifted spin doctor Ramsden draws on fresh material and extensive research on three continents to argue that the statesman's force of personality and romantic imperial notion of Britain has contributed directly to many of the political debates of the last decades including American involvement in Vietnam and the role of the Anglo American alliance in promoting and protecting a certain vision of world order

Australia 1944-45 Peter J. Dean, 2016 Thoroughly researched and generously illustrated Australia 1944 45 is the compelling final instalment in Peter Dean's Pacific War series

The British World Carl Bridge, Kent Fedorowich, 2004-11-23 This collection of essays is based upon the assumption that the British Empire was held together not merely by ties of trade and defence but by a shared sense of British identity that linked British communities around the globe Focusing on the themes of migration identity and the media this book is an exploration of these and other interconnected themes that help define the British World of the late 19th and 20th centuries

Divided Allies Thomas K. Robb, David James Gill, 2019-11-15 By directly challenging existing accounts of post World War II relations among the United States of America the United Kingdom

Australia and New Zealand Divided Allies is a significant contribution to transnational and diplomatic history. At its heart, Divided Allies examines why strategic cooperation among these closely allied Western powers in the Asia Pacific region was limited during the early Cold War. Thomas K Robb and David James Gill probe the difficulties of security cooperation as the leadership of these four states balanced intramural competition with the need to develop a common strategy against the Soviet Union and the new communist power, the People's Republic of China. Robb and Gill expose contention and disorganization among non-communist allies in the early phase of containment strategy in Asia Pacific. In particular, the authors note the significance of economic, racial, and cultural elements to planning for regional security and they highlight how these domestic matters resulted in international disorganization. Divided Allies shows that amidst these contentious relations, the antipodean powers Australia and New Zealand occupied an important role in the region and successfully utilized quadrilateral diplomacy to advance their own national interests, such as the crafting of the 1951 ANZUS collective security treaty. As fractious as were allied relations in the early days of NATO, Robb and Gill demonstrate that the post-World War II Asia Pacific was as contentious and that Britain and the commonwealth nations were necessary partners in the development of early global Cold War strategy.

Reader's Guide to Military History Charles Messenger, 2013-10-31. This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations. Designed for a wide variety of users, it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts. The book examines naval and air warfare as well as significant individuals, including commanders, theorists, and war leaders. Each entry includes a listing of additional publications on the topic, accompanied by an article discussing these publications with reference to their particular emphases, strengths, and limitations.

Defence and Decolonisation in South-East Asia Karl Hack, 2013-12-16. This book explains why British defence policy and practice emerged as it did in the period 1941-67 by looking at the overlapping of colonial, military, economic, and Cold War factors in the area. Its main focus is on the 1950s and the decolonisation era, but it argues that the plans and conditions of this period can only be understood by tracing them back to their origins in the fall of Singapore. Also, it shows how decolonisation was shaped not just by British aims but by the way communism, communalism, and nationalism facilitated and frustrated these.
