Gallagher,2019-03-06 Civil War Writing is a collection of new essays that focus on the most significant writing about the American Civil War by participants who lived through it whether as civilians or combatants southerners or northerners women or men blacks or whites Collectively as contributors show these writings have sustained their influence over generations and include histories memoirs journals novels and one literary falsehood posing as an autobiographical narrative Several of the works such as William Tecumseh Sherman's memoirs or Mary Chesnut's diary are familiar to scholars but other accounts including Charlotte Forten's diary and Loreta Velasquez's memoir offer new material to even the most omnivorous Civil War reader In all cases a deeper look at these writings reveals why they continue to resonate with audiences more than 150 years after the end of the conflict As supporting evidence for historical and biographical narratives and as deliberately designed communications the writings discussed in this collection demonstrate considerable value Whether exploring the differences among drafts and editions listening closely to fluctuations in tone or voice or tracing

responses in private correspondence or published reviews the essayists examine how authors wrote to different audiences and out of different motives creating a complex literary record that offers rich potential for continuing evaluation of the country's greatest national trauma Overall the essays in *Civil War Writing* underscore how participants employed various literary forms to record describe and explain aspects and episodes of a conflict that assumed proportions none of them imagined possible at the outset

Dunkelman, 2012-04-02 *Marching with Sherman* Through Georgia and the Carolinas with the 154th New York presents an innovative and provocative study of the most notorious campaigns of the Civil War Union General William Tecumseh Sherman's devastating 1864 March to the Sea and the 1865 Carolinas Campaign The book follows the 154th New York regiment through three states and chronicles 150 years from the start of the campaigns to their impact today Mark H Dunkelman expands on the brief accounts of Sherman's marches found in regimental histories with an in depth look at how one northern unit participated in the campaigns and how they remembered them decades later Dunkelman also includes the often overlooked perspective of southerners most of them women who encountered the soldiers of the 154th New York In examining the postwar reminiscences of those staunch Confederate daughters Dunkelman identifies the myths and legends that have flourished in the South for more than a century *Marching with Sherman* concludes with Dunkelman's own trip along the 154th New York's route through Dixie echoing the accounts of previous travelers and examining the memories of the marches that linger today

The Art and Science of Reminiscing Jeffrey D. Webster, Barbara Haight, 2013-02-01 Although recognition of reminiscing as a potentially adaptive process can be traced back over 30 years to the seminal work of Robert Butler as discussed in the Foreword there has been little effort to consolidate the work and paint a complete picture of reminiscing as an entity Here reminiscing is presented as a multi disciplinary topic examining the theory of and research on reminiscing The book also discusses the different ways of conducting life review interviews and explores therapeutic applications Contributors to this book many of whom are pioneers and leading figures in the field discuss and elaborate their latest thinking and research findings from multiple perspectives The volume's strength derives from its multi disciplinary nursing psychiatry psychology gerontology community advocacy and multinational Australia Canada England Sweden and the United States treatment James Birren Irene Burnside and Phillipe Cappeliez are a few of the eminent scholars authoring this volume

Genres of Mark Jacob P. B. Mortensen, 2022-11-14 One of the most fundamental questions when reading and trying to understand New Testament texts is the question of genre It is impossible to understand a text its meaning and intention in its proper historical setting if one does not understand its genre As an example interpreting a satirical text without understanding the genre would no doubt lead to grave misunderstandings The same logic applies to texts from the New Testament and the matter is complicated even further by the immense historical gap between the time of the genesis of the New Testament canon and now The problem of the New Testament texts genre's is therefore a vital area of scholarly discussion within international New Testament scholarship The current volume

utilizes the newest insights from current research on the New Testament to cast new light on the question of the genre of Mark's Gospel. Here prominent international New Testament scholars discuss how we should understand the genre of Mark's Gospel thus making an important contribution to international scholarship on the Gospel of Mark as well as the Gospel genre in general. *Fire in the Forest* Robert W.
