Renaissance Of Medicine In Italy:

The Renaissance of Medicine in Italy Arturo Castiglioni, 1934 Medicine and the Italian Universities, 1250-1600 Siraisi, 2022-02-07 This volume collects essays published in the last 20 years They deal with medicine in the university world of thirteenth to sixteenth century Italy discussing both the internal academic milieu of teaching and learning and its relation to the lively urban social economic and cultural context in which medieval and Renaissance Italian university medicine grew up Topics covered include the complex interaction of continuity and change in the transition from scholastic to humanistic medicine humanist presentations of medical lives the activities of physicians who moved among the worlds of academic learning princely courts and city life the teaching of practical medicine the relations of medical and surgical learning and practice and the influence on medical writing of a variety of elements in the broader surrounding intellectual culture

Avicenna in Renaissance Italy Nancy G. Siraisi, 2014-07-14 The Canon of Avicenna one of the principal texts of Arabic origin to be assimilated into the medical learning of medieval Europe retained importance in Renaissance and early modern European medicine After surveying the medieval reception of the book Nancy Siraisi focuses on the Canon in sixteenth and early seventeenth century Italy and especially on its role in the university teaching of philosophy of medicine and physiological theory Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Medieval and Early Renaissance Medicine Nancy G. Siraisi, 2009-05-15 Western Europe supported a highly developed and diverse medical community in the late medieval and early Renaissance periods In her absorbing history of this complex era in medicine Siraisi explores the inner workings of the medical community and illustrates the connections of medicine to both natural philosophy and technical skills

The Professor of Secrets William Eamon, 2010-07-20 In the tradition of Galileo's Daughter and Brunelleschi's Dome this exciting story illuminates the captivating world of the late Renaissance in this case its plagues remedies and alchemy through the life of Leonardo Fioravanti a brilliant remarkably forward thinking and utterly unconventional doctor Fioravanti's marvelous cures and talent for self aggrandizement earned him the adoration of the people the scorn of the medical establishment and a reputation as one of the age's most colorful combative figures Written by Pulitzer prize nominated historian William Eamon The Professor of Secrets entices readers into a dangerous scientific underworld of sorcerers and surgeons Meticulously researched and engagingly written this gripping narrative will appeal to those interested in Renaissance history the development of science and the historical thrillers so popular today Report of the President of the Johns Hopkins University, Baltimore, Maryland Johns Hopkins University, 1929 **Routledge Revivals:**

Medieval Italy (2004) Christopher Kleinhenz, 2017-07-05 First published in 2004 Medieval Italy An Encyclopedia provides an introduction to the many and diverse facets of Italian civilization from the late Roman empire to the end of the fourteenth century It presents in two volumes articles on a wide range of topics including history literature art music urban development commerce and economics social and political institutions religion and hagiography philosophy and science This illustrated A Z reference is a cross disciplinary resource and will be of key interest not only to students and scholars of history but also to those studying a range of subjects as well as the general reader *The SAGE Encyclopedia of Theory in Science, Technology, Engineering, and Mathematics* James Mattingly, 2022-09-21 The SAGE Encyclopedia of Theory is a landmark work that examines theory in general and the broad split between the hard and soft sciences a split that is being re examined as approaches to scientific questions become increasingly multidisciplinary *The Renaissance of Medicine in Italy* Arturo Castiglioni, 1934 **The Renaissance Hospital** Fellow at King's College Cambridge and Teaches Classics John Henderson, John Henderson, Reader in Latin Literature Cambridge University and Fellow John Henderson, 2006-01-01 John Henderson takes us into the Renaissance hospitals of Florence recreating the enormous barn like wards and exploring the lives of those who received and those who administered treatment there **The Routledge History of Madness and Mental Health** Greg Eghigian, 2017-04-07 This volume explores the history and historiography of madness from the ancient and medieval worlds to the present day Covering Africa Asia and South America as well as Europe and North America chapters discuss broad topics such as the representation of madness in literature and the visual arts the material culture of madness madness within life histories and the increased globalization of knowledge and treatment practices Chronologically and geographically wide ranging and providing a fascinating overview of the current state of the field this is essential reading for all students of the history of madness mental health psychiatry and medicine Medieval Italy Christopher Kleinhenz, 2004-08-02 This Encyclopedia gathers together the most recent scholarship on Medieval Italy while offering a sweeping view of all aspects of life in Italy during the Middle Ages This two volume illustrated A Z reference is a cross disciplinary resource for information on literature history the arts science philosophy and religion in Italy between A D 450 and 1375 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Medieval Italy An Encyclopedia website **Catalog of Printed Books of the Folger Shakespeare Library, Washington, D.C.** Folger Shakespeare Library, 1970 **The Western Medical Tradition** Lawrence I. Conrad, 1995-08-17 This text written by members of the Wellcome Institute for the History of Medicine and first published in 1995 is designed to cover the history of western medicine from classical antiquity to 1800 As one guiding thread it takes as its title suggests the system of medical ideas that in large part went back to the Greeks of the eighth century BC and played a major role in the understanding and treatment of health and disease Its influence spread from the Aegean basin to the rest of the Mediterranean region to Europe and then to European settlements overseas By the nineteenth century

