German Protestants Remember the Holocaust K. Hannah Holtschneider, 2001 Focusing on the 1980s 90s examines how Protestants in Germany interpret their self understanding as part of the community which is defined by its connection to the Nazi past Analyzes representations of the Holocaust and of the Christian Jewish relationship in three German Protestant theological texts the 1980 statement of the Rhineland synod of the Evangelical Church Zur Erneuerung des Verhältnisses von Christen und Juden Marquardt's theological text Von Elend und Heimsuchung der Theologie Prolegomena zur Dogmatik 1992 and Britta Jüngst's dissertation Auf der Seite des Todes das Leben 1996 The analysis of these texts is informed by the development of narratives of collective memory of the Holocaust in German society in the 1980s 90s from the miniseries Holocaust to the Goldhagen controversy All three texts admit the responsibility of Christianity and Christians for the Holocaust and build theologies that do not reject Jews Contents that contrary to their stated intentions most Holocaust theologians do not truly listen to the Jewish perspective Calls on practitioners of theology after Auschwitz to embrace Jews and Judaism in order to restore the credibility of Christian Churches which abandoned the Jews in Auschwitz

National and Transnational Memories of the Kindertransport Amy Williams, William Niven, Bill Niven, 2023 The first transnational study of the memory of the Kindertransport and the first to explore how it is represented in museums memorials and commemorations The Kindertransport the rescue of ca 10 000 Jewish children from the Nazi sphere of control and influence before the Second World War has often been framed as a British story This book recognizes that even though most of the Kinder were initially brought to the UK and many stayed it was more than that It therefore compares British memory of the Kindertransport to that of other host nations the US Canada Australia and New Zealand It is the first book to ask how the Kindertransport is remembered both in the countries of origin particularly Germany and in the host nations as well as the first to analyze how it is represented in museums memorials and commemorations Seeing memory of the Kindertransport in the host nations and in Germany as significantly different the study argues that the different national memory discourses around the Nazi persecution of Jews shape the respective countries images of the Kindertransport and that those images in turn shape the discourses especially in Britain Yet while national memory frameworks remain crucial to how the Kindertransport is remembered the book also documents the increasing significance of transnational memory trends that link the host nations with each other and with the countries from
