Remaking Of The British Working Class 1840 1940:

The Remaking of the British Working Class, 1840-1940 Andrew Miles, Mike Savage, 2013-02-01 Mike Savage and Andrew Miles provide a comprehensive introduction to the working class in Britain in the years after 1840 This textbook Includes a provocative timely and clear defence of class analysis Breaks new ground in showing how social mobility and urban change affected working class formation Demonstrates how the history of the working class is politically reconstructed Shows how class and gender interact in mediating social and political change *Change, Continuity and Class* Neville Kirk, 1998 EU security governance assesses the effectiveness of the EU as a security actor The book has two distinct features Firstly it is the first systematic study of the different economic political and military instruments employed by the EU in the performance of four different security functions The book demonstrates that the EU has emerged as an important security actor not only in the non traditional areas of security but increasingly as an entity with force projection capabilities Secondly the book represents an important step towards redressing conceptual gaps in the study of security governance particularly as it pertains to the European Union The book links the challenges of governing Europe's security to the changing nature of the state the evolutionary expansion of the security agenda and the growing obsolescence of the traditional forms and concepts of security cooperation *Leisure, citizenship and working-class men in Britain, 1850-1940* Brad Beaven, 2013-07-19 From the bawdy audience of a Victorian Penny Gaff to the excitable crowd of an early twentieth century football match working class male leisure proved to be a contentious issue for contemporary observers For middle class social reformers from across the political spectrum the spectacle of popular leisure offered a view of working class habits and a means by which lifestyles and behaviour could be assessed For the mid Victorians gingerly stepping into a new mass democratic age the desire to create a bond between the recently enfranchised male worker and the nation was more important than ever This trend continued as those in governance perceived that good leisure and citizenship could fend off challenges to social stability such as imperial decline the mass degenerate city hooliganism civic and voter apathy and fascism Thus between 1850 and 1945 the issue of male leisure became enmeshed with changing contemporary debates on the encroaching mass society and its implications for good citizenry Working class culture has often been depicted as an atomised and fragmented entity lacking any significant cultural contestation Drawing on a wealth of primary and secondary source material this book powerfully challenges these recent assumptions and places social class centre stage once more Arguing that there was a remarkable continuity in male working class culture between 1850 and 1945 Beaven contends that despite changing socio economic contexts male working class culture continued to draw from a tradition of active participation and cultural contestation that was both class and gender exclusive This lively and readable book draws from fascinating accounts from those who participated in and observed contemporary popular leisure making it of importance to students and teachers of social history popular culture urban history historical geography historical sociology and cultural studies Leisure, Citizenship and

Working-class Men in Britain, 1850-1945 Brad Beaven, 2005 From the bawdy audience of a Victorian Penny Gaff to the excitable crowd of an early twentieth century football match working class male leisure proved to be a contentious issue for contemporary observers For middle class social reformers from across the political spectrum the spectacle of popular leisure offered a view of working class habits and a means by which lifestyles and behaviour could be assessed For the mid Victorians gingerly stepping into a new mass democratic age the desire to create a bond between the recently enfranchised male worker and the nation was more important than ever This trend continued as those in governance perceived that good leisure and citizenship could fend off challenges to social stability such as imperial decline the mass degenerate city hooliganism civic and voter apathy and fascism Thus between 1850 and 1945 the issue of male leisure became enmeshed with changing contemporary debates on the encroaching mass society and its implications for good citizenry Working class culture has often been depicted as an atomised and fragmented entity lacking any significant cultural contestation Drawing on a wealth of primary and secondary source material this book powerfully challenges these recent assumptions and places social class centre stage once more Arguing that there was a remarkable continuity in male working class culture between 1850 and 1945 Beaven contends that despite changing socio economic contexts male working class culture continued to draw from a tradition of active participation and cultural contestation that was both class and gender exclusive This lively and readable book draws from fascinating accounts from those who participated in and observed contemporary popular leisure making it of importance to students and teachers of social history popular culture urban history historical geography historical sociology and cultural studies

