*Sappho was a Right-on Woman* Sidney Abbott, Barbara Love, 1972 This is the first account written by women by Lesbians about themselves and their struggle For Lesbians as for most women today the present is experience as a collision between the past and future The first part of *Sappho Was a Right on Woman* What It Was Like deals with the past the guilt the shame the duplicity that are part of living in a society that condemns Lesbians when it cannot ignore them Temporary sanctuaries bars gay ghettos vacation spots and bizarre behavior are part of the past for some Lesbians and still very much part of the present for many The second part of the book *Living the Future* reflects profound change taking place within society the women s movement and most important within Lesbians themselves change that make it possible for them to stop making unnecessary apologies and start function as whole people Defying the present is still not easy the authors say but it is infinitely preferable to the self degradation society has gone to such pains to teach the Lesbian *Sappho Was a Right on Woman* speaks clearly honestly openly to those women and men homosexual and heterosexual oppressing and oppressed who are still living in the past It invites them to come out Out of their closets out of their unexamined prejudice and unresolved confusion and live into the future with an appreciation of both the differences and the common humanity necessary for constructive change Publisher s description on book jacket

[Her Neighbor's Wife](#) Lauren Jae Gutterman, 2019-10-04 At first glance Barbara Kalish fit the stereotype of a 1950s wife and mother Married at eighteen Barbara lived with her husband and two daughters in a California suburb where she was president of the Parent Teacher Association At a PTA training conference in San Francisco Barbara met Pearl another PTA president who also had two children and happened to live only a few blocks away from her To Barbara Pearl was the most gorgeous woman in the world and the two began an affair that lasted over a decade Through interviews diaries memoirs and letters *Her Neighbor's Wife* traces the stories of hundreds of women like Barbara Kalish who struggled to balance marriage and same sex desire in the postwar United States In doing so Lauren Jae Gutterman draws our attention away from the postwar landscape of urban gay bars and into the homes of married women who tended to engage in affairs with wives and mothers they met in the context of their daily lives through work at church or in their neighborhoods In the late 1960s and 1970s the lesbian feminist movement and the no fault divorce revolution transformed the lives of wives who desired women Women could now choose to divorce their husbands in order to lead openly lesbian or bisexual lives increasingly however these women were confronted by hostile state discrimination typically in legal battles over child custody Well into the 1980s many women remained ambivalent about divorce and resistant to labeling themselves as lesbian therefore complicating a simple interpretation of their lives and relationship choices By revealing the extent to which marriage has historically permitted space for wives relationships with other women *Her Neighbor's Wife* calls into question the presumed straightness of traditional American marriage

the first politicized generation of out lesbian and gay scholars with whom she helped create gender and sexuality studies
