Reminiscences of Reading, by an octogenarian [W.S. Darter]. William Silver Darter, 1889 British Museum Catalogue of printed Books, 1893 Dictionary of Anonymous and Pseudonymous English Literature Samuel Halkett, 1971 *Town and Countryside* C.W. Chalklin, J.R. Wordie, 2025-06-02 During the eighteenth century England's landowners played a vital role in the growth of the national economy First published in 1989 Town and Countryside draws together important research on the ways in which both urban and rural landed classes promoted this growth in industry commerce and agriculture It offers the student and specialist new perspectives on the economic and social history of early modern England The book discusses the acquisition and management of landed estates the importance of corporate landowners in urban development and the role of landowners in industry and commerce Examples are taken from major cities such as Bristol Birmingham Reading and Liverpool and from a range of country landowners from Devon to Berkshire and Shropshire A substantial introduction draws these case studies together to link the social and political framework the prevailing economic philosophy fiscal policy and the nation's rate of economic growth Illustrated with maps and contemporary drawings this is a distinctive contribution to English economic and social history which will be welcomed

by teachers and students alike **Whiggery and Reform, 1830-41** Ian Newbold, 1990-06-18 This is a study of the parliamentary history of the Whigs during the Age of Reform describing the extent to which both Grey and Melbourne's governments with Peel's assistance attempted to safeguard the interests of the landed aristocracy while allowing for moderate reforms in Church and State A Bibliography of British Municipal History, Including Gilds and Parliamentary Representation Charles Gross, 1897 **Simeon & Church Order** Charles Hugh Egerton Smyth, *Religion and Voluntary Organisations in Crisis* Stephen Yeo, 2022-05-29 First published in 1976 *Religion and Voluntary Organisations in Crisis* analyses the experience of late nineteenth and early twentieth century organised religion by setting it in the context of the whole range of voluntary and other organisations. It provides a detailed study of churches and chapels in Reading set alongside the experience of a biscuit factory football club, the hospital, the university, the WEA branch, the Social Democratic Federation, the Coop and the other organisations. The interweaving of religion into the broad social history of the town gives a detailed and exciting picture of the social development of late nineteenth century England. It shows the part that religion had to play in the life of the locality in a very different society from our own and it explores the pressures on religion in the changing phases of capitalist development. This book is an essential read for scholars and researchers of religion, sociology of religion and history **A Bibliography of British Municipal History** Charles Gross, 1897 Dictionary of Anonymous and Pseudonymous English Literature: Q-S Samuel Halkett, John Laing, 1929 Simeon and Church Order Charles Smyth, 2015-01-29 Originally published in 1940, this book assesses the contributions made by Charles Simeon to the Evangelical Revival in Cambridge in the eighteenth century 1820 Malcolm Chase, 2016-05-16 Integrating in detail the experiences of both Britain and Ireland, *1820* provides a compelling narrative and analysis of the United Kingdom in a year of European revolution. It charts the events and forces that tested the government almost to its limits and the processes and mechanisms through which order was maintained. This book will be required reading for everyone interested in late Georgian and early nineteenth century Britain or Ireland. *1820* is about much more than a single year. Locating the Queen Caroline divorce crisis within a broader analysis of the challenges confronting the government, it places that much investigated episode in a new light. It illuminates both the pivotal Tory Ministry under Lord Liverpool and the Whigs by turns febrile and feeble who opposed it. It is also a major contribution to our understanding of popular radicalism and its political containment The Year of Waterloo Stephen Bates, 2015-01-29 1815 was the year of Waterloo, the British victory that ended Napoleon's European ambitions and ushered in a century largely of peace for Britain. But what sort of country were Wellington's troops fighting for? And what kind of society did they return to? Stephen Bates paints a vivid portrait of every aspect of Britain in 1815. Overseas, the bounds of Empire were expanding while at home the population endured the chill of economic recession. As Jane Austen busied herself with the writing of *Emma*, John Nash designed Regent Street, Humphrey Davy patented his safety lamp for miners and Lord's cricket ground held its first match in St John's Wood and a nervous government infiltrated

dissident political movements and resorted to repressive legislation to curb free speech The Year In series gets to the heart of social and cultural life in the UK at key points in its history **Ordering Law** Clare Graham,2017-05-15 Over the last thirty years historical studies of building types have become something of a growth area As well as such general surveys as Nikolaus Pevsner s History of Building Types there are growing numbers of studies of individual types of which the most distinguished perhaps remain Mark Girouard s Life in the English Country House and Robin Evan s study of prisons The Fabrication of Virtue This growth is not surprising because the subject lends itself to the New Art History and to our increasing desire to set buildings within their social and cultural contexts as well as their stylistic and cultural ones This book by Dr Graham is a comprehensive study of a type of building the law court which has to date remained largely unexplored Ordering Law establishes when why and how the trial came to be housed in purpose built accommodation in England and what was architecturally distinctive about that accommodation in the period leading up to 1914 The main text concentrates on examining in depth a series of well documented individual buildings and groups of buildings using a wide range of contemporary sources to illuminate the way in which they were designed and used Other information gleaned about court buildings nationwide is placed in an appendix in gazetteer form originally drawn from the 200 or so examples listed in the Buildings of England guides this has expanded to include over 800 entries As a piece of scholarly research this work draws on several disciplines and will be of interest to those studying social and legal history as well as those with a broader interest in architectural history *England's Revelry* Emma Griffin,2005-08-11 Because the poor lacked land of their own public spaces were needed for their sports and pastimes **Quarterly Journal of the Berks Archaeological and Architectural Society** Berkshire Archaeological Society,1889 *The Publisher* ,1904
