Sarabs Secret Plan:

Bit Rot Douglas Coupland, 2017-03-07 A thought provoking binge worthy new collection of essays stories and musings from Douglas Coupland Bit Rot explores the different ways in which twentieth century notions of the future are being shredded and it is a literary gem of the digital age Bit rot is a term used in digital archiving to describe the way digital files can spontaneously and quickly decompose As Douglas Coupland writes Bit rot also describes the way my brain has been feeling since 2000 as I shed older and weaker neurons and connections and enhance new and unexpected ones Bit Rot the book is a fascinating meditation on the ways in which humanity tries to make sense of our shifting consciousness Coupland just like the Internet mixes forms to achieve his ends Short fiction is interspersed with essays on all aspects of modern life The result is addictively satisfying for Coupland s established fanbase hungry for his observations about our world and a revelation to new readers of his work For almost three decades his unique pattern recognition has powered his fiction his phrase making and his visual art Every page of Bit Rot is full of wit surprise and delight Reading Bit Rot feels a lot like bingeing on Netflix you can t stop with just one