The Lancashire Working Classes c.1880-1930 Trevor Griffiths, 2001-10-04 This book examines the experiences and values which shaped working class life in Britain in the half century from 1880 It takes as its focus a region Lancashire which was central to the social and political changes of the period The discussion centres on two towns Bolton and Wigan which while they were geographically close differed significantly in their industrial fortunes and their electoral development The formation of class identity is traced through developments in the world of work from the

impact of technological and managerial innovations to the elaboration of collective bargaining procedures Beyond work particular attention is paid to the dynamics of neighbourhood and family life the latter emerging as an important source of continuity in working class life The broader impact of such influences are traced through a close examination of the electoral politics of the period Dr Griffiths conclusions fundamentally challenge the notion that the fifty years around the turn of the century witnessed the emergence of a working class more culturally and politically united than at any other time either before or since Rather an alternative narrative of class development is offered in which broad continuities in working class life in particular the survival of religious ethnic and occupational points of division are emphasised Despite the presence of strong and stable labour institutions from trade unions to Co operative and Friendly Societies the picture emerges of a working class more individualist than collectivist in outlook more flexible in response to economic change and less constrained by the broader solidarities of work and neighbourhood than has previously been supposed

The Working Class in Britain John Benson, 2003-08-22 Who made up the working class in Britain who were the ordinary men and women and what were their aspirations The first generation of postwar British labour historians tended to be preoccupied with working class activism This text attempts to chart not only this struggle but to describe and analyse the rich and varied tapestry of working class history as a whole It demonstrates that class both existed and mattered although ordinary men and women had diverse lives and lifestyles Professor Benson examines work wages incomes and the cost of living family kinship and community relations and the individual in the context of nation and class

Death, Grief and Poverty in Britain, 1870-1914 Julie-Marie Strange, 2005-07-25 With high mortality rates it has been assumed that the poor in Victorian and Edwardian Britain did not mourn their dead Contesting this approach Julie Marie Strange studies the expression of grief among the working class demonstrating that poverty increased rather than deadened it She illustrates the mourning practices of the working classes through chapters addressing care of the corpse the funeral the cemetery commemoration and high infant mortality rates The book draws on a broad range of sources to analyse the feelings and behaviours of the labouring poor using not only personal testimony but also fiction journalism and official reports It concludes that poor people did not only use spoken or written words to express their grief but also complex symbols actions and significantly silence This book will be an invaluable contribution to an important and neglected area of social and cultural history

Young Women, Work, and Family in England 1918-1950 Selina Todd, 2005-09-22 This fascinating account of young women's lives challenges existing assumptions about working class life and womanhood in England between the end of the First World War and the beginning of the 1950s While contemporaries commonly portrayed young women as pleasure loving leisure consumers this book argues that the world of work was in fact central to their life experiences Social and economic history are woven together to examine the working family and social lives of the maids factory workers shop assistants and clerks who made up the majority of England's young women Selina Todd traces the complex interaction between class gender and

locale that shaped young women's roles at work and home indicating that paid work structured people's lives more profoundly than many social histories suggest. Rich autobiographical accounts show that while poverty continued to constrain life choices, young women also made their own history. Far from being apathetic workers or pliant consumers, they forged new patterns of occupational and social mobility. In working class homes, developed a distinct youth culture and acted as workplace militants. In doing so, they helped to shape twentieth century society.

Crime Control and Everyday Life in the Victorian City David Churchill, 2017. The history of modern crime control is usually presented as a narrative of how the state wrested control over the governance of crime from the civilian public. Most accounts trace the decline of a participatory discretionary culture of crime control in the early modern era and its replacement by a centralized bureaucratic system of responding to offending. The formation of the new professional police forces in the nineteenth century is central to this narrative; henceforth, it is claimed, the priorities of criminal justice were to be set by the state as ordinary people lost what authority they had once exercised over dealing with offenders. This book challenges this established view and presents a fundamental reinterpretation of changes to crime control in the age of the new police. It breaks new ground by providing a highly detailed empirical analysis of everyday crime control in Victorian provincial cities, revealing the tremendous activity which ordinary people displayed in responding to crime alongside a rich survey of police organization and policing in practice. With unique conceptual clarity, it seeks to reorient modern criminal justice history away from its established preoccupation with state systems of policing and punishment and move towards a more nuanced analysis of the governance of crime. More widely, the book provides a unique and valuable vantage point from which to rethink the role of civil society and the state in modern governance, the nature of agency and authority in Victorian England and the historical antecedents of pluralized modes of crime control which characterize contemporary society.

