Hardy,1996 This book quickly teaches students the fundamentals of using the SAS system to manage and analyze research data It is intended for research methods or statistics courses using the SAS System to manage and analyze data in departments of psychology education sociology political science public administration statistics other sciences and engineering Attitudes Towards Social Limits, Undersocialized Behavior, and Self-presentation in Young People Hans Grietens,1999 In this book a study is presented on the attitudes of 12 to 20 year old youngsters towards social limits imposed by their social and educational environment by means of laws rules values norms or expectations The study is part of a research programme on the course and treatment of juvenile delinquency which started at the Rijksuniversiteit Groningen during the eighties Young people s attitudes towards social limits are assessed by the Standard Reaction Instrument A critical incident technique is used to elicit young people s knowledge behavioral intentions and motivations in ten hypothetical situations including social limits The instrument was administered from youngsters in secondary schools and from same aged detained youngsters who have committed at least one criminal offence which has been recorded by police or judicial authorities The responses of both groups are compared in order to test the validity of the

instrument Further the relationship is tested between the youngsters attitudes towards social limits and self reported delinquent and aggressive behavior Finally a comparison is made between the responses of Flemish and Dutch youngsters Starting point of the empirical study is a social psychological view on juvenile delinquency In this view which is based on the self presentation paradigm developed by the sociologist Ervin Goffman and the early symbolic interactionists juvenile delinquency is considered as a means of social communication towards significant others parents teachers peers society Special attention is paid to the development maintenance and management of social reputation by the juvenile delinquent

The Science of Composting Marco de Bertoldi,2013-11-11 The European Union initially demonstrated its interest in waste in the late 70s with the programme on Waste Recycling Research and Development At that time composting was only present as a coordination activity and it was only later that specific research programmes in the area were within Europe which was largely instrumental in setting up a series of European conferences seminars and work shops Some of these have resulted in publications which have made significant contributions to developments in the understanding of composting and the use of composts In particular the outputs from meetings in Oxford 1984 Udine 1986 Neresheim 1988 and Angers 1991 are worthy of note Composting has seen significant changes since the 70s when the major thrust in Europe was using mixed municipal solid waste as a feed material Many com posting plants which were built to use this material were closed due to the poor quality of the compost which made it very difficult to market As a result the main areas of interest as far as the municipalities are concerned are now with biowaste and source separated organics This interest is apparent from the many new plants which are being constructed across Europe and the ready market which exists for the products In parallel with the renewed interest of the municipalities other areas such as agriculture and the wastewater treatment industries are also developing their own schemes

SAS/INSIGHT User's Guide SAS Institute,1990 [SAS Programming for Researchers and Social Scientists](#) Paul E. Spector,2001-04-20 Second Edition SAS PROGRAMMING FOR RESEARCHERS AND SOCIAL SCIENTISTS By PAUL E SPECTOR University of South Florida University of South Florida Just what the novice SAS programmer needs particularly those who have no real programming experience For example branching is one of the more difficult programming commands for students to implement and the author does an excellent job of explaining this topic clearly and at a basic level A big plus is the Common Errors section since students will definitely encounter errors Robert Pavur Management Science University of North Texas The book that won accolades from thousands has been completely revised Taking a problem solving approach that focuses on common programming tasks that social scientists encounter in doing data analysis Spector uses sample programs and examples from social science problems to show readers how to write orderly programs and avoid excessive and disorganized branching He provides readers with a three step approach preplanning writing the program and debugging and tips about helpful features and practices as well as how to avoid certain pitfalls Spector has done an excellent job in explaining a somewhat difficult topic in a clear and concise manner I like the fact

that screen captures are included It allows students to better follow what is being described in the book in relation to what is on the screen Philip Craiger Computer Science University of Nebraska Omaha This book provides readers with even more practical tips and advice New features in this edition include New sections on debugging in each chapter that provide advice about common errors End of chapter Debugging Exercises that offer readers the chance to practice spotting the errors in the sample programs New section in Chapter 1 on how to use the interface including how to work with three separate windows where to write the program executing the program managing the program files and using the F key Five new appendices including a Glossary of Programming Terms A Summary of SAS Language Statements A Summary of SAS PROCs Information Sources for SAS PROCs and Corrections for the Debugging Exercises Plus a link to Spector s online SAS course Appropriate for readers with little or no knowledge of the SAS language this book will enable readers to run each example adapt the examples to real problems that the reader may have and create a program A solid introduction to programming in SAS with a good brief explanation of how that process differs from the usual point and click of Windows based software such as SPSS and a spreadsheet Even uninformed students can use it as a guide to creating SAS datasets manipulating them and writing programs in the SAS language that will produce all manner of statistical results James P Whittenburg History College of William Mary Bridges the gap between programming syntax and programming applications In contrast to other books on SAS programming this book combines a clear explanation of the SAS language with a problem solving approach to writing a SAS program It provides the novice programmer with a useful and meaningful model for solving the types of programming problems encountered by researchers and social scientists John E Cornell Biostatistician Audie L Murphy Memorial Hospital
