Comparative Mysticism Steven T. Katz,2013 This collection of primary texts introduces readers to the mystical literature of the world s great religious traditions Beginning with an introduction by Steven T Katz a leading scholar of mysticism the anthology comprises poetry prayer narrative and other writings from Jewish Christian Muslim Hindu Buddhist Taoist Confucianist and Native American traditions This collection provides readers not only with the primary mystical texts from each religious tradition but with an explanation of the context of the source and tradition Comparative Mysticism shows how the great mystical traditions of the world are deeply rooted in the religious traditions from which they originated The contextual methodological approach taken throughout the anthology also addresses the critical question of what these mystical traditions at their highest level have in common Despite the prevailing view that mystical traditions throughout the world are essentially similar the presentation of the sources in this volume suggests that in fact the various traditions have distinct teachings and different metaphysical goals The writings collected in Comparative Mysticism address the most fundamental and important methodological epistemological and hermeneutical questions regarding the study and

interpretation of mysticism and mystical sources across cultures This anthology will be an invaluable resource to students and scholars of mystic tradition for years to come *Rumi Mehrdad Rahmani, 2021-05-28* The foundation and elixir of life is Love and Rumi the great Iranian poet calls it The Scales of Divine Secretes Love is the root of all if the root rots then everything else decays When love is truly rooted in the mind and soul then nothing can fade or perish it More than any time in the history of mankind we need to free ourselves from Subjective Me which has contaminated our souls and dictates us the action to be taken in every step of the way Instead we ought to take paces toward Intrinsic Me which is well aware of what needs to be done The former originates from the imperious self and the latter emanates from Love and Respect which in turn restores the self in search of Truth of Life In more than 800 years ago you will be surprised to find that Rumi has repeatedly emphasized on the word Love in his 44000 couplets poetry sonnets book Contrary to his poetry sonnets quatrains are simple to understand delicate and lovely and with very powerful messages on how to live your life happily here and after In one of his quatrains he says to the self O Nothing Do not coil yourself over nothing for nothing What remains forever is just Love This signifies the fact that everything in life such as youth wealth beauty prestige dignity and so forth are perishable but love Don t be confused what he means here is that enjoy all the things that life has offered you for a better living but do not be attached Share your love with others and even things and respect their existence so that they return their love and respect back to you I strongly encourage everyone to read these 100 quatrains book to enjoy the benefit of his guidance in love and loving In addition you can learn some Farsi language words in a very small scale in a short time **Darvish** Linda L. Naimi, 2007-11 Darvish is a tale of love faith betrayal and revenge 1925 was a year of endings and beginnings The Qajar Dynasty ended in a bloodless coup giving rise to the rule of Reza Shah and the birth of the Pahlavi Dynasty And in the northern province of Gilan a young mother lay dying With her last breath she named the child cut from her womb Thus began the tragic life of Morteza Ali Tormented by a past he can not escape and a future that eludes him at every step Morteza Ali finds solace and guidance in the voices that speak to him in his darkest hours As Darvish a self proclaimed holy man he walks a slippery path between light and darkness Was he a messiah or a madman a martyr or a murderer The reader will be captivated by the power of ancient legends the timeless wisdom of parables and the beauty of Persian poetry that infuse and enrich this tragic tale Walk the path of Darvish Discover for yourself the fine line between majesty and tragedy the forces that shape the destinies of all men Poetry in a Global Age Jahan Ramazani, 2020-10-29 Ideas culture and capital flow across national borders with unprecedented speed but we tend not to think of poems as taking part in globalization Jahan Ramazani shows that poetry has much to contribute to understanding literature in an extra national frame Indeed the globality of poetry he argues stands to energize the transnational turn in the humanities Poetry in a Global Age builds on Ramazani s award winning A Transnational Poetics a book that had a catalytic effect on literary studies Ramazani broadens his lens to discuss modern and contemporary poems not only in relation to world literature war and questions of orientalism

but also in light of current debates over ecocriticism translation studies tourism and cultural geography He offers brilliant readings of postcolonial poets like Agha Shahid Ali Lorna Goodison and Daljit Nagra as well as canonical modernists such as W B Yeats Wallace Stevens T S Eliot and Marianne Moore Ramazani shows that even when poetry seems locally rooted its long memory of forms and words its connections across centuries continents and languages make it a powerful imaginative resource for a global age This book makes a strong case for poetry in the future development of world literature and global studies

Imperial Identity in the Mughal Empire Lisa Balabanlilar, 2015-12-13 Having monopolized Central Asian politics and culture for over a century the Timurid ruling elite was forced from its ancestral homeland in Transoxiana at the turn of the sixteenth century by an invading Uzbek tribal confederation The Timurids travelled south establishing themselves as the new rulers of a region roughly comprising modern Afghanistan Pakistan and northern India and founding what would become the Mughal Empire 1526 1857 The last survivors of the House of Timur the Mughals drew invaluable political capital from their lineage which was recognized for its charismatic genealogy and court culture the features of which are examined here By identifying Mughal loyalty to Turco Mongol institutions and traditions Lisa Balabanlilar here positions the Mughal dynasty at the centre of the early modern Islamic world as the direct successors of a powerful political and religious tradition
