study of local demographics and topographies this study considers patterns of piety charity and patronage and by extension the development of art and architecture in Siena s southern contado during the thirteenth and fourteenth centuries *Garrisoning the Borderlands of Medieval Siena* describes Sant Angelo in Colle as a designated castello di frontiera under the Sienese Government of the Nine 1287 1355 against the background of Siena s military and economic buoyancy during the early fourteenth century At the same time mining thoroughly the Tax Record of 1320 and the Boundary Registration of 1318 and presenting a large number of individual records that have not been published before including wills tenancy agreements land exchange and sharecropping contracts the author constructs a portrait of the people buildings and surrounding countryside of Sant Angelo in Colle Finally adopting the methodological approach of first considering patterns of ownership of land and property in the context of identifying potential patrons of art the study considers patterns of piety and charity established in the early fourteenth century village and the extent to which these affected the development of the urban fabric and the embellishment of key buildings in medieval Sant Angelo in Colle **The Stylus and the Scalpel** Tommaso Gazzarri,2020-09-21 Seneca s developed metaphors draw on what is known to describe the unknown They put hard ethical in highly accessible and often quite entertaining terms The present book provides a functional description of Seneca s

dialectical relation between metaphorical language and philosophy It shows how Stoic philosophy finds a new means of expression in Seneca s highly elaborated rhetorical discourse and how this relates to the social and cultural demands of Neronian culture Metaphors are purposely utilized to work collectively rather than by category or type and that therefore the analysis of what metaphors do when Seneca chooses to combine them in clusters demonstrates the existence of a metanarrative of rhetoric This approach is fundamentally innovative and has the advantage of gauging the functioning of Senecan style as a whole rather than focusing on single features of its rhetorical functioning The main target is to show how philosophical preaching materially contributes to the healing of human soul because it shapes the individual s cognitive faculty in a way that is physical and not simply figurative The stylus and the scalpel blend in their functions This kind of therapy is not just the simulacrum of a more real one it is in itself medical in nature
