Remaking Beijing Wu Hung, 2005 Tiananmen Square is the most sacred space in Beijing a site for Mao's monumental portrait for museums parades and more recently for violent demonstrations Wu Hung grew up in Beijing and witnessed its transformation In this lavishly illustrated work he offers a vivid often personal account of the struggle over Beijing's reinvention and offers new insights into the city's history The final part of the book is devoted to paintings photographs and performances by artists that take issue with the political and cultural meanings of Tiananmen Square and official efforts of repression **BOOK JACKET**

A Guide to Spatial History Konrad Lawson, Riccardo Bavaj, Bernhard Struck, 2022-01-07 This guide provides an overview of the thematic areas analytical aspects and avenues of research which together form a broader conversation around doing spatial history Spatial history is not a field with clearly delineated boundaries For the most part it lacks a distinct unambiguous scholarly identity It can only be thought of in relation to other typically more established fields Indeed one of the most valuable utilities of spatial history is its capacity to facilitate conversations across those fields Consequently it must be discussed in relation to a variety of historiographical contexts Each of these have their own intellectual genealogies institutional settings and conceptual path dependencies With this in mind this guide surveys the following areas territoriality infrastructure and borders nature environment and landscape city and home social space and political protest spaces of knowledge spatial imaginaries cartographic representations and historical GIS research

The Red Guard Generation and Political Activism in China Guobin Yang, 2016-05-17 Raised to be flowers of the nation the first generation born after the founding of the People's Republic of China was united in its political outlook and at first embraced the Cultural Revolution of 1966 but then split into warring factions Investigating the causes of this fracture Guobin Yang argues that Chinese youth engaged in an imaginary revolution from 1966 to 1968 enacting a political mythology that encouraged violence as a way to prove one's revolutionary credentials This same competitive dynamic would later turn the Red Guard against the communist government Throughout the 1970s the majority of Red Guard youth were sent to work in rural villages where they developed an appreciation for the values of ordinary life From this experience an underground cultural movement was born Rejecting idolatry these relocated revolutionaries developed a new form of resistance that signaled a new era of enlightenment culminating in the Democracy Wall movement of the late 1970s and the Tiananmen protest of 1989 Yang's final chapter on the politics of history and memory argues that contemporary memories of the Cultural Revolution are factionalized along these lines of political division formed fifty years before

The Design of Protest Tali Hatuka, 2018-08-02 Public protests are a vital tool for asserting grievances and creating temporary yet tangible communities as the world becomes more democratic and urban in the twenty first century While the political and social aspects of protest have been extensively studied little attention has been paid to the physical spaces in which protests happen Yet place is a crucial aspect of protests influencing the dynamics and engagement patterns among participants In

The Design of Protest Tali Hatuka offers the first extensive discussion of the act of protest as a design that is a planned event in a space whose physical geometry and symbolic meaning are used and appropriated by its organizers who aim to challenge socio spatial distance between political institutions and the people they should serve Presenting case studies from around the world including Tiananmen Square in Beijing the National Mall in Washington DC Rabin Square in Tel Aviv and the Plaza de Mayo in Buenos Aires Hatuka identifies three major dimensions of public protests the process of planning the protest in a particular place the choice of spatial choreography of the event including the value and meaning of specific tactics and the challenges of performing contemporary protests in public space in a fragmented complex and conflicted world Numerous photographs detailed diagrams and plans complement the case studies which draw upon interviews with city officials urban planners and protesters themselves

Mao Cult Daniel Leese, 2011-10-31 Although many books have explored Mao's posthumous legacy none has scrutinized the massive worship that was fostered around him during the Cultural Revolution This book is the first to do so By analyzing secret archival documents Daniel Leese traces the history of the cult within the Communist Party and at the grassroots level The party leadership's original intention was to develop a prominent brand symbol which would compete with the nationalists elevation of Chiang Kai shek However they did not anticipate that Mao would use this symbolic power to mobilize Chinese youth to rebel against party bureaucracy itself The result was anarchy and when the army was called in it relied on mandatory rituals of worship such as daily reading of the Little Red Book to restore order Such fascinating detail sheds light not only on the personality cult of Mao but also on hero worship in other traditions

