**The Reminiscences of Edmund Evans** ,1967      Serial Revolutions 1848 Clare Pettitt,2022-02-10 1848 was a pivotal moment not only in Europe but in much of the rest of the world too Marx s scornful dismissal of the revolutions created a historiography for 1848 that has persisted for more than 150 years Serial Revolutions 1848 shows how far from being the failure that Karl Marx claimed them to be the revolutions of 1848 were a powerful response to the political failure of governments across Europe to care for their people Crucially this revolutionary response was the result of new forms of representation and mediation until the ragged and the angry could see themselves represented and represented as a serial phenomenon such a political consciousness was impossible By the 1840s the developments in printing transport and distribution discussed in Clare Pettitt s Serial Forms The Unfinished Project of Modernity 1815 1848 Oxford University Press 2020 had made the social visible in an unprecedented way This print revolution led to a series of real and bloody revolutions in the streets of European cities The revolutionaries of 1848 had the temerity to imagine universal human rights and a world in which everyone could live without fear hunger or humiliation If looked at like this the events of 1848 do not seem such poor incidents as Marx described them nor such an embarrassing failure after all Returning to 1848 we can choose to look back on that springtime of the peoples as a moment of tragicomic failure obliterated by the brutalities that followed or we can look again and see it as a prophetic moment of stored potential an extraordinary series of events that generated long distance and sustainable ideas about global citizenship international co operation and a shared and common humanity which have not yet been fully understood or realised      Visualizing Africa in Nineteenth-Century British Travel Accounts Leila Koivunen,2008-11-19 This study provides the first sustained analysis of the process by which images of Africa were transformed into the illustrations of the continent that appeared in nineteenth century European travel books Koivunen examines the actual production process of images and the books in which they were published in order to demonstrate how why and by whom the images were manipulated      The reminiscences of edmund evans, edited by ruari mclean Edmund Evans,Ruari (editor) Mclean,1967      Bread Winner Emma Griffin,2020-04-14 The overlooked story of how ordinary women and their husbands managed financially in the Victorian era and why so many struggled despite increasing national prosperityNineteenth century Britain saw remarkable economic growth and a rise in real wages But not everyone shared in the nation s wealth Unable to earn a sufficient income themselves working class women were reliant on the breadwinner wage of their husbands When income failed or was denied or squandered by errant men families could be plunged into desperate poverty from which there was no escape Emma Griffin unlocks the homes of Victorian England to examine the lives and finances of the people who lived there Drawing on over 600 working class autobiographies including more than 200 written by women Bread Winner changes our understanding of daily life in Victorian Britain      **The Cambridge Companion to Children's Literature** M. O. Grenby,Andrea Immel,2009-12-10 Some of the most innovative and spell

W. Sinnema, 2019-01-04 Originally published in 1998 Dynamics of the Pictured Page provides a critical study of the world s first regularly illustrated newspaper the Illustrated London News founded by Herbert Ingram in 1842 Focusing on the first decade of this enormously influential weekly this book situates the ILN within the publishing history of periodicals arguing not only for a better understanding of those new modes of production engendered by an illustrated newspaper but also for the need to theorize the relations between engraved images and printed text that constituted the ILN which advertised itself as an unprecedented marriage between art and literature Through a series of interpretive interventions that focus on categories that would have had especially powerful reverberations for Victorian readers for example the home the railway the public funeral and serialized literature this book traces the newspaper s complex strategies of appeal to a middle class English readership This book will appeal to students of nineteenth century literature and history especially those with an interest in publishing history and the history of the press as well as to Victorian studies scholars      **The Reminiscences**

Devereux,2016-08-02 When women were admitted to the Royal Academy Schools in 1860 female art students gained a  
foothold in the most conservative art institution in England The Royal Female College of Art the South Kensington Schools  
and the Slade School of Fine Art also produced increasing numbers of women artists Their entry into a male dominated art  
world altered the perspective of other artists and the public They came from disparate levels of society Princess Louise the  
fourth daughter of Queen Victoria studied sculpture at the National Art Training School yet they all shared ambition talent  
and courage Analyzing their education and careers this book argues that the women who attended the art schools during the  
1860s and 1870s including Kate Greenaway Elizabeth Butler Helen Allingham Evelyn De Morgan and Henrietta Rae  
produced work that would accommodate yet subtly challenge the orthodoxies of the fine art establishment Without their  
contributions Victorian art would be not simply the poorer but hardly recognizable to us today     Victorian Popularizers of  
Science Bernard Lightman,2010-05 The ideas of Charles Darwin and his fellow Victorian scientists have had an abiding effect  
on the modern world But at the time The Origin of Species was published in 1859 the British public looked not to practicing  
scientists but to a growing group of professional writers and journalists to interpret the larger meaning of scientific theories  
in terms they could understand and in ways they could appreciate Victorian Popularizers of Science focuses on this important  
group of men and women who wrote about science for a general audience in the second half of the nineteenth century  
Bernard Lightman examines more than thirty of the most prolific influential and interesting popularizers of the day
