Renaissance Architecture:

Renaissance Architecture Christy Anderson, 2013-02-28 The Renaissance was a diverse phenomenon marked by innovation and economic expansion the rise of powerful rulers religious reforms and social change Encompassing the entire continent Renaissance Architecture examines the rich variety of buildings that emerged during these seminal centuries of European history Although marked by the rise of powerful individuals both patrons and architects the Renaissance was equally a time of growing group identities and communities and architecture provided the public face to these new identities Religious reforms in northern Europe spurred on by Martin Luther rejected traditional church function and decoration and proposed new models Political ambitions required new buildings to satisfy court rituals Territory nature and art intersected to shape new landscapes and building types Classicism came to be the international language of an educated architect and an ambitious patron drawing on the legacy of ancient Rome Yet the richness of the medieval tradition continued to be used throughout Europe often alongside classical buildings Examining each of these areas by turn this book offers a broad cultural history of the period as well as a completely new approach to the history of Renaissance architecture The work of well known architects such as Michelangelo and Andrea Palladio is examined alongside lesser known though no less innovative designers such as Juan Guas in Portugal and Benedikt Ried in Prague and Eastern Europe Drawing on the latest research it also covers more recent areas of interest such as the story of women as patrons and the emotional effect of Renaissance buildings as well as the impact of architectural publications and travel on the emerging new architectural culture across Europe As such it provides a compelling introduction to the subject for all those interested in the history of architecture society and culture in the Renaissance and European culture in general **Studies in Italian Renaissance Architecture** Wolfgang Lotz, 1977

Building Renaissance Venice Richard John Goy, 2006-01-01 This book brings to life the story of the construction of some of the most outstanding early Renaissance buildings in Venice Through a series of individual case studies Richard J Goy explores how and why great buildings came to be built He addresses the practical issues of constructing such buildings as the Torre dell Orologio in Piazza San Marco the Arsenale Gate and the churches of Santa Maria della Carita and San Zaccaria focusing particular attention on the process of patronage The book is the first to trace the complete process of creating important buildings from the earliest conception in the minds of the patrons the Venetian state or other institutional patrons through the choice of architect the employment of craftsmen and the selection of materials In an interesting analysis of the participants roles Goy highlights the emerging importance of the superintending master the protomaestro **Italian Renaissance Architecture** Henry A. Millon, 1996 These essays consider both architecture and urban planning in late medieval and Renaissance Italy and French and German Renaissance architecture stage designs and the relationship of architecture with the other arts The works are analyzed historically from the viewpoint of both the humanist Renaissance theories and of modern critical reappraisals Reproducing and describing numerous designs projects and manuscripts by

Brunelleschi Alberti Michelangelo and Bramante among others this volume presents a panorama of civil and religious masterworks by those who created European architecture **Italian Renaissance Architecture** Georges Gromort,1922

The Renaissance from Brunelleschi to Michelangelo Henry A. Millon,Vittorio Magnago Lampugnani,1994 The paragons of the Italian Renaissance Brunelleschi Alberti Michelangelo Bramante among them were almost without exception architects not only in practice but also in the private spheres of their imaginations Their architectural plans fantasies and models as much as the finished buildings are the records of their extraordinary creative endeavours Published in conjunction with a major exhibition at the Palazzo Grassi Venice this book presents a panorama of civil and religious masterworks and the ideas behind them by the geniuses who changed the face of European architecture in the form of their fascinating models plans and designs Essays by Carl Frommel Richard Krautheimer James Ackerman and other distinguished contributors consider architecture architectural modelling and urban planning in late medieval and Renaissance Italy reaching as far back as ancient Rome to uncover the roots of this great tradition The works are analyzed historically from the dual viewpoint of Renaissance humanism and modern critical reappraisal The essays cover French and German Renaissance architecture as well as Italian and also consider architecture s relationship with other arts such as stage design painting and sculpture Numerous designs projects and manuscripts some never before published are reproduced and described Architecture provided a medium for some of the greatest minds of the Italian Renaissance and their work set the pattern for all subsequent development in Europe The idiom they created is here given expression in the most complete and detailed corpus ever published on the subject BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