China After Mao Frank Dikötter, 2022-11-15 A blow by blow account An important corrective to the conventional view of China's rise Financial Times From internationally renowned historian Frank Dikötter winner of the Samuel Johnson Prize a myth shattering history of China from the death of Chairman Mao to Xi Jinping Through decades of direct experience of the People's Republic combined with extraordinary access to hundreds of hitherto unseen documents in communist party archives the author of *The People's Trilogy* offers a riveting account of China's rise from the disaster of the Cultural Revolution He takes us inside the country's unprecedented four decade economic transformation from rural villages to industrial metropolises and elite party conclaves that vaulted the nation from 126th largest economy in the world to second largest A historian at the pinnacle of his field Dikötter challenges much of what we think we know about how this happened Casting aside the image of a society marching unwaveringly toward growth in lockstep to the beat of the party drum he recounts instead a fascinating tale of contradictions illusions and palace intrigue of disasters narrowly averted shadow banking anti corruption purges and extreme state wealth existing alongside everyday poverty He examines China's navigation of the 2008 financial crash its increasing hostility towards perceived Western interference and its development into a thoroughly entrenched dictatorship with a sprawling security apparatus and the most sophisticated surveillance system in the world As this magisterial book makes clear the communist party's goal was never to join the democratic world

but to resist it and ultimately defeat it

The Spirit of Cities Daniel A. Bell, Avner de-Shalit, 2013-10-27 A lively and personal book that returns the city to political thought Cities shape the lives and outlooks of billions of people yet they have been overshadowed in contemporary political thought by nation states identity groups and concepts like justice and freedom The Spirit of Cities revives the classical idea that a city expresses its own distinctive ethos or values In the ancient world Athens was synonymous with democracy and Sparta represented military discipline In this original and engaging book Daniel Bell and Avner de Shalit explore how this classical idea can be applied to today's cities and they explain why philosophy and the social sciences need to rediscover the spirit of cities Bell and de Shalit look at nine modern cities and the prevailing ethos that distinguishes each one The cities are Jerusalem religion Montreal language Singapore nation building Hong Kong materialism Beijing political power Oxford learning Berlin tolerance and intolerance Paris romance and New York ambition Bell and de Shalit draw upon the richly varied histories of each city as well as novels poems biographies tourist guides architectural landmarks and the authors own personal reflections and insights They show how the ethos of each city is expressed in political cultural and economic life and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism The Spirit of Cities is unreservedly impressionistic Combining strolling and storytelling with cutting edge theory the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences It is a must read for lovers of cities everywhere In a new preface Bell and de Shalit further develop their idea of civic pride the pride city dwellers feel for their city and its ethos over that of others

The Palgrave Handbook of Urban Ethnography Italo Pardo, Giuliana B. Prato, 2017-11-14 These

ethnographically based studies of diverse urban experiences across the world present cutting edge research and stimulate an empirically grounded theoretical reconceptualization The essays identify ethnography as a powerful tool for making sense of life in our rapidly changing complex cities They stress the point that while there is no need to fetishize fieldwork or to view it as an end in itself its unique value cannot be overstated These active engaged researchers have produced essays that avoid abstractions and generalities while engaging with the analytical complexities of ethnographic evidence Together they prove the great value of knowledge produced by long term fieldwork to mainstream academic debates and more broadly to society

Aesthetics of the Margins / The Margins of Aesthetics David Carrier, Joachim Pissarro, 2020-04-17 Wild Art refers to work that exists outside the established rarified world of art galleries and cultural channels It encompasses uncatalogued uncommodified art not often recognized as such from graffiti to performance self adornment and beyond Picking up from their breakthrough book on the subject Wild Art David Carrier and Joachim Pissarro here delve into the ideas driving these forms of art inquire how it came to be marginalized and advocate for a definition of taste one in which each expression is acknowledged as being different while deserving equal merit Arguing that both the art world and wild art have the same capacity to produce aesthetic joy Carrier and Pissarro contend that watching skateboarders perform Christ Air for example produces the same sublime experience in one audience that another enjoys while taking in a ballet therefore both mediums deserve careful reconsideration In making their case the two provide a history of the institutionalization of taste in Western thought point to missed opportunities for its democratization in the past and demonstrate how the recognition and acceptance of wild art in the present will radically transform our understanding of contemporary visual art in the future Provocative and optimistic Aesthetics of the Margins The Margins of Aesthetics rejects the concept of kitsch and the high low art binary ultimately challenging the art world to become a larger and more inclusive place

