Editor for Justice Alexander S. Leidholdt, 2002-05-01 From his assumption of the Norfolk Virginian Pilot's editorial helm in 1919 until his death in 1950 Louis Isaac Jaff served as one of the South's leading and most respected liberal journalists Prejudice he faced as a Jew created in him an abiding empathy with the downtrodden and his World War I military service and subsequent Red Cross work deepened his sensitivity to injustice Alexander Leidholdt's new biography maps the battlefield of intolerance and civil rights violations on which Jaff fired his journalistic salvos and explores the complexities of a man who was poised to become a national spokesman for a better South Jaff worked ceaselessly to advance racial understanding successfully lobbying locally for black parks and beaches black police and a black college A high point of Leidholdt's book is the account of Jaff's attacks on mob justice a stirring record of one writer's response to what he saw as inexcusable moral sluggishness in civil authorities For his campaign urging Virginia lawmakers to adopt stiff anti-lynching legislation he earned the 1929 Pulitzer Prize for distinguished editorial writing Achieving a poignant balance between Jaff's significant professional accomplishments and the private pains he bore including anti-Semitism a mentally unstable wife and an estranged son this superb study demonstrates how Jaff's difficulties limited him as an active liberal reformer but also fueled his prescient and impassioned warnings against Hitler's rise to power in the early thirties Drawing extensively from primary source material much of it previously unexamined *Editor for Justice* makes an

important contribution to journalism and to southern Jewish and black history Readers will treasure the depiction of an extraordinary champion of human rights

The Titanic Eugene L. Rasor, 2001-09-30 Promoted as virtually unsinkable the ultimate luxury liner the largest ship in the world the RMS Titanic sank on its maiden voyage in April 1912 taking some 1 500 people to their death Aboard the ship were the wealthy and famous as well as hundreds of immigrants seeking a new life in America The most dramatic marine disaster of modern times the Titanic tragedy captured the interest and imagination of the entire world The intensity of interest in the catastrophe has increased particularly after discovery of the wreck off the coast of Newfoundland in the mid 1980s The resulting literature is vast including both scholarly and popular sources Covering more than the published literature the book also surveys memorabilia artifacts cultural icons music film and exhibitions Divided into three sections the work opens with a historiographical survey of the literature then includes descriptive lists of more peripheral material and concludes with a bibliography of 674 entries All items covered in the historiographical survey are included in the bibliography This useful guide will appeal to researchers both laymen and scholars interested in the Titanic

BOOK JACKET *The Boy Genius and the Mogul* Daniel Stashower, 2002-05-07 The world remembers Edison Ford and the Wright Brothers But what about Philo T Farnsworth the inventor of television an innovation that did as much as any other to shape the twentieth century That question lies at the heart of *The Boy Genius and the Mogul* Daniel Stashower's captivating chronicle of television's true inventor the battle he faced to capitalize on his breakthrough and the powerful forces that resulted in the collapse of his dreams The son of a Mormon farmer Farnsworth was born in 1906 in a single room log cabin on an isolated homestead in Utah The Farnsworth family farm had no radio no telephone and no electricity Yet motivated by the stories of scientists and inventors he read about in the science magazines of the day young Philo set his sights on becoming an inventor By his early teens Farnsworth had become an inveterate tinkerer able to repair broken farm equipment when no one else

could It was inevitable that when he read an article about a new idea for the transmission of pictures by radio waves that he would want to attempt it himself One day while he was walking through a hay field Farnsworth took note of the straight parallel lines of the furrows and envisioned a system of scanning a visual image line by line and transmitting it to a remote screen He soon sketched a diagram for an early television camera tube It was 1921 and Farnsworth was only fourteen years old Farnsworth went on to college to pursue his studies of electrical engineering but was forced to quit after two years due to the death of his father Even so he soon managed to persuade a group of California investors to set him up in his own research lab where in 1927 he produced the first all electronic television image and later patented his invention While Farnsworth's invention was a landmark it was also the beginning of a struggle against an immense corporate power that would consume much of his life That corporate power was embodied by a legendary media mogul RCA President and NBC founder David Sarnoff who claimed that his chief scientist had invented a mechanism for television prior to Farnsworth's Thus the boy genius and the mogul were locked in a confrontation over who would control the future of television technology and the vast fortune it represented Farnsworth was enormously outmatched by the media baron and his army of lawyers and public relations people and by the 1940s Farnsworth would be virtually forgotten as television's actual inventor while Sarnoff and his chief scientist would receive the credit Restoring Farnsworth to his rightful place in history *The Boy Genius and the Mogul* presents a vivid portrait of a self-taught scientist whose brilliance allowed him to capture light in a bottle A rich and dramatic story of one man's perseverance and the remarkable events leading up to the launch of television as we know it *The Boy Genius and the Mogul* shines new light on a major turning point in American history

The Hollywood Studio System
 Douglas Gomery, 2019-07-25 Despite being one of the biggest industries in the United States indeed the World the internal workings of the dream factory that is Hollywood is little understood outside the business *The Hollywood Studio System A History* is the first book to describe and analyse the complete development classic operation and reinvention of the global corporate entities which produce and distribute most of the films we watch Starting in 1920 Adolph Zukor Head of Paramount Pictures over the decade of the 1920s helped to fashion Hollywood into a vertically integrated system a set of economic innovations which was firmly in place by 1930 For the next three decades the movie industry in the United States and the rest of the world operated by according to these principles Cultural social and economic changes ensured the demise of this system after the Second World War A new way to run Hollywood was required Beginning in 1962 Lew Wasserman of Universal Studios emerged as the key innovator in creating a second studio system He realized that creating a global media conglomerate was more important than simply being vertically integrated Gomery's history tells the story of a tale of two systems using primary materials from a score of archives across the United States as well as a close reading of both the business and trade press of the time Together with a range of photographs never before published the book also features over 150 box features illuminating aspect of the business