Alternatives to State-Socialism in Britain Peter Ackers, Alastair J. Reid, 2016-12-01. This book poses a major revisionist challenge to 20th century British labour history, aiming to look beyond the Marxist and Fabian exclusion of working class experience, notably religion and self-help, in order to exaggerate labour movement class cohesion. Instead of a forward march to secular state socialism, the research presented here is devoted to a rich diversity of social movements and ideas. In this collection of essays, the editors establish the liberal pluralist tradition with the following chapters covering three distinct sections: Part One, Other Forms of Association, covers subjects such as trade unions, the Co-operative Party, women's community activism and Protestant Nonconformity; Part Two, Other Leaders, covers employer Edward Cadbury, Trades Union Congress leader Walter Citrine and the electricians' leader Frank Chapple; Part Three, Other Intellectuals, considers G. D. H. Cole, Michael Young and left libertarianism by Stuart White. Readers interested in the British Labour movement will find this an invaluable resource.

Family Britain, 1951-1957 David Kynaston, 2010-12-01. As in his highly acclaimed *Austerity Britain*, David Kynaston invokes an astonishing array of vivid, intimate and unselfconscious voices to drive his narrative of 1950s Britain. The keen

eyed Nella Last shops assiduously at Barrow Market as austerity and rationing gradually give way to relative abundance housewife Judy Haines relishing the detail of suburban life brings up her children in Chingford the self absorbed civil servant Henry St John perfects the art of grumbling These and many other voices give a rich unsentimental picture of everyday life in the 1950s Well known figures are encountered on the way such as Doris Lessing joining and later leaving the Communist Party John Arlott sticking up on Any Questions for the rights of homosexuals and Tiger s Roy of the Rovers making his goal scoring debut for Melchester All this is part of a colourful unfolding tapestry in which the great national events the Tories returning to power the death of George VI the Coronation of Queen Elizabeth the Suez Crisis jostle alongside everything that gave Britain in the 1950s its distinctive flavour Butlin s holiday camps Kenwood food mixers Hancock s Half Hour Ekco television sets Davy Crockett skiffle and teddy boys Deeply researched David Kynaston s Family Britain offers an unrivalled take on a largely cohesive ordered still very hierarchical society gratefully starting to move away from the painful hardships of the 1940s towards domestic ease and affluence

British Trade Unions and Industrial Politics John McIlroy, Nina Fishman, Alan Campbell, 2018-10-04 First published in 1999 this book discusses trade unionism in Britain from 1964 to 1979 Detailing political change in British politics from union strikes to Thatcherism in the late 1970s and the implications that had on trade unions and industrial politics

Social Mobility in Nineteenth- and Early Twentieth-Century England A. Miles, 1999-04-12 This pioneering book provides the first systematic historical analysis of occupational and social mobility in England Using a collection of over 10 000 marriage certificates to examine inter generational change and almost 500 autobiographical texts and abstracts to explore the dynamics of career mobility it shows how the development of the nineteenth century economy was accompanied by rising rates of mobility which made English society more open while at the same encouraging a distinct process of working class formation

Urban Politics and Space in the Nineteenth and Twentieth Centuries Barry M. Doyle, 2009-10-02 This book addresses the increasing regionalisation of urban governance and politics in an era of industrialisation suburbanisation and welfare extension It provides an important reassessment of the role structure and activities of urban elites highlighting their vitality and their interdependence and demonstrating the increasing regionalisation of municipal politics as towns sought to promote themselves extend services and even expand physically onto a regional level Moreover it explores the discourses surrounding space in which gender class morality and community all feature prominently How urban space and its uses were defined and redefined became key political weapons across the regions of England in the nineteenth century and these chapters show how a range of sources maps poems songs paintings illustrated journalism social investigations historical texts were employed by contemporaries to shape the urban and its image often by placing it in a regional context or contributing to the creation of a regional image and identity This collection illustrates the continuing vitality of the study of urban politics and governance and presents a rare attempt to place English urban history in a regional context Barry Doyle has assembled an impressive team of experts on urban politics to