The Red Flag David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its

ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

Becoming China Jeanne-Marie Gescher,2017-11-09 An account of China s past and present how a small group of people at the edges of the Yellow River evolved to become the state of China today Despite decades of a relatively open door relationship with the rest of the world China is still a mystery to many outside it How does China work what does it want why does it want it and what does its rise to global power mean for the rest of the world As the twenty first century looks set to be the stage for a battle about competing geopolitical ideals these are urgent questions for everyone with an interest in what the future might bring A world of its own China is both a microcosm and an amplification of questions and events in the wider world China s story offers us an opportunity to hold a mirror to ourselves to our own assumptions to our values and to our ideas about the most important question of all what it means to be human in the world of the state Epic in scope this is the story of how China became the state it is today and how its worldview is based on what has gone before Weaving together inspirations ideas wars and dreams Jeanne Marie Gescher reveals the heart of what it means to be Chinese and how the past impacts the present

Online Society in China David Kurt Herold,Peter Marolt,2011-03-25 This book discusses the rich and varied culture of China s online society and its impact on offline China It argues that the internet in China is a separate space in which individuals and institutions emerge and interact While offline and online spaces are connected and influence each other the Chinese internet is more than merely a technological or media extension of offline Chinese society Instead of following existing studies by locating online China in offline society the contributors in this book discuss the carnival of the Chinese internet on its own terms Examining the complex relationship between government officials and the people using the Internet in China this book demonstrates that culture is highly influential in how technology is used Discussing a wide range of different activities the contributors examine what Chinese people actually do on the internet and how their actions can be

interpreted within the online society they are creating **The Forbidden City** Geremie Barmé, 2008 Barmé peels away the veneer of power secrecy inscrutability and passions of imperial China to provide a new and original history of the culture politics and architecture of the Forbidden City an extraordinary attraction which encapsulates much of the country's history Sunday Telegraph *The Forbidden City* Geremie R. Barmé, Geremie Barmé, 2011-06-01 The Forbidden City Zijin Cheng lying at the heart of Beijing formed the hub of the Celestial Empire for five centuries Over the past century it has led a reduced life as the refuge for a deposed emperor as well as a heritage museum for monarchist republican and socialist citizens and it has been celebrated and excoriated as a symbol of all that was magnificent and terrible in dynastic China's legacy *China at War* Hans van de Ven, 2018-02-12 China's mid twentieth century wars pose extraordinary interpretive challenges The issue is not just that the Chinese fought for such a long time from the Marco Polo Bridge Incident of July 1937 until the close of the Korean War in 1953 across such vast territory As Hans van de Ven explains the greatest puzzles lie in understanding China's simultaneous external and internal wars Much is at stake politically in how this story is told Today in its official history and public commemorations the People's Republic asserts Chinese unity against Japan during World War II But this overwrites the era's stark divisions between Communists and Nationalists increasingly erasing the civil war from memory Van de Ven argues that the war with Japan the civil war and its aftermath were in fact of a piece a singular process of conflict and political change Reintegrating the Communist uprising with the Sino Japanese War he shows how the Communists took advantage of wartime to increase their appeal how fissures between the Nationalists and Communists affected anti Japanese resistance and how the fractious coalition fostered conditions for revolution In the process the Chinese invented an influential paradigm of war wherein the Clausewitzian model of total war between well defined interstate enemies gave way to murky campaigns of national liberation involving diverse domestic and outside belligerents This history disappears when the realities of China's mid century conflicts are stripped from public view China at War recovers them

Places of Memory in Modern China Marc Andre Matten, 2011-12-09 In the last decades the scholarship on issues of national and cultural identity of China has been constantly on the rise This edited volume aims at addressing these issues by applying Pierre Nora's approach of places of memory lieux de mémoire to the Chinese context The volume assembles a number of articles that focus on the most significant places of memory in modern and contemporary China ranging from Qin Shihuang's Terracotta Warriors to the Chiang Kai shek Memorial Hall The genesis and nature of these places are discussed in detail by combining approaches of both cultural and historical sciences In addition issues of cultural memory and politics are addressed in order to question the ideological construction of these places