however this tradition no longer carried the same force or occupied so central a position within medicine This book charts the influence of this tradition examining it in its social and historical context It is essential reading as a synthesis for all students of the history of medicine *The Late Medieval Age of Crisis and Renewal, 1300-1500* Clayton J. Drees, 2000-11-30 As part of a unique series covering the grand sweep of Western civilization from ancient to present times this biographical dictionary provides introductory information on 315 leading cultural figures of late medieval and early modern Europe Taking a cultural approach not typically found in general biographical dictionaries the work includes literary philosophical artistic military religious humanistic musical economic and exploratory figures Political figures are included only if they patronized the arts and coverage focuses on their cultural impact Figures from western European countries such as Italy France England Iberia the Low Countries and the Holy Roman Empire predominate but outlying areas such as Scotland Scandinavia and Eastern Europe are also represented Late medieval Europe was an age of crisis With the Papacy removed to Avignon the schism in the Catholic Church shook the very core of medieval belief The Hundred Years War devastated France The Black Death decimated the population Yet out of this crisis grew an age of renewal leading to the Renaissance The great Italian city states developed Humanism reawakened interest in the cultures of ancient Greece and Rome Dante and Boccaccio began writing in their Tuscan vernacular Italian artists became humanists and flourished As the genius of Italy began spreading to northern and western Europe at the end of the 15th century the age of renewal was completed This book provides thorough basic information on the major cultural figures of this tumultuous era of crisis and renewal *Health, Disease and Society in Europe, 1500-1800* Peter Elmer, Ole Peter Grell, 2004-03-09 The period from the Renaissance to the Enlightenment constitutes a vital phase in the history of European medicine Elements of continuity with the classical and medieval past are evident in the ongoing importance of a humor based view of medicine and the treatment of illness At the same time new theories of the body emerged in the seventeenth and eighteenth centuries to challenge established ideas in medical circles In recent years scholars have explored this terrain with increasingly fascinating results often revising our previous understanding of the ways in which early modern Europeans discussed the body health and disease In order to understand these and related processes historians are increasingly aware of the way in which every aspect of medical care and provision in early modern Europe was shaped by the social religious political and cultural concerns of the age

Evidence in the Age of the New Sciences James A.T. Lancaster, Richard Raiswell, 2018-10-24 The motto of the Royal Society Nullius in verba was intended to highlight the members rejection of received knowledge and the new place they afforded direct empirical evidence in their quest for genuine useful knowledge about the world But while many studies have raised questions about the construction reception and authentication of knowledge Evidence in the Age of the New Sciences is the first to examine the problem of evidence at this pivotal moment in European intellectual history What constituted evidence and for whom Where might it be found How should it be collected and organized What is the relationship between

evidence and proof These are crucial questions for what constitutes evidence determines how people interrogate the world and the kind of arguments they make about it In this important new collection Lancaster and Raiswell have assembled twelve studies that capture aspects of the debate over evidence in a variety of intellectual contexts From law and theology to geography medicine and experimental philosophy the chapters highlight the great diversity of approaches to evidence gathering that existed side by side in the sixteenth and seventeenth centuries In this way the volume makes an important addition to the literature on early science and knowledge formation and will be of particular interest to scholars and advanced students in these fields

European Sexualities, 1400-1800 Katherine Crawford, 2007-01-18 A pioneering survey of the social and cultural history of sexuality in early modern Europe

Edinburgh Companion to the Critical Medical Humanities Anne Whitehead, 2016-06-14 In this landmark Companion expert contributors from around the world map out the field of the critical medical humanities This is the first volume to introduce comprehensively the ways in which interdisciplinary thinking across the humanities and social sciences might contribute to critique and develop medical understanding of the human individually and collectively The thirty six newly commissioned chapters range widely within and across disciplinary fields always alert to the intersections between medicine as broadly defined and critical thinking Each chapter offers suggestions for further reading on the issues raised and each section concludes with an Afterword written by a leading critic outlining future possibilities for cutting edge work in this area Topics covered in this volume include the affective body biomedicine blindness breath disability early modern medical practice fatness the genome language madness narrative race systems biology performance the postcolonial public health touch twins voice and wonder Together the chapters generate a body of new knowledge and make a decisive intervention into how health medicine and clinical care might address questions of individual subjective and embodied experience

Authority, Gender, and Midwifery in Early Modern Italy Jennifer F. Kosmin, 2020-08-31 Authority Gender and Midwifery in Early Modern Italy Contested Deliveries explores attempts by church state and medical authorities to regulate and professionalize the practice of midwifery in Italy from the late sixteenth to the late eighteenth century Medical writers in this period devoted countless pages to investigating the secrets of women s sexuality and the processes of generation By the eighteenth century male practitioners in Britain and France were even successfully advancing careers as male midwives Yet female midwives continued to manage the vast majority of all early modern births An examination of developments in Italy where male practitioners never made successful inroads into childbirth brings into focus the complex social religious and political contexts that shaped the management of reproduction in early modern Europe Authority Gender and Midwifery in Early Modern Italy argues that new institutional spaces to care for pregnant women and educate midwives in Italy during the eighteenth century were not strictly medical developments but rather socio political responses both to long standing concerns about honor shame and illegitimacy and contemporary unease about population growth and productivity In so doing this book complicates our understanding of such

sites situating them within a longer genealogy of institutional spaces in Italy aimed at regulating sexual morality and protecting female honor It will be of interest to scholars of the history of medicine religious history social history and Early Modern Italy