examine not just party politics but the wider machinery of government the boards agencies and committees that shaped British towns and cities after 1830 Space and place were contested and negotiated and a distinctive sense of local identity emerged In so doing the collection challenges some of the generalisations about the governance of urban Britain and reminds us that despite a shrinking globe the local and regional are crucial to our everyday lives The book should be read by all interested in and especially those working for local government Professor Richard Rodger University of Edinburgh In *Urban Politics and Urban Space in the Nineteenth and Twentieth Centuries Regional Perspectives* Barry Doyle brings together nine original essays by both established and younger authors to explore three inter related themes in urban history politics space and region from the early to mid nineteenth century to the mid twentieth century The book is conveniently divided into three sections dealing with structures of politics politics institutions and urban management and governance discourses and space Each of the contributions to this volume promises to both enrich our knowledge of specific moments in British politico urban development through the study of discrete developments in time and space and to open up and extend the debate on the British variant of urban modernity Each examines the ways in which local power space and regional relations developed and changed between the early nineteenth and mid twentieth century Localities their politics and communal identities are never really far from a national context indeed they largely shaped it as these essays make clear Doyle is to be commended for his endeavour not just as the editor but in particular for his introduction to the volume In a richly referenced essay that comes in at just over seven and half thousand words he casts a panoramic view over the field in the last few decades making connections where few contemporary urban historians care to tread Doyle gives us a forceful challenge to what he sees as a particularly English malaise in this period namely that of failing to recognise the potential of regional and local government to shape and manage the major reallocation of space and power a vital sphere of public life that is contemporary to our own times It is a masterly and well informed piece of writing that will set the standard for some years to come Professor Anthony McElligott University of Limerick

Visions of empire Brad Beaven, 2017-02-01 The emergence of a vibrant imperial culture in British society from the 1890s both fascinated and appalled contemporaries It has also consistently provoked controversy among historians This book offers a ground breaking perspective on how imperial culture was disseminated It identifies the important synergies that grew between a new civic culture and the wider imperial project Beaven shows that the ebb and flow of imperial enthusiasm was shaped through a fusion of local patriotism and a broader imperial identity Imperial culture was neither generic nor unimportant but was instead multi layered and recast to capture the concerns of a locality The book draws on a rich seam of primary sources from three representative English cities These case studies are considered against an extensive analysis of seminal and current historiography This renders the book invaluable to those interested in the fields of imperialism social and cultural history popular culture historical geography and urban history

Social Class and Marxism Neville Kirk, 2017-07-05 In recent years historians and other social scientists have widely questioned the continued

relevance of social class as historical relationship as sociological category as philosophical concept and in terms of its enduring political significance The success of the British Conservative Party since 1979 combined with the weaknesses and failures of the Labour movement have led historians and social scientists to reconsider the general nature of connections between the social and the political and the specific relations between the working class and socialist and Labour politics This collection of essays is a multi disciplinary critique of the new revisionism which demonstrates the continued vitality and promise of non reductionist and non determinist modes of class analysis

Masculinity, Class and Same-Sex Desire in Industrial England, 1895-1957 Helen Smith, 2015-10-05 Masculinity Class and Same Sex Desire in Industrial England 1895 1957 explores the experiences of men who desired other men outside of the capital In doing so it offers a unique intervention into the history of sexuality but it also offers new ways to understand masculinity working class culture regionality and work in the period

Political Change and the Rise of Labour in Comparative Perspective Mary Hilson, 2006-01-01 A comparative analysis of social change democratization and the development of modern party politics in Britain and Sweden during the period 1880 1930 this book presents the similarities of political changes in these two countries at this time and also in the wider European context with particular reference to the emergence of social democracy as a political current

The Littlehampton Libels Christopher Hilliard, 2017-06-09 The Littlehampton Libels tells the story of a poison pen mystery that led to a miscarriage of justice in the years following the First World War There would be four criminal trials before the real culprit was finally punished with the case challenging the police and the prosecuting lawyers as much any capital crime When a leading Metropolitan Police detective was tasked with solving the case he questioned the residents of the seaside town of Littlehampton about their neighbours vocabularies how often they wrote letters what their handwriting was like whether they swore and how they swore for the letters at the heart of the case were often bizarre in their abuse The archive that the investigation produced shows in extraordinary detail how ordinary people could use the English language in inventive and surprising ways at a time when universal literacy was still a novelty Their personal lives too had surprises The detective s inquiries and the courtroom dramas laid bare their secrets and the intimate details of neighbourhood and family life Drawing on these records The Littlehampton Libels traces the tangles of devotion and resentment desire and manipulation in a working class community We are used to emotional complexity in books about the privileged but history is seldom able to recover the inner lives of ordinary people in this way
