Renaissance Murder:

Death by Cyanide Paula Reed Ward, 2016-10-04 At just forty one years old Dr Autumn Klein a neurologist specializing in seizure disorders in pregnant women had already been named chief of women s neurology at Pittsburgh s largest health system More than just successful in her field Dr Klein was beloved by her patients colleagues family and friends She collapsed suddenly on April 17 2013 writhing in agony on her kitchen floor and died three days later The police said her husband Dr Robert Ferrante twenty three years Klein s senior killed her through cyanide poisoning Though Ferrante left a clear trail of circumstantial evidence Klein s death from cyanide might have been overlooked if not for the investigators who were able to use Ferrante s computer statements from the staff at his lab and his own seemingly odd actions at the hospital during his wife s treatment to piece together what appeared to be a long term plan to end his wife s life In *Death by Cyanide* Paula Reed Ward reporter for the Pittsburgh Post Gazette describes the murder investigation and the trial in this sensational case taking us from the poisoning and the medical staff s heroic measures to save Klein s life to the investigation of Ferrante and the emotion and drama inside the courtroom

The "counterfeit" Man Gerald W. McFarland, 1993 When Russell Colvin disappeared in 1812 no one in Manchester thought much of it He tended after all to wander But by 1819 people began to suspect Stephen and Jesse Boorn of murdering their brother in law To understand why so many neighbors believed the Boorns innocent for so long and why seven years passed before town authorities launched an investigation of Colvin s disappearance it is of course important to learn what facts were known when and by whom However it is equally important to ascertain how these facts were interpreted and why they were interpreted as they were What in other words was it about Russell Colvin the Boorns and the town of Manchester that shaped the public s response in such a way that an official inquiry into Colvin s disappearance was delayed so long Or did it all have to do with ghostly sightings of Colvin

to expect the rich and famous to behave better to commit fewer crimes to be immune to the passions that inspire other less prominent people to kill After all the rich and famous have everything why would they need to murder But the rich and famous kill for the very same reasons others do love power money jealousy greed revenge and rage Here Scott takes us on a tour of murders committed by the rich and famous during the last century looking at the motives the responses of the community and local law enforcement the media and the outcomes She argues that the rich and famous may kill for the same reasons as others but they receive vastly different treatment and are often able to get away with murder Homicide by the rich and famous is not new in this country nor is fascination with the crimes committed by our most revered citizens But being among the upper echelon of society does afford such suspects with a greater ability to escape punishment They have greater access to better representation they have the means to flee the country they have influential friends in high places willing to put themselves on the line and they are generally treated better by law enforcement and the criminal justice system This book profiles the many ways in which homicides committed by the rich and famous are similar to other murders in their motives but differ from those committed by everyday citizens in their outcomes Scott provides readers with a showcase of crimes that will infuriate and fascinate readers
